

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Capital Region	109892	Albany	Affordable Housing Partnership of the Capital Region	Sheridan Hollow Predevelopment Activities	The Affordable Housing Partnership of the Capital Region intends to undertake predevelopment activities advancing elements of the Master Plan for redevelopment within the State-designated Sheridan Hollow BOA. The project includes design for redevelopment of the Sheridan Hollow Hillside, production of an Energy Master Plan and development of architectural concepts and business feasibility studies for identified strategic sites.	DOS BOA	\$300,000
Capital Region	107203	Albany	Albany College of Pharmacy and Health Sciences	Stack Family Center for Biopharmaceutical Education and Training (CBET)	The Albany College of Pharmacy and Health Sciences in Albany County will renovate laboratory space for new Quality Assurance/Quality Control and Cell and Gene Therapy labs. The project will also perform necessary construction and renovation to install and support the operation of highly specialized biopharmaceutical laboratory equipment in The Stack Family Center for Biopharmaceutical Education and Training (CBET). This initiative will leverage partnerships with industry, academia and government agencies to deploy cutting edge biopharmaceutical manufacturing technology to support current and future workforce demands while promoting economic development, community outreach and engagement for students and practicing professionals.	ESD Grants	\$1,750,000
Capital Region	111453	Albany	Albany County	Greenhouse Gas Inventories Update	The county will update the government operations and community greenhouse gas inventories to inform policymaking, climate change mitigation and capital investments.	DEC CSC	\$15,000
Capital Region	111320	Albany	Albany County Historical Association	Ten Broeck Mansion's Stabilization and Accessibility Project	The Albany County Historical Association, which operates the 1798 Ten Broeck Mansion and over 4 acres of historic gardens as an educational museum, will complete Phase 1 Critical Stabilization and Community Accessibility work. This critical work will preserve the 18th-century Mansion and remediate water infiltration and deterioration, while creating an accessible and welcoming community greenspace in the heart of Albany's Arbor Hill neighborhood, contributing to downtown Albany's revitalization.	OPRHP EPFHPD	\$283,350
Capital Region	110936	Albany	Albany County Water Purification District	Capital Improvement Plan	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to assess the existing condition of the North Plant, South Plant, and interceptors; evaluate alternatives; and recommend improvements to the Albany County Water Purification District wastewater collection and treatment systems.	EFC EPG	\$50,000
Capital Region	109868	Albany	Albany County Water Purification District	Sludge Processing Improvements	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate the existing condition of the sewage sludge incinerators, evaluate alternatives, and recommend improvements to the Albany County Water Purification District wastewater treatment system.	EFC EPG	\$50,000
Capital Region	111617	Albany	Albany Parking Authority	Feasibility Study for the Reuse and Revitalization of the Riverfront Garage and Surrounding Areas	In conjunction with the City of Albany and downtown stakeholders, the Albany Parking Authority will conduct a market feasibility study on a mixed-use parking facility that includes commercial and/or residential waterfront facing spaces and is integrated with Kiernan Plaza. The new facility will support local businesses, tourism, support utilization of Kiernan Plaza, promote and improve recreational activities for residents and enhance the gateway to the Albany Waterfront	ESD SPFS	\$100,000
Capital Region	110413	Albany	Albany Symphony Orchestra, Inc.	Albany Symphony New York Festival of the Art of Film Music Tourism Special Event	The GRAMMY Award-winning Albany Symphony will use grant funds to launch the inaugural "New York Festival of the Art of Film Music", a showcase of new and classic music for movies, TV, and video games, plus screenings, symposia and more, presented across the Capital Region and Upper Hudson Valley in venues recovering from the impact of the COVID-19 pandemic.	ESD MNY	\$206,250
Capital Region	110992	Albany	Albany Water Board	Lincoln Park Reflection and Learning Garden	The Albany Water Board will construct the Lincoln Park Reflection and Learning Garden. The proposed garden area will provide a unique environment within Lincoln Park, which does not currently exist anywhere within the City, showcasing green infrastructure elements, diverse ecological and biohabitat, and native plantings.	OPRHP EPFPKSD	\$500,000
Capital Region	111171	Albany	CHA Consulting Inc	Hackett Boulevard Constructed Wetlands Project	The Albany Water Board will use GIGP funds to install bioretention and a constructed wetland. These green infrastructure practices will treat stormwater and protect the water quality of the Hudson River.	EFC GIGP S	\$1,250,000
Capital Region	109922	Albany	City of Albany	Brevator Street Complete Street Project	The Brevator Street complete street project will transform a wide, vehicle-oriented street into a multi-modal corridor between two of Albany's prominent arterial roads: Washington Avenue and Western Avenue. Brevator Street will be retrofitted to include new pedestrian and bicycle facilities, traffic calming, and new Bus Rapid Transit service that will serve nearby educational and job centers, including the NYS Harriman Campus, SUNY University at Albany Uptown Campus, All Saints Academy, Rosemont Park, and two high-traffic bus lines along Washington and Western Avenues. By transforming Brevator into a complete street, the City of Albany and CDTA will decrease vehicle trips, greenhouse gas emissions, and make walking, bicycling, and transit safer as well as more attractive as primary transportation options.	DEC CSC	\$2,000,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Capital Region	111236	Albany	City of Cohoes	Historic City Hall Restoration Project	The Historic City Hall Preservation and Downtown Revitalization Project involves roofing restoration and rehabilitation work for the Cohoes City Hall at 97 Mohawk Street. The City will rehabilitate the slate roof, bell tower, and masonry roof components to stop leaks, improve public safety, and revitalize City Hall as a primary cultural resource and anchor for our downtown.	OPRHP EPFHPD	\$500,000
Capital Region	110079	Albany	City of Cohoes	Historic Cohoes City Hall Carbon Neutral Initiative	The City of Cohoes will improve the Historic Cohoes City Hall's energy performance through the electrification of the building's heating ventilation and air conditioning systems and improving the building's envelope to achieve carbon neutral performance.	NYSERDA CNED	\$1,050,000
Capital Region	111334	Albany	City of Cohoes	Hudson River Waterfront Park Implementation	The City of Cohoes will advance its Urban Waterfront Rediscovery Plan goal of creating waterfront access by implementing Phase 2 of the Hudson River Waterfront Park. This Phase 2 will construct the previously funded Phase 1 park design. The Park will include a path to connect the Empire State Trail, a kayak/canoe launch, docks, wayfinding signage, seating, lighting, and other amenities.	DOS LWRP	\$900,450
Capital Region	109440	Albany	City of Cohoes	Streetscape Improvements	This project is a unique and creative streetscape improvement project on White Street, a mixed-use business district in the center of downtown and a component of the city's Brownfield Opportunity Area nomination study. It includes the reconstruction of approximately 600 linear feet of sidewalk, development of a pocket park with flexible gathering space for a wide range of activities, a bike hub and repair station, an urban composting and recycling station, a bus stop, and an environmental justice mural. This project compliments previous mass transit improvements within the city and encourages increased residential occupancy and alternative modes of travel and reduced emissions of greenhouse gases.	DEC CSC	\$460,000
Capital Region	109571	Albany	Edmund Niles Huyck Preserve, Inc.	Enhanced Public Access	Edmund Niles Huyck Preserve, Inc. will rehabilitate the Lower Falls Trail and the Boat Launch Trail to address erosion and drainage issues, protect stream water quality, and improve accessibility. The Myosotis Lake Cottage will be renovated as an accessible trailhead facility and Environmental Education Center.	OPRHP RTPNM	\$250,000
Capital Region	109809	Albany	Erie Canalway Heritage Fund, Inc.	Matton Shipyard Preservation Adaptive Reuse Initiative	The Matton Shipyard, located on the Hudson River on Van Schaick Island in Cohoes, was an active boat-building and repair facility from 1917 to 1983 and is now part of Peebles Island State Park. The Erie Canalway Heritage Fund, Inc. will remediate contaminated soils, stabilize the shoreline, and build an access road and parking lot to create a public space that is safe, accessible and flood resilient while continuing to reflect the historic working shipyard landscape.	OPRHP EPFHAPD	\$484,481
Capital Region	110989	Albany	Historic Albany Foundation	Van Ostrande-Radliff House Restoration and Reuse Project	The Historic Albany Foundation will restore the Van Ostrande-Radliff House, located at 48 Hudson Avenue, in the heart of Downtown Albany. Through this project Historic Albany Foundation will restore the roof and exterior of the oldest building in Albany so it is clearly understandable as a Dutch building from the street, with the interior being brought up to code and meet ADA requirements.	OPRHP EPFHPD	\$500,000
Capital Region	110113	Albany	Holcim US Inc	CO2 Reduction by Limestone Substitution	Holcim US will undertake a plant retrofit that will allow the facility to produce cement with lower carbon emissions. Shifting to production of low-carbon cement is crucial to addressing climate change. In order to facilitate the formula change to lower emissions, they will implement a series of capital projects at their plant in Ravena, New York.	NYSERDA CICC	\$5,000,000
Capital Region	110868	Albany	The Chazen Companies	The Seventy-Six: South End Development	The South End Development Seventy-Six project will use GIGP funds to install bioretention, a green roof, and a rainwater harvest and reuse system. These green infrastructure practices will reduce stormwater runoff in the City of Albany, and protect the water quality of the Hudson River.	EFC GIGP S	\$2,345,000
Capital Region	110446	Albany	The Salvation Army	The Salvation Army Campus of Hope	The Salvation Army in Albany will study the transformation of an existing facility in Albany's South End into a Campus of Hope to serve the community's historically economically disadvantaged residents and provide space for entrepreneurs, not-for-profit entities and residents to come together. With partners across the Greater Capital Region, The Salvation Army will study the feasibility of a multi-building poverty alleviation and workforce development center, with access to job and wealth creation opportunities.	ESD SPFS	\$32,500
Capital Region	107839	Albany	Town of Coeymans	Town of Coeymans Engineering Planning Grant Sewer Extension	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration and assess the feasibility of extending the wastewater collection system along Route 144. The engineering report will evaluate alternatives and recommend improvements to the Town of Coeymans.	EFC EPG	\$24,000
Capital Region	111666	Albany	Village of Ravena	Mosher Park Complex Upgrades	The Village of Ravena will make major improvements to Mosher Park & Pool facilities. Key upgrades include: adding a lift to make the pool Americans with Disability Act-compliant; installing a new splash pad; resurfacing ball courts; and building a new pavilion. The revitalized facilities will increase the use and public access to pool and park facilities, and improve health and fitness levels for those using the park.	OPRHP EPFPKSD	\$197,442

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Capital Region	110055	Albany, Rensselaer, Saratoga, Schenectady	Albany Schoharie Schenectady Saratoga BOCES	Shared Occupational Health and Safety Services	Albany-Schoharie-Schenectady-Saratoga BOCES will expand its Occupational Health and Safety Service program, to jointly help partner municipalities' with health, safety and environmental compliance.	DOS LGE	\$800,000
Capital Region	110714	Columbia	Ancram Opera House Theater, Inc.	Ancram Opera House Theater Project	Ancram Opera House Theater, Inc. will renovate a vacant building into mixed-use artist housing and office space for the Theater in the Town of Ancram's downtown.	HCR NYMS	\$255,675
Capital Region	110156	Columbia	City of Hudson	The City of Hudson Smart Growth Plan	The City of Hudson will develop a Smart Growth Plan that will include Smart Growth Principles. It will include housing opportunities and choices; walkability; economic opportunity; climate change and resiliency; and energy efficiency. The process will be community driven and involve continual public participation.	DOS SG	\$67,500
Capital Region	110667	Columbia	Columbia County Historical Society	The Luykas Van Alen House Moisture Mitigation & Stabilization Project	Columbia County Historical Society continues restoration projects at Luykas Van Alen House located at 2589 Route 9H in Kinderhook. The current project focuses on issues of moisture mitigation caused by the 1967 pond added to decorate the front lawn. This project will drain the pond and return the front lawn to its original natural environment; address restoration of front stoops; and finally stabilize the house's south gable end wall.	OPRHP EPFHPD	\$75,500
Capital Region	111182	Columbia	Galvan Initiatives Foundation	Hudson Forum	The Hudson Forum is a project by the Galvan Foundation to restore the former Hudson Community Theatre into a premier community asset for the City of Hudson. Grant funds will be used to provide new opportunities to the local arts and cultural community, while also contributing to economic development by attracting tourists and creating jobs.	ESD MNY	\$602,629
Capital Region	108289	Columbia	Hudson-Athens Lighthouse Preservation Society	Hudson-Athens Lighthouse Restoration	The Hudson-Athens Preservation Society will restore and repair the iconic 1874 Hudson-Athens Lighthouse. The goals are to protect the building in anticipation of further restoration work; increase visitor safety and access, and restore the historic water system to enhance interpretive tours.	OPRHP EPFHPD	\$500,000
Capital Region	109738	Columbia	Philmont Beautification, Inc.	Main Street Pre-development Reuse Studies	Philmont Beautification, Inc. will use funds for feasibility analysis and re-use options for properties in the Village of Philmont's downtown.	HCR NYMS	\$20,000
Capital Region	109703	Columbia	South Front Street Holdings LLC	Red Barn Hudson Carbon Neutral Project	Located in Hudson's previously awarded Downtown Revitalization Initiative Bridge District, the historic post + beam Barn building will be an anchor for waterfront revitalization. The Red Barn project includes work to seal the thermal envelope and install energy-efficient, all-electric systems and equipment for heating, cooling, hot water, and ventilation (including for a commercial catering kitchen), and will use all energy from solar arrays. The project is in a Disadvantaged Community.	NYSERDA CNED	\$601,234
Capital Region	107728	Columbia	The Olana Partnership Inc	Frederic Church Center	The Frederic Church Center (FCC) is a sustainably designed, carbon neutral visitor center for the Olana State Historic Site. The FCC will be the threshold to an immersive visitor experience of Olana as a unique, world-class carbon neutral tourist destination at the intersection of American art and environmental consciousness.	NYSERDA CNED	\$1,868,776
Capital Region	107728	Columbia	The Olana Partnership Inc	Frederic Church Center Tourism Capital Project	Olana State Historic Site will use capital funds to construction the Frederic Church Center, a new carbon neutral visitor arrival and orientation facility. The facility is projected to increase Olana's overall number of visitors as well as the regional economic impact.	ESD MNY	\$1,400,000
Capital Region	111182	Columbia	Galvan Initiatives Foundation	Hudson Forum	The Hudson Forum is a project by the Galvan Initiatives Foundation to restore the former Hudson Community Theatre into a premier community asset for the City of Hudson. This project will provide new opportunities to the local arts and cultural community, while also contributing to economic development by attracting tourists and creating jobs	ESD Grants	\$900,000
Capital Region	109676	Greene	335 Main Street LLC	Catskill Gateway Carbon Neutral Project	Across three buildings on Catskill's historic Main Street, this revitalization project will renovate the buildings to create a new destination for Catskill and the greater region. Catskill Gateway will use renewable energy to power a 25-room select-service hotel plus spaces for dynamic new businesses. The project is located in a Disadvantaged Community. This project includes weatherization upgrades to support net zero energy performance, the installation of solar arrays, and will use all-electric, energy efficient equipment throughout the buildings.	NYSERDA CNED	\$1,914,059
Capital Region	107190	Greene	Hudson Hall	Hudson Jazz Festival Tourism Special Event	Hudson Jazz Festival is a destination festival designed to support the next generation of jazz artists and benefit local businesses, jazz artists and audiences through positioning Hudson as a world-class tourist destination. The Festival also offers pathways for local residents to participate in and benefit from Hudson's creative economy through concerts, workshops, school programs and employment.	ESD MNY	\$129,600
Capital Region	111127	Greene	Village of Hunter	Firehouse Relocation	The Village of Hunter will relocate the village fire station 0.15-miles west of the current site outside of the regulatory floodway and the 100-year and 500-year flood hazard areas of the Schoharie Creek. The existing fire station and back building will be demolished and replaced with a municipal park with streamside access. Currently, the existing fire station becomes inaccessible during even moderate flood events due to the undersized bridge. Relocation of the firehouse will allow for the expansion of the bridge and greatly alleviate flooding throughout the village.	DEC CSC	\$1,970,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Capital Region	111109	Greene	Lokal Astoria, LLC	Lokal Astoria	The project will transform a currently vacant motor lodge into a four season tourist destination. The project will feature 25-30 newly renovated or constructed cabins, a new restaurant, and a newly constructed pool/bar. New outdoor wellness amenities will include Spa Cabins, hot tubs, a cold plunge tank, saunas and a yoga platform overlooking a picturesque landscape that includes an adjacent creek and wooded area.	ESD Grants	\$750,000
Capital Region	110491	Greene	Thomas Cole Historic House (DBA Thomas Cole National Historic Site)	Thomas Cole Master Plan: Infrastructure for Economic Growth	The Thomas Cole Master Plan - Infrastructure for Economic Growth Project invests in new facilities and infrastructure improvements at a national historic landmark to accommodate increased tourism and visitation to the Capital Region. A new 1,800 square-foot Visitor Center with exhibit space and outdoor terrace will be constructed. Facility upgrades to multiple iconic buildings will increase energy efficiency and improve climate conditions for historic preservation. Infrastructure upgrades will improve visitor safety and site accessibility. Spaces will be reconfigured to maximize and expand programming, and events and outdoor areas will be landscaped to enhance the rural feel of the campus and make it more visually compatible with the environment.	ESD Grants	\$360,000
Capital Region	109371	Greene	Wylder Windham LLC	Wylder Windham	Wylder Windham will renovate the historic Thompson House to become a premier tourist attraction that will create jobs in the heart of the Catskill Mountains.	ESD Grants	\$750,000
Capital Region	111464	Rensselaer	New York State Tourism Industry Association	Tourism Marketing Initiatives For Pandemic Recovery Resurgence	NYSTIA will use the grant funds to initiate "Tourism Marketing Initiatives For Pandemic Recovery and Resurgence", a multi-media marketing plan specifically designed to address tourism recovery and resurgence.	ESD MNY	\$534,450
Capital Region	108355	Rensselaer	Tech Valley Center of Gravity (TVCOG)	Manufacturing Incubator at Tech Valley Center of Gravity	The manufacturing incubator and Protostar rapid prototyping center at the Tech Valley Center of Gravity in Troy, New York is focused on assisting manufacturing start-ups by providing a one-stop shop for prototype development and the skills and structure needed for successful launch of a small-scale manufacturing business. The center provides on-site prototype development technology and equipment, space for meetings, presentations and co-working, direct access to entrepreneurship and commercialization training programs. These services are provided in a vibrant urban environment within a robust creative community in close proximity to a pool of ingenuity and talent from no less than eight colleges and universities, including three engineering research centers.	ESD BIHS	\$625,000
Capital Region	110026	Rensselaer	The Arts Center of the Capital Region	Troy Night Lights Tourism Special Event	Troy Night Lights is a partnership between the Arts Center of the Capital Region and the Rensselaer County Regional Chamber of Commerce. It opens at the 40th Annual Victorian Stroll and stays lit for the busy holiday season. Grant funds will be used to produce and market major installations of light based art that will dazzle the eye and draw the shopper through the streets and shops of Troy.	ESD MNY	\$75,000
Capital Region	110546	Rensselaer	Town of Sand Lake	Town of Sand Lake Beach Enhancements	The Town of Sand Lake will improve and expand the Town Beach on Reichard's Lake into a waterfront park adding an ADA compliant boat launch, beach and swimming area expansions, waterfront walking path and seating area, picnicking facilities and renovations to the existing beach facility.	OPRHP EPFPKSD	\$121,000
Capital Region	108421	Rensselaer	Town of Schodack	Town of Schodack Battisti Drinking Water Improvement Project	The Town of Schodack in Rensselaer County will use \$1,250,00 in NYS CDBG funding to make a new water district in "The Battisti Subdivision." The total project cost is \$1,900,00 The project will benefit 141 persons of which 76 or 54% of whom are low-moderate income persons.	HCR CDBGPI	\$1,250,000
Capital Region	109933	Rensselaer	Town of Schodack	Town of Schodack WWTP Engineering Planning Grant	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate disinfection alternatives and recommend improvements to the Town of Schodack's wastewater treatment system.	EFC EPG	\$24,950
Capital Region	108774	Rensselaer	Village of Valley Falls	Historic Valley Falls BOA Nomination	The Village of Valley Falls intends to develop a BOA Nomination for approximately 147 acres within the historic village. The study area includes the 23-acre former Thompson Mill site adjacent to the Hoosic River. The objective is to increase access to the riverfront and expand open space, park and recreation opportunities along the Hoosic River, as well as identify potential areas of contamination and reduce the number of vacant and underutilized properties.	DOS BOA	\$125,000
Capital Region	110093	Saratoga	City of Mechanicville	Inflow and Infiltration Study Phase 2	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the City of Mechanicville's wastewater collection system.	EFC EPG	\$24,000
Capital Region	110757	Saratoga	Saratoga County Sewer District No. 1	Biosolids Facility	The Saratoga County Sewer District project will use GIGP funds to reduce energy consumption at their Wastewater Treatment Plant through biogas production created by new digesters.	EFC GIGP E	\$2,000,000
Capital Region	110467	Saratoga	Town of Halfmoon	Canal Road Trailhead Expansion	The Town of Halfmoon will improve and expand an Empire State Trail trailhead near the intersection of Crescent Visher-Ferry Rd., Old Canal Rd, and Crescent Bridge, and create a new paved parking area, increasing parking capacity.	Canals	\$100,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Capital Region	108364	Saratoga	Town of Moreau	Big Bend Trail: Phase 1	The Town of Moreau will complete Phase 1 of the Big Boom Trail located at the terminus of Nolan Road and site of the Hudson River Boat Launch. Phase 1 consists of trailhead parking, Gateway improvements, Waterfront Trail Loop, accessible kayak launch, fishing piers, and overlook area. The project is 1 of 3 phases which will connect bicyclists and hikers from Nolan Road to Moreau State Park and beyond to the Palmertown Ridge Trail System.	OPRHP RTPNM	\$250,000
Capital Region	107918	Saratoga	Town of Saratoga	Champlain Canalway Boat Launch Trail	The Town of Saratoga will install a new segment of the planned Champlain Canalway Trail allowing a portion of the CCT and EST to pull off the heavily trafficked Route 4 corridor. The trail segment begins at the Hudson River Boat Launch and follows north along the Hudson Valley Railway Trolley bed.	Canals	\$85,000
Capital Region	107449	Saratoga	Village of Ballston Spa	Village of Ballston Spa BOA Nomination	The Village of Ballston Spa intends to develop a BOA Nomination for a 176-acre area encompassing a large portion of the downtown center along NYS Rt. 50, and two adjacent water bodies - the Gordon and Kayaderoseras Creeks. The village intends to prioritize four areas for redevelopment within the BOA to create transformative redevelopment of the central core of the village, increase access to waterfront property, and return underutilized properties to productive use.	DOS BOA	\$153,000
Capital Region	106333	Saratoga	Artisanal Brew Works Town of Wilton	Artisanal Brew Works Expansion Project	Artisanal Brew Works in Saratoga Springs, NY invests in new equipment and a new facility to meet the growing demand for craft beverages and better accommodate visitors to its on-site tasting room with the addition of restaurant service.	ESD Grants	\$100,000
Capital Region	106843	Saratoga	Hudson Valley Community College	Expanding STEM and Healthcare Workforce Development Education in Upstate NY	HVCC will renovate/create new training facilities to increase enrollment capacity for education and skills training in high-demand health science, STEM and skilled trades programs, to support vital industry partners.	ESD Grants	\$2,500,000
Capital Region	108130	Saratoga	Saratoga County Sewer District No. 1	SCSD WWTP Ammonia Removal Project	The proposed upgrades to Saratoga County's Waste Water Treatment Plant includes installation of efficient technology for the biological removal of ammonia from wastewater. The project will repair aged infrastructure, protect the Hudson River and downstream communities, and continue to allow Global Foundries, and other regional manufacturers, to make economic investments and create new jobs in the community.	ESD Grants	\$2,750,000
Capital Region	111095	Saratoga	Wright Electric Inc.	Wright Electric Laboratory	Wright Electric, a company committed to reducing the environmental footprint of aviation through electric propulsion and novel aircraft design, is locating their new Wright Laboratory in the Capital Region. This lab will be committed to the development and testing of high power, high voltage testing of aircraft electric propulsion system and will provide high paying jobs to the Capital Region.	ESD EJP	\$500,000
Capital Region	111174	Schenectady	City of Schenectady	Mohawk River Inflow Reduction Project	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the City of Schenectady's wastewater collection system.	EFC EPG	\$50,000
Capital Region	108221	Schenectady	Town of Glenville	Maalwyck Park Kayak Launch	The Town of Glenville will construct a car-top boat launch, shoreline parking, and make shoreline resiliency improvements at Maalwyck Park near Lock E-8, and a deteriorating existing access road will be repaved.	Canals	\$150,000
Capital Region	107827	Schenectady	Town of Glenville	Van Buren Road Trail	The town will install an 8-foot-wide asphalt bicycle and pedestrian path, painted crosswalks, and pedestrian crossing signage along the north side of Van Buren Road in Glenville connecting the Glenville Town Center, the Anderson Dog Park, and other existing greenway trails. Improved bicycle and pedestrian connectivity supports a healthy lifestyle and reduces carbon emissions by providing alternative modes of transportation and commuting. This project will help relieve traffic congestion and reduce greenhouse gas emissions while providing a safer, healthier route from residential areas to the Glenville Town Center and public open spaces.	DEC CSC	\$610,380
Capital Region	111414	Schenectady	Town of Niskayuna	Greenhouse Gas Inventories and Government Operations Climate Action Plan	The town will conduct inventories of greenhouse gas emissions, both from government operations and from the whole community. The town will also develop a climate action plan focused on reducing emissions from its government operations.	DEC CSC	\$25,000
Capital Region	110470	Schenectady	Town of Rotterdam	Design and Construction of Kiwanis International Park Waterfront Access Improvements	The Town of Rotterdam will design and construct waterfront access improvements at Kiwanis International Park on the Mohawk River. Improvements include the installation of a kayak launch, floating docks, a bulkhead along the shoreline, and landscaping. These improvements will expand water-dependent activities and promote public access to the Town's waterfront.	DOS LWRP	\$225,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Capital Region	109779	Schenectady	Village of Scotia	Village of Scotia Downtown Revitalization BOA Nomination	The Village of Scotia intends to develop a BOA Nomination for approximately 300-acres within the village. A high current concentration of vacant, underutilized and brownfield property negatively affects the community's redevelopment potential. The goal of the BOA is to further past planning initiatives completed by the village to reconnect Scotia to its waterfront, use place-making strategies to improve quality of life, and retain and attract new residents.	DOS BOA	\$200,000
Capital Region	110270	Warren	Essity Hygiene	Essity Energy Efficiency Portfolio	Essity Hygiene will be working with Ecosave, an energy services provider, across two facilities: a paper mill located in South Glen Falls and a packaging and finishing facility located in Greenwich, to reduce energy and carbon dioxide emissions. They will be installing a suite of energy saving measures as part of the first phase of a comprehensive energy efficiency portfolio plan.	NYSERDA CICC	\$980,650
Capital Region	110604	Warren	The Hyde Collection	Reimagine The Hyde Collection Tourism Marketing Plan	The Hyde Collection will use fund to develop and implement the REIMAGINE project, a three-year initiative designed to improve the visitor experience and promote the Museum, its collection/exhibitions, and Glens Falls and the overall Capital District region, as a significant travel destination for art and cultural tourists.	ESD MNY	\$137,394
Capital Region	108768	Warren	Town of Bolton	Veterans Memorial Park Visitor Enhancement & Waterfront Connectivity Improvements	The Town of Bolton will advance its Local Waterfront Revitalization Program by implementing the first phase of the Veterans Memorial Park Master Plan. This project will provide universally-accessible pedestrian access from the public docks to newly constructed amenities, such as a restroom facility, pavilion, destination playground, improved waterfront picnic area, critical stormwater management improvements, and additional Veteran's Memorial Plaza space.	DOS LWRP	\$975,000
Capital Region	109374	Warren	Town of Johnsburg	North Creek Connector Trail	The Town of Johnsburg will re-route the existing Connector Trail to provide access from North Creek to Ski Bowl Park. This non-motorized public trail will be used by cross-country skiers, snowshoers, mountain bikers, and hikers year-round, and provides back-country skiers and day hikers a trail to North River.	OPRHP RTPD	\$35,450
Capital Region	108898	Warren	Town of Johnsburg	Town of Johnsburg Comprehensive Plan	The Town of Johnsburg will update the town's long-range Comprehensive Plan to address new challenges and opportunities existing in the community. The updated plan will incorporate Smart Growth Principles that promote compact development, climate change/resiliency, and greater coordination and integration. The plan will also seek to incorporate goals that welcome social and economic diversity.	DOS SG	\$90,000
Capital Region	111284	Warren	Warren County	Housing Needs and Demand Analysis Plan	Warren County, the applicant, requests CDBG Planning Assistance Funding of \$46,000 to develop a housing needs and demand analysis plan. Matching funds in the amount of \$20,000 are committed from Warren County Local Development Corporation and Economic Development Corporation Warren County. The Warren County Planning Department will provide in-kind technical services valued at \$10,000.	HCR CDBGCP	\$46,000
Capital Region	107933	Warren	Warren County	Organics Management Plan	The county will develop an organics management plan that will assess strategies for reducing food waste, as well as the diversion of food waste from the landfill and waste incinerator to reduce the release of methane, a powerful greenhouse gas, into the atmosphere.	DEC CSC	\$40,000
Capital Region	110825	Warren	Warren County	Schroon Lake Aquatic Invasive Species Initiative	Warren County will partner with municipalities and state agencies to implement a comprehensive aquatic invasive species prevention and control program for the Schroon Lake Basin. The program will improve coordination amongst the communities around Schroon Lake in efforts to launch mobile and alternative decontamination stations and to use technologies to share collected data. Invasive species management has been identified as a top priority in the Schroon Lake Watershed Management Plan.	DOS LWRP	\$251,838
Capital Region	109263	Warren	Warren County	Warren County Outdoor Recreation Economy Strategic Plan	Warren County will develop an Outdoor Recreation Economy Strategic Plan to increase the economic impact of outdoor recreation on job creation, entrepreneurship, and tourism. The planning process will result in the identification of capital projects, the development of a business attraction and retention plan, and benchmarking to measure industry performance.	ESD SPFS	\$42,500
Capital Region	110718	Warren	Warren County Soil Water Conservation District	Warren County Aquatic Connectivity and Culvert Planning-- Chester Stock Farm Road	Warren County Soil and Water Conservation District will assist the Town of Chester Highway Department with the engineering for the replacement of an undersized, deformed culvert on an unnamed tributary to the headwaters of Potter Brook. The new structure will improve water quality and allow for aquatic passability.	DEC NPS	\$30,000
Capital Region	111525	Warren	Warren County Soil Water Conservation District	Warren County Aquatic Connectivity and Culvert Planning-- Horicon Alder Brook Road	Warren County Soil and Water Conservation District will assist the Town of Horicon Highway Department with the engineering for the replacement of an undersized and corroded culvert on Alder Brook Road in the Town of Horicon. The new culvert will improve the water quality of Alder Brook and Schroon River.	DEC NPS	\$30,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Capital Region	109785	Warren	Warren County Soil Water Conservation District	Warren County Aquatic Connectivity and Culvert Planning--Warrensburg Swan Street	The Warren County Soil and Water Conservation District will prepare an engineering report to help the Town of Warrensburg Highway Department with the replacement of an undersized, degrading culvert. The culvert is in an unnamed tributary to the Schroon River. The new structure will improve water quality and allow for aquatic passability.	DEC NPS	\$30,000
Capital Region	108394	Warren	Lake ChamplainLake George Regional Planning Board	North Creek Wastewater Infrastructure	The Town of Johnsbury will construct a new wastewater collection and treatment system in the downtown business district of North Creek. The lack of a public sewer system has inhibited business expansion and infill development for decades. This project will reinvigorate and remove barriers to downtown business activity, provide greater opportunity for industry diversification, and improve employment opportunities for low-income households.	ESD Grants	\$1,600,000
Capital Region	108886	Washington	Town of Dresden	Town of Dresden Sewer District 1 Engineering Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to ensure the existing condition of the wastewater collection system within Sewer District No. 1, evaluate alternatives, and recommend improvements to the Town of Dresden.	EFC EPG	\$30,000
Capital Region	109994	Washington	Town of Kingsbury	Town of Kingsbury Comprehensive Plan	The Town of Kingsbury will complete a town-wide Comprehensive Plan which will incorporate Smart Growth principles. The Plan will include sustainability and robust community inclusion to ensure the Plan is representative of the community and its residents. The Plan will include addressing balanced conservation and preservation of natural features and agriculture as well as assessing the needs of the community such as housing, renewable energy, infrastructure, and economic development.	DOS SG	\$40,860
Capital Region	106972	Washington	Village of Greenwich	Village of Greenwich Downtown Revitalization	The Village will assist in the renovation of mixed-use properties in the Village's downtown.	HCR NYMS	\$428,500
Central New York	111470	Cayuga	Cayuga County Soil and Water Conservation District	Cayuga Lake Watershed Culvert Assessments - Cayuga County	The Cayuga County Soil and Water Conservation District will assess road/stream culvert crossings in the Cayuga Lake watershed using the North American Aquatic Connectivity Collaboration framework. The report will identify the culverts needing replacement to reduce erosion of sediment and improve aquatic connectivity.	DEC NPS	\$20,245
Central New York	111562	Cayuga	Cayuga County Soil and Water Conservation District	Lake Ontario Watershed Culvert Assessments - Cayuga County	The Cayuga County Soil and Water Conservation District will assess road/ stream culvert crossings in the area of Little Sodus Bay in the Lake Ontario watershed. This assessment will use the North American Aquatic Connectivity Collaboration framework. The report will identify the culverts needing replacement to improve water quality and aquatic connectivity.	DEC NPS	\$4,764
Central New York	110353	Cayuga	Cayuga County Soil and Water Conservation District	Skaneateles Lake Watershed Culvert Assessments - Cayuga County	Cayuga County Soil and Water Conservation District will assess road/stream culvert crossings in the Skaneateles Lake Watershed using the North American Aquatic Connectivity Collaboration framework and produce a culvert site assessment report for projects to address erosion caused by failing or inadequately sized culverts.	DEC NPS	\$4,363
Central New York	110351	Cayuga	City of Auburn	Casey Park Skate Park	The City of Auburn will construct a poured in place concrete skate park at Casey Park.	OPRHP EPFPKSD	\$250,000
Central New York	111308	Cayuga	City of Auburn	NYS Equal Rights Heritage Center Tourism Marketing Plan	The City of Auburn will use the grant funds to develop and implement marketing and destination events for the new NYS Equal Rights Heritage Center in Auburn. The Center is a heritage-tourism promotion center that communicates the pioneering role that the State has played in the ongoing quest for Equal Rights and acts as a visitor launching pad for visitors to discover Equal Rights heritage attractions throughout NYS.	ESD MNY	\$300,000
Central New York	108599	Cayuga	Seward House Museum	Barn and Carriage House Rehabilitation	The Seward House Museum will save two historic structures on its campus by converting them into usable space for the public. After performing intensive preservation work, the Museum's barn will serve as a multipurpose space for year-round use and the carriage house will become an accessible exhibit space for the Seward carriage. Altogether, this adaptive reuse will enhance the Museum's campus and offer new experiences for all to enjoy.	OPRHP EPFHPD	\$500,000
Central New York	110183	Cayuga	Veterans Memorial Park Association, Inc.	Veterans Memorial Park Project	Veterans Memorial Park Association will renovate the former Auburn Babe Ruth League Park in Aurelius into two ASA- compliant softball fields with supporting facilities, such as concession stand and bathrooms.	OPRHP EPFPKSD	\$300,000
Central New York	110779	Cayuga	Village of Port Byron	Port Byron WWTP Improvements	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate solids dewatering alternatives and recommend improvements to the Village of Port Byron's wastewater treatment system.	EFC EPG	\$30,000
Central New York	107473	Cayuga, Cortland, Madison, Onondaga, Oswego	CenterState Corporation for Economic Opportunity	The Tech Garden - Innovation Hot Spot	The Tech Garden, located in downtown Syracuse, will increase their professional services resource pool in order to: increase outreach to veterans and diverse entrepreneurs; increase the number and types of workshops and programs; design and implement a new Commercialization Course; provide startups with access to professional business development services at no cost; improve access to capital; improve the tracking of impact data; and improve regional communication around the sharing of best practices.	ESD BIHS	\$1,250,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Central New York	108814	Cayuga, Cortland, Madison, Onondaga, Oswego	Upstate Medical University CNY Biotech Certified Business Incubator	Upstate Medical University CNY Biotech Certified Business Incubator	Central New York Biotech Accelerator (CNYBAC), a NYS Certified Business Incubator, is an academic-based biotech incubator/accelerator located in Syracuse, NY. Upstate Medical University, the region's only academic medical center, maintains operational support for CNYBAC, a 60,000 square foot LEED Silver Certified building, and promotes ready access to Upstate's experts, facilities and equipment. CNYBAC's labs, offices, conference rooms, TED-enabled 200+ seat theater, National Grid Creation Garage, Café and short-term occupancy Pods are available to for-profit biotech startups, early discovery innovators, entrepreneurs, mentors, service providers and innovation clubs.	ESD BIHS	\$625,000
Central New York	109626	Cortland	City of Cortland	Keator Block Redevelopment Project	The City of Cortland will assist in the renovation of the Keator Block located at 107-111 Main Street in the City's downtown.	HCR NYMS	\$500,000
Central New York	111472	Cortland	Cortland County Soil and Water Conservation District	Hoxie Gorge Stream Corridor Stabilization and Erosion Control Study in Cortland County	The Cortland County Soil and Water Conservation District will prepare a stream corridor management plan and engineering design report for a streambank stabilization project on Hoxie Creek to reduce erosion, protect infrastructure, and enhance flood resilience.	DEC NPS	\$30,000
Central New York	109692	Cortland	Main Street Farms LLC	185 South Main Street Cold Storage	The Main Street Farms project located in Cortland, NY will add storage capacity as well as allow for all washing and storage of produce to be housed at the same location. The finished carbon neutral project will include coolers, workspace for washing and packing orders, and installation of a solar array.	NYSERDA CNED	\$410,590
Central New York	108950	Cortland	New York Hemp Oil	185 South Main Street Upgrade/Facility Build-out Project	New York Hemp Oil, LLC will renovate and expand its facility in Cortland, Cortland County, which will allow New York Hemp Oil to expand product offerings, increase testing capabilities, and execute a long term growth strategy consistent with the changing market.	ESD Grants	\$300,000
Central New York	110954	Cortland	Town of Cortlandville	Gutchess Lumber Park Development: Phase 2	The Town of Cortlandville will construct Phase 2 of Gutchess Lumber Park, including walking trails, a restroom/changing facility, a shade structure for the playground, and landscaping to provide shade for park patrons.	OPRHP EPFPKSD	\$500,000
Central New York	111043	Madison	Madison County	Earlville Main Street Project	Madison County will assist in the renovation of mixed-use properties in the Village of Earlville's downtown.	HCR NYMS	\$225,000
Central New York	108775	Madison	Oneida Community Mansion House	Revitalization of Historic Oneida Community Mansion House: Phase 2	National Historic Landmark - Oneida Community Mansion House will complete Phase 2 priorities of its Exterior Rehabilitation Project. The complex is a museum, lodging, cultural performance and event venue that needs this Phase 2 restoration to preserve its cultural significance, historic status, and economic value to the Central New York Region and upstate's renaissance.	OPRHP EPFHPD	\$500,000
Central New York	107467	Madison	SEPAC Machining LLC dba Lakeside Innovative Technologies	LITES Manufacturing Expansion	SEPAC Machining, LLC will invest approximately \$1,524,000 to expand its facility in Chittenango, Madison County. The project will add 7 jobs to its existing 31 jobs.	ESD EJP	\$100,000
Central New York	107467	Madison	SEPAC Machining LLC dba Lakeside Innovative Technologies	LITES Manufacturing Expansion	SEPAC Machining, LLC will invest approximately \$1,524,000 to expand its facility in Chittenango, Madison County. The project will add 7 jobs to its existing 31 jobs.	ESD Grants	\$150,000
Central New York	107696	Madison	Town of Cazenovia	Stormwater Flood Mitigation	This project addresses two locations in the town where the existing stormwater infrastructure is increasingly unable to capture and convey runoff from intense rainfall events that are resulting from changes in climate patterns. Work includes the removal and replacement of collapsed and inadequate culverts and improperly located catch basins and storm piping to increase flow capture, removal of curbing and catch basins and repaving to provide sheet flow, a new storm sewer and swale system to intercept runoff, and a hydrodynamic separator unit for one site that will provide sediment removal to improve the quality of runoff water into a tributary of Cazenovia Lake.	DEC CSC	\$232,000
Central New York	109723	Madison	Town of Eaton	Town of Eaton Community Park	The Town of Eaton will develop and construct a town park on Eaton Road which will provide an amphitheater, walking trail, exercise stations, plaza and veterans memorial for farmers markets and festivals, volleyball court, spray park and fountain, picnic pavilion, and restroom facilities.	OPRHP EPFPKSD	\$496,870
Central New York	108429	Madison	Village of DeRuyter	DeRuyter Planning - Water Improvement Study	The Village of DeRuyter, Madison County will use \$39,425 in NYS CDBG funds to complete a Community Planning Grant for Water System Engineering and Needs Assessment. The total project cost will be \$41,500 with \$2,075 from non-CDBG sources from the Village Water Account. The project will benefit the entire Village, a 59.63% LMI Community.	HCR CDBGCP	\$39,425
Central New York	109928	Madison	Village of Morrisville	Morrisville Engine House Roof and Cupola Repair	The Village of Morrisville will renovate the roof and cupola of its historic Engine House. The goal is to continue the restoration of the Engine House to its condition in the early 20th century.	OPRHP EPFHPD	\$59,775
Central New York	111005	Madison, Onondaga, Oswego	NYSSA SLEDNY	Spend Winter With Us Tourism Marketing Plan	The grantee will use the funds to produce a multi media promotional project to encourage snowmobile tourism in destination communities throughout New York State.	ESD MNY	\$50,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Central New York	108310	Onondaga	Central New York Regional Planning & Development Board	Town and Village of Elbridge Comprehensive Plan	The Town and Village of Elbridge will develop a Joint Comprehensive Plan in support of Smart Growth principles. The Town and Village of Elbridge comprise a largely rural area located in Central NY on the Empire State Trail. The Comprehensive Plan will include planning for the Central NY Peace Trail Bike touring corridor that intersects with the Empire State Trail and is planned to connect heritage resources.	DOS SG	\$40,000
Central New York	111490	Onondaga	Everson Museum of Art of Syracuse and Onondaga County	Everson Sculpture Park	The Everson Museum of Art will use the grant funds to expand and renovate the existing Everson Community Plaza, by creating an iconic outdoor gathering space for the CNY region. The Everson Sculpture Park will become a must-see destination for travelers while visiting the Central New York region.	ESD MNY	\$800,000
Central New York	110729	Onondaga	Onondaga County	Village of East Syracuse Main Street Revitalization	Onondaga County will assist in the renovation of mixed-use properties in the Village of East Syracuse's downtown.	HCR NYMS	\$341,312
Central New York	108537	Onondaga	Town of Geddes	Shared Property Data Collection	The Town of Geddes, in collaboration with the Town of Onondaga and the Village of Solvay, will complete a shared property data collection project, critical for the revenue optimization strategies of the partnering municipalities.	DOS LGE	\$295,974
Central New York	110552	Onondaga	Town of Geddes	Westvale Plaza Improvements	The town will implement a key recommendation from a recently adopted comprehensive plan to incorporate sidewalk extensions to Westvale Plaza and provide improved multi-modal connectivity between current and future developments along the corridor. Pedestrians are frequently observed attempting to cross busy intersections in this area and this route is used by bicyclists riding to, and from, the City of Syracuse. Implementation of this project will have a positive impact on public safety, the economy, and the quality of life for local residents.	DEC CSC	\$219,161
Central New York	109328	Onondaga	Town of Manlius	Climate Action Plans	The town will develop two plans for reducing greenhouse gas emissions, one focused on government operations and a second focused on emissions from the whole community.	DEC CSC	\$22,250
Central New York	110151	Onondaga	1970 W Fayette, LLC	Gere Block Redevelopment	1970 W Fayette, LLC will redevelop the former Strathmore Paints building located at 1970 W. Fayette Street in Syracuse. The project includes a food co-op with warehousing, office space, co-working space and a brain education center.	ESD Grants	\$978,396
Central New York	108149	Onondaga	ANHEUSER BUSCH	Baldwinsville Manufacturing Center of Excellence	The investments made to the Anheuser-Busch Baldwinsville Brewery will create new jobs, enhance the brewery's innovative production equipment, upgrade the brewery's packaging capabilities, and help maintain the brewery's leadership position as a center of excellence for the research and development of new products for Anheuser-Busch.	ESD EJP	\$500,000
Central New York	108149	Onondaga	ANHEUSER BUSCH	Baldwinsville Manufacturing Center of Excellence	The investments made to the Anheuser-Busch Baldwinsville Brewery will create new jobs, enhance the brewery's innovative production equipment, upgrade the brewery's packaging capabilities, and help maintain the brewery's leadership position as a center of excellence for the research and development of new products for Anheuser-Busch.	ESD Grants	\$500,000
Central New York	111360	Onondaga	CenterState CEO	Fotokite Expansion	Perspective Robotics US, LLC will be one of the largest and first tenants at the former Syracuse Development Center in Onondaga County which has been vacant since 1998. This will allow the company to develop its global production center. The new site will contain state-of-the art manufacturing facilities as well as new lab and office space for the company.	ESD EJP	\$2,500,000
Central New York	111360	Onondaga	CenterState CEO	Fotokite Expansion	Perspective Robotics US, LLC will be one of the largest and first tenants at the former Syracuse Development Center in Onondaga County which has been vacant since 1998. This will allow the company to develop its global production center. The new site will contain state-of-the art manufacturing facilities as well as new lab and office space for the company.	ESD Grants	\$2,500,000
Central New York	107296	Onondaga	Discovery Center of Science and Technology	MOST - Digital Theater Upgrade	The Discovery Center of Science and Technology (dba the "MOST") will renovate its existing Omnitheater and convert it into a state-of-the-art digital planetarium and theater. The current Omnitheater is outdated and facing increasing limitations on available content and programming opportunities. Completion of this project will redefine the MOST by providing an experience unlike any other in the region, making Armory Square a true destination for visitors.	ESD Grants	\$250,000
Central New York	111565	Onondaga	Punch and Die Metal Fabrication, LLC	401 West Taylor Street, 2nd App	Punch and Die Metal Fabrication will move all operations of their woman-owned sheet metal fabrication shop to Syracuse's near South Side. Within their new space they'll expand their current metal fabrication shop to include new in-house services like powder coating.	ESD EJP	\$120,000
Central New York	111565	Onondaga	Punch and Die Metal Fabrication, LLC	401 West Taylor Street, 2nd App	Punch and Die Metal Fabrication will move all operations of their woman-owned sheet metal fabrication shop to Syracuse's near South Side. Within their new space they'll expand their current metal fabrication shop to include new in-house services like powder coating.	ESD Grants	\$100,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Central New York	109776	Onondaga	XTO, Inc.	XTO Inc. Machine Expansion	XTO Inc., a die cut manufacturer and tape/adhesive distributor, will purchase and install two new machines at the company's Wrentham Drive headquarters in Liverpool, Onondaga County. The machinery will enable XTO to bring work in-house that is currently sourced out-of-state, increase overall capacity and competitiveness, and replace an old, unreliable machine that is core to the company's remaining in business.	ESD Grants	\$69,000
Central New York	110058	Oswego	City of Fulton	Pathfinder Canal Towpath Trail on DavisStandard Waterfront	The City of Fulton will construct two trailhead parking lots providing access to a new accessible fishing overlook on the Oswego Canal and to a car-top boat launch area.	Canals	\$150,000
Central New York	110058	Oswego	City of Fulton	Pathfinder Canal Towpath Trail on DavisStandard Waterfront	The City of Fulton will use GIGP funds to install bioretention, porous pavement and a riparian buffer to treat stormwater along the Erie Canal.	EFC GIGP S	\$1,030,000
Central New York	109310	Oswego	City of Fulton	WPCP Improvements Project	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate upgrade alternatives and recommend improvements to the City of Fulton's wastewater treatment system.	EFC EPG	\$30,000
Central New York	110129	Oswego	City of Oswego	City of Oswego Canal Bright Lights Project	The City of Oswego will install and use aesthetic and programmable lighting on the O&W Railroad Promenade & Bikeway bridge for enhanced nighttime illumination.	Canals	\$144,771
Central New York	110051	Oswego	City of Oswego	Oswego Breitbeck Park Improvements	The City of Oswego will upgrade Breitbeck Park with a new lake themed playground and new equipment. The improvements advance the City's Local Waterfront Revitalization Program and Breitbeck Park Master Site Plan by enhancing recreational opportunities for families and children. The project complements the new mini golf course, adding to the desirability of the park as a destination for residents and visitors.	DOS LWRP	\$412,267
Central New York	109320	Oswego	Liland Trade & Radiator Servic	Miller Brewery First Location expansion	Liland Trade & Radiator Service, Inc. will purchase and renovate a portion the former Miller Brewery in Volney, Oswego County, allowing the company to expand into the facility. Renovations will include roof repairs, upgrading lighting and dock doors, geothermal HVAC and solar investments, and purchasing and installing equipment.	ESD EJP	\$1,000,000
Central New York	109320	Oswego	Liland Trade & Radiator Servic	Miller Brewery First Location expansion	Liland Trade & Radiator Service, Inc. will purchase and renovate a portion the former Miller Brewery in Volney, Oswego County, allowing the company to expand into the facility. Renovations will include roof repairs, upgrading lighting and dock doors, geothermal HVAC and solar investments, and purchasing and installing equipment.	ESD Grants	\$1,000,000
Central New York	109017	Oswego	Oswego County	County-Wide Infrastructure Authority Feasibility	Oswego County will complete an assessment of the County's current infrastructure capacity and options for consolidated regional management.	DOS LGEP	\$60,000
Central New York	109015	Oswego	Oswego County	Oswego River Public Access Boat Launch Phase II	Oswego County will continue the creation of new public access to the Oswego River on 7.83-acres of undeveloped land, along State Route 481. The project will construct an ADA compliant trail to the River, shoreline stabilization, viewing area, and a paddlers' boat launch and retrieval. Located on the east bank of the Oswego River between Locks 5 and 6, the site provides new access to the River without navigating a lock.	DOS LWRP	\$196,139
Central New York	111268	Oswego	Oswego County Soil and Water Conservation District	Village of Pulaski Stormwater Study	Oswego County Soil and Water Conservation District will hire an engineering firm to study a drainage area on the west side of the Village of Pulaski. The report will offer recommendations for reducing sediment reaching the Salmon River. The primary focus will be the sediment retention pond near Lake Street, but additional stormwater practices will be identified to reduce stormwater runoff into Salmon River.	DEC NPS	\$30,000
Central New York	108502	Oswego	Square Valley Trail Blazers, Inc.	Acquisition of Trail Maintenance Equipment	The Square Valley Trail Blazers will acquire trail grooming equipment to maintain a portion of the New York State Snowmobile Trail System network within Oswego County. Trails maintained by the club allow for easy access to regional trails in Tug Hill, Oneida County, Onondaga County, and Cayuga County.	OPRHP RTPD	\$184,369
Central New York	108428	Oswego	Town of Granby	Granby Smart Growth Comprehensive Plan	The Town of Granby will prepare a Smart Growth Comprehensive Plan. The priorities to be addressed include farmland preservation, guiding growth in and around existing Town centers served by infrastructure, water quality and flood protection, housing options and the advancement of recreational opportunities for residents and visitors. The plan will also focus on the need for affordable pedestrian/bicycle infrastructure improvements as well as the need for renewable energy options.	DOS SG	\$50,000
Central New York	110958	Oswego	Town of Hastings	East River Road Pump Station and Force Main Town of Hastings	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate alternatives for a new East River Road Pump Station forcemain and recommend improvements to the Town of Hastings' wastewater collection treatment system.	EFC EPG	\$30,000
Central New York	110988	Oswego	Town of Hastings	Town of Hastings Local Waterfront Revitalization Program	The Town of Hastings will prepare a Local Waterfront Revitalization Program (LWRP) to guide desired and sustainable development along the Oneida River, a segment of the Barge Canal System. The LWRP will analyze existing waterfront conditions, coastal policies and local regulations, proposed future land uses, water uses, and projects and strategies for implementation.	DOS LWRP	\$76,500

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Central New York	108691	Oswego	Town of Richland	Richland Pocket Park Project	The Town of Richland will utilize grant funding to create Fireman's Pond Park and revitalize and expand Hamlet Park to increase recreational opportunities in the community and improve the quality of life for residents of all ages, abilities, and income levels.	OPRHP EPFPKSD	\$233,424
Central New York	109332	Oswego	Village of Mexico	Reducing Infiltration and Inflow - A Study for the Village of Mexico #2	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the Village of Mexico's wastewater collection system.	EFC EPG	\$30,000
Central New York	110969	Oswego	Village of Parish	Village of Parish II Investigations	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the Village of Parish's wastewater collection system.	EFC EPG	\$30,000
Central New York	111375	Oswego	Village of Pulaski	Stormwater System Improvements for Salmon River Flooding Mitigation	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate stormwater system rehabilitation alternatives and recommend improvements to the Village of Pulaski's stormwater collection system.	EFC EPG	\$30,000
Central New York	109647	Oswego	Village of Pulaski	Village of Pulaski Water Meters	The Village of Pulaski will use GIGP funds to install water meters with Advanced Meter Reading technology. This project will record water usage in previously unmetered areas of the Village.	EFC GIGP E	\$285,000
Finger Lakes	110950	Genesee	Batavia Development Corporation	Brisbane Mansion Technical Assistance Project	The Batavia Development Corporation will complete building reuse analyses for the historic Brisbane Mansion in downtown Batavia.	HCR NYMS	\$20,000
Finger Lakes	110179	Genesee	City of Batavia	Jackson Street Water Improvements	The City of Batavia will use \$1,000,000 in CDBG grant funds to make improvements to the aging waterlines on Jackson Street. The total estimated project cost is \$1,351,908, with \$351,908 committed from local funds. The improvements will benefit 213 persons of which 144 or 68% are low-and-moderate-income persons.	HCR CDBGPI	\$1,000,000
Finger Lakes	110639	Genesee	Town of Batavia	King's Plaza Sewer Pump Station	The Town of Batavia will use \$747,500 in CDBG funds to replace public infrastructure. The total estimated project is \$1,485,000 with \$ 184,000 from WIIA & \$553,500 from local sources. The improvements will benefit 623 persons of which 517 or 83% of whom are low-and moderate-income persons.	HCR CDBGPI	\$747,500
Finger Lakes	108544	Genesee	Town of Batavia	Water Meter Replacement	The Town of Batavia will use GIGP funds to replace existing water meters with Advanced Metering Infrastructure technology. These replacements will reduce water consumption in the Town.	EFC GIGP E	\$730,000
Finger Lakes	108841	Genesee	Town of Byron	Town of Byron 2021 EPG Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to assess the existing condition of the Byron Mobile Home Community wastewater collection system, evaluate alternatives, and recommend improvements to the Town of Byron.	EFC EPG	\$30,000
Finger Lakes	110846	Genesee, Livingston, Monroe, Ontario, Orleans, Seneca, Wayne, Wyoming, Yates	NextCorps Inc	Innovation Hotspot Proposal	High Tech Rochester (HTR) and Rochester Institute of Technology's Venture Creations Incubator (VCI) have partnered to lead the Finger Lakes Innovation Hotspot. Through the Hotspot initiative, they seek to expand their successful incubator models to serve more entrepreneurs, including those in historically underserved counties and locations.	ESD BIHS	\$1,250,000
Finger Lakes	108964	Livingston	Livingston County	Conesus Lake Watershed Management Plan Update	Livingston County, in partnership with the Conesus Lake Watershed Council, will complete an update to the 2003 Conesus Lake Watershed Management Plan. The plan will include an update to water quality and environmental issues and include new technological approaches to water quality improvement. The plan will also include a review of green infrastructure regulations and develop recommendations for watershed municipalities.	DOS LWRP	\$60,000
Finger Lakes	110824	Livingston	Livingston County Development Corporation	Village of Dansville New York Main Street Program	The Livingston County Development Corporation will assist in the renovation of mixed-use properties in the Village of Dansville's downtown.	HCR NYMS	\$500,000
Finger Lakes	107861	Livingston	Town of York	Town of York Comprehensive Plan	The Town of York will update its 2006 Comprehensive Plan. The Plan will be a vision of what the Town of York is to be in the future with specific goals, objectives and will contain Smart Growth elements such as clean energy, climate change, resiliency, green infrastructure, walkable and bikeable neighborhoods, and social diversity.	DOS SG	\$54,000
Finger Lakes	110847	Monroe	City of Rochester	Bull's Head BOA Predevelopment Activities	The City of Rochester will undertake strategic planning and pre-development activities within the State-designated Bull's Head BOA, including site preparation and access studies, site conditions and market analyses, redevelopment feasibility studies, and public outreach and marketing. These activities will provide the groundwork for future infrastructure investment and private development in an area characterized by disinvestment, high poverty, and high unemployment.	DOS BOA	\$300,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Finger Lakes	108532	Monroe	City of Rochester	Genesee Gateway Park Public Access Design and Construction	The City of Rochester will design and construct public access to the Genesee Gateway Park. The project will implement the City of Rochester Local Waterfront Revitalization Program by supporting waterfront access and recreational boating along the Genesee River. This project continues improvements from the 2014 Phase I Genesee Gateway Park for the public and will add to the Phase II stage.	DOS LWRP	\$467,500
Finger Lakes	107645	Monroe	City of Rochester	High Falls Visitor Center Renovation	The City of Rochester will renovate the historic Rochester Water Works building to establish a visitor center in the High Falls Heritage Area, Brown's Race Historic District.	ESD Grants	\$2,000,000
Finger Lakes	107645	Monroe	City of Rochester	High Falls Water Works	The City of Rochester will renovate the historic Rochester Water Works building to establish a new visitor center located in the High Falls Heritage Area and Brown's Race Historic District. This work will be the first of three phases which will establish a new visitors center containing public restrooms and multi-use community space in the Rochester Water Works building.	OPRHP EPFHAPD	\$500,000
Finger Lakes	107835	Monroe	City of Rochester	Organics Management Plan	The city and multiple stakeholders will develop an organics management plan that will provide a comprehensive approach to collaboratively reducing food waste and recycling organics. This plan will complement the city's ongoing efforts, including a 2020 organics feasibility study, 2021 food waste education pilot program, and 2021 residential organics recycling pilot program.	DEC CSC	\$40,000
Finger Lakes	110847	Monroe	City of Rochester	Rochester Bulls Head	The City of Rochester will complete strategic planning and pre-development activities within the Bulls Head Brownfield Opportunity Area. The project includes concept planning for commercial and residential mixed-use development; site preparation and access studies; demolition and environmental remediation; site conditions and market analysis; redevelopment feasibility studies, and public outreach and marketing.	ESD SPFS	\$97,500
Finger Lakes	108498	Monroe	City of Rochester	Shade Structures	The city will design and construct two or three park shelters to serve as permanent shade structures within Cobbs Hill, Genesee Valley, and/or Maplewood parks. These shade structures will provide protection against harmful UV rays and help city residents prevent heat exhaustion, overheating, and sunstroke. These and other heat-related conditions are expected to become more prevalent due to the increasing impact of climate change, including hotter summers and more days with temperatures above 90 degrees.	DEC CSC	\$225,763
Finger Lakes	108456	Monroe	City of Rochester	Water Meter Replacement Program	The City of Rochester will use GIGP funds to replace existing meters with Advanced Meter Reading technology. These meters will increase accuracy and reduce water loss in the City.	EFC GIGP E	\$335,000
Finger Lakes	110838	Monroe	City of Rochester	West River Wall Segment 2 Final Design	The City of Rochester will complete final designs for the West River Wall Segment 2 including flood resiliency and public amenities improvements along the Genesee River from the Ford Street Bridge to the Erie Lackawanna Pedestrian Bridge. This project will advance the City's Local Waterfront Revitalization Program by restoring flood protection, creating visual and physical connections between residential neighborhoods and the waterfront, and promoting future development on adjacent properties.	DOS LWRP	\$935,000
Finger Lakes	110391	Monroe	Corn Hill Waterfront & Navigation Foundation	Tourism Marketing for Program & Brand Expansion in Downtown Rochester	Corn Hill Navigation, the nonprofit organization that operates the popular Sam Patch tour boat, will use grant funds to promote new programs and a new passenger vessel in Rochester's historic Corn Hill neighborhood. The organization will implement a marketing plan to attract new visitors to the region, improve accessibility for city residents, and contribute to downtown revitalization.	ESD MNY	\$50,000
Finger Lakes	109853	Monroe	Fairport IDA	Thomas Creek Wetlands Boardwalk	The Fairport IDA will implement safety improvements on the western boardwalk in the wetland site located on the north side of the Erie Canal, adjacment to the Empire State Trail in Fairport.	Canals	\$52,083
Finger Lakes	109831	Monroe	Fairport Local Development Corp.	Fairport First Baptist Church Redevelopment Study	The Fairport Local Development Corporation will prepare an adaptive reuse feasibility study for the rehabilitation and repurposing of the historic First Baptist Church of Fairport located at the gateway to Downtown Fairport. The study will position the project for future capital grants, financing and private investment.	ESD SPFS	\$40,000
Finger Lakes	109185	Monroe	Gallina Development (Innovation Partners ROC LLC)	Innovation Square	Innovation Partners ROC LLC renovations will transform the former Xerox Tower into a collaborative mixed-use campus in the heart of downtown. Renovations include transformation of office space and the creation of student housing, amenity space, a renovated lobby and a new entry.	ESD Grants	\$2,000,000
Finger Lakes	109210	Monroe	George Eastman Museum	George Eastman Museum and Joshua Rashaad McFadden Tourism Special Event & Marketing Plan	George Eastman Museum, a world-renowned tourist destination, will launch a comprehensive tourism marketing campaign to promote the Finger Lakes Region and special exhibition by Joshua Rashaad McFadden. This important exhibition by a Rochester-based Black artist examines some of the most challenging subject matters of our time.	ESD MNY	\$50,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Finger Lakes	107950	Monroe	George Eastman Museum	George Eastman Museum Tourism Capital Project	George Eastman Museum, a world renowned tourist destination, will use the grant funds to renovate over 3600 sq. ft. of unrestored space in Eastman's mansion to create new galleries dedicated to sharing a contemporary, balanced interpretation of Eastman's life and educating visitors about the evolution of photographic technology. The project includes accessibility improvements and the addition of a catering kitchen.	ESD MNY	\$397,500
Finger Lakes	107349	Monroe	Home Leasing, LLC	Hickey Freeman Adaptive Reuse	Home Leasing, LLC will acquire and redevelop the Hickey Freeman factory site in the City of Rochester. The completed project will allow for the continuation of Hickey Freeman's operations in a smaller and more efficient manufacturing footprint, while transforming most of the property into affordable senior housing.	ESD Grants	\$2,000,000
Finger Lakes	107980	Monroe	Iron Smoke Distillery	Iron Smoke Distillery Agri-Tourism Marketing Plan	Iron Smoke Distillery will use Market NY funds to create a collaborative marketing campaign promoting NYS as an agri-tourism destination utilizing Iron Smoke's unique and eclectic brand. The campaign will culminate with a Craft Beverage Festival projected to draw thousands of new visitors to the Finger Lakes Region.	ESD MNY	\$150,000
Finger Lakes	107488	Monroe	Iron Smoke Distillery	Iron Smoke Distillery Expansion	Iron Smoke Whiskey LLC's Expansion Project includes the renovation and augmentation of its current production facilities, expansion of its tasting room and outdoor seating areas, and an increase in its labor force in order to meet projected spirit demand	ESD EJP	\$200,000
Finger Lakes	107488	Monroe	Iron Smoke Distillery	Iron Smoke Distillery Expansion	Iron Smoke Whiskey LLC's Expansion Project includes the renovation and augmentation of its current production facilities, expansion of its tasting room and outdoor seating areas, and an increase in its labor force in order to meet projected spirit demand	ESD Grants	\$200,000
Finger Lakes	107295	Monroe	Monroe County	Children's Pavilion	Monroe County will reconstruct the Children's Pavilion at the high point of Highland Park in Rochester. The 3-story round timber frame structure, with an elevator, will provide free, universal, public access to a treetop view of the countryside and shelter for activities. It will replace the key lost element of the historic park, designed by Frederick Law Olmsted and dedicated in 1890.	OPRHP EPFPKSD	\$500,000
Finger Lakes	110796	Monroe	Monroe County	Climate Action Plan	The county will develop a climate action plan that will establish greenhouse gas reduction targets and associated inventories for both government operations and community emissions. The plan will provide data-driven strategies that will improve planning and development processes for infrastructure and buildings, energy, water resources, transportation, and waste.	DEC CSC	\$97,820
Finger Lakes	110396	Monroe	Monroe County	Monroe County Recycling Center Green Infrastructure Feasibility Study	Monroe County will evaluate the feasibility of incorporating green infrastructure practices for stormwater management as part of the site improvements at the Monroe County Materials Recovery Facility in Rochester.	DEC NPS	\$27,000
Finger Lakes	110102	Monroe	The Strong National Museum of Play	Play Rochester Tourism Marketing Plan	Play Rochester is a collaborative tourism marketing project featuring a variety of regional cultural attractions. Created and lead by The Strong National Museum of Play, the project will use grant funds to market and drive tourism to the Rochester region from five-hour drive markets by allowing consumers to create tailor-made packages when planning their trip to the area.	ESD MNY	\$225,000
Finger Lakes	109681	Monroe	Town of Gates	Town of Gates MS4 Mapping Phase III	The Town of Gates will complete the final phase of comprehensive mapping of their regulated stormwater system. This final phase will complete the maps for the Round Pond Watershed.	DEC NPS	\$75,000
Finger Lakes	108720	Monroe	Town of Webster	Sandbar Park Waterfront Revitalization	The Town of Webster will design and construct improvements to Sandbar Park, located on Lake Ontario and Irondequoit Bay. On the Lakeside, new parking, public restrooms, a shade structure/gathering space, and a children's natural play area, connected by a lakefront promenade will be constructed. On the bayside, new floating docks, an accessible kayak launch, open lawn areas, and new parking facilities will be constructed.	DOS LWRP	\$2,282,859
Finger Lakes	106938	Monroe	Village of Brockport	Corbett Park Improvement	Village of Brockport will make renovations to Corbett Park located near the Erie Canal. The renovations will make improvements to trails, upgrade basketball and tennis courts, restore the park's pond and install accessible recreation options and parking for a family-friendly outdoor space.	OPRHP EPFPKSD	\$248,915
Finger Lakes	107910	Monroe	Village of Brockport	Empire State Trail Access Path	The Village of Brockport will develop a public access stone dust path up the Erie Canal embankment to the Empire State Trail. The path will be ADA-compliant with handrails on each side at the west end of McCormick Lane and the end points of Meadow Lane and Cloverwood Drive.	Canals	\$47,626
Finger Lakes	110103	Monroe	Village of Honeoye Falls	WWTP Capacity Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate the existing condition and hydraulic capacity of the wastewater treatment plant, evaluate alternatives, and recommend improvements to the Village of Honeoye Falls.	EFC EPG	\$30,000
Finger Lakes	109725	Monroe	Village of Scottsville	2021 CFA EPG II Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the Village of Scottsville's wastewater collection system.	EFC EPG	\$30,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Finger Lakes	108604	Monroe	Village of Webster	Village of Webster North End Business District BOA Nomination	The Village of Webster in partnership with the Webster Economic Development Alliance intends to develop a BOA Nomination for the 387-acre North End Business District (NEBD), the center of the village's industrial zone. The area contains legacy sites and perceived environmental challenges that have discouraged redevelopment. The objective is to build public consensus on future development patterns and improve access and safety of the area's transportation network.	DOS BOA	\$203,130
Finger Lakes	110986	Monroe	Monroe County	Frontier Field Major League Baseball Upgrades	Monroe County will complete renovations at The Frontier Field required to meet MLB Standards for affiliate league teams, including the Rochester Red Wings. These requirements include larger club houses for home and visiting teams, better field lighting, and improved training facilities for players. Additional structural improvements and appearance enhancements will occur making the space more welcoming and professional for staff, players and fans.	ESD Grants	\$2,000,000
Finger Lakes	110974	Monroe	Rochester Joint Apprenticeship and Training Trust	Clean Energy & Electrical Training Center	The Rochester Joint Apprenticeship and Training Committee will purchase and renovate an existing building to expand classroom space for their electrical apprentice training program. The increased capacity will expand class sizes and hands on training capabilities within the Finger Lakes Region.	ESD Grants	\$500,000
Finger Lakes	111603	Monroe, Ontario	TOPTICA Photonics, Inc.	TOPTICA Quantum Growth	TOPTICA, Inc., A leader in the development and manufacturing of photonics components for laser technologies supporting customers in the scientific research fields at universities/government labs/high-tech industries, will relocate to a 20,000 sq. ft. facility to accommodate expansion. The project will include renovations and the purchase of additional machinery and equipment.	ESD Grants	\$1,000,000
Finger Lakes	109226	Ontario	Burroughs Audubon Nature Club	Burroughs Audubon Nature Club Trail Improvements	The Burroughs Audubon Nature Club will repair and improve the existing trails and boardwalk, construct an accessible observation area, and education area, at the Burroughs Audubon Nature Sanctuary. The repairs and improvements will provide access to natural habitats, ecosystems and scenic viewpoints within the sanctuary.	OPRHP RTPNM	\$79,988
Finger Lakes	110941	Ontario	City of Geneva	Parrott Hall: Phase 2	The City of Geneva will work with the Friends of Parrott Hall to complete the next phase of stabilization and remediation at Parrott Hall, nestled within the Geneva campus of Cornell AgriTech on Geneva's West North Street.	OPRHP EPFHPD	\$500,000
Finger Lakes	108891	Ontario	Cornell Agriculture and Food Technology Park Corporation	Technology Farm Incubator	The Cornell Agriculture and Food Technology Corporation owns and operates a 20,000 square foot incubator facility in Geneva, New York that provides office, manufacturing, and laboratory space to start-up and growing companies that operate in the agribusiness industry. The Tech Farm is proposing to partner with the Center of Excellence for Food and Agriculture at Cornell AgriTech in Geneva to better coordinate, market, and deliver the wide variety of services and facilities available at the Tech Farm and Cornell AgriTech to emerging companies and for new technologies in the ag and food industry.	ESD BIHS	\$625,000
Finger Lakes	108739	Ontario	County of Ontario	Honeoye Lake Pump and Collection Pump Station Evaluation Project	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to assess the existing conditions of several pump stations in the Honeoye Lake Sewer District, evaluate alternatives, and recommend improvements to Ontario County's wastewater collection system.	EFC EPG	\$100,000
Finger Lakes	109542	Ontario	Ontario County	Ontario County Beach Park	Ontario County will redevelop the Ontario Beach County Park on Canandaigua Lake by adding an accessible fishing pier and viewing deck, an accessible family/unisex restroom facility, picnic shelters, wayfinding and interpretive signage, accessible support facilities for the ADA-compliant non-motorized boat launch, and pedestrian walkways for accessible connections to all facilities.	OPRHP EPFPKSD	\$500,000
Finger Lakes	109952	Ontario	Ontario County Planning Department	Ontario Manchester Rail Working Capital Phase 3	The Manchester Yard Roundhouse Redevelopment Strategy Phase 3 will complete an evaluation of environmental site remediation costs and private/public financing options for redevelopment of the abandoned Manchester Yard Roundhouse.	ESD SPFS	\$32,500
Finger Lakes	108906	Ontario	Smith Center for the Arts, Inc.	Smith Opera House Revitalization	Smith Center for the Arts, Inc. will continue to renovate the Smith Opera House in downtown Geneva.	HCR NYMS	\$292,000
Finger Lakes	110057	Ontario	Solar Home Factory	Solar Home Factory	Solar Village Company, LLC (SVC) will construct a carbon neutral manufacturing facility in Geneva, New York, called the Solar Home Factory, which will produce modular, net-zero, solar powered multifamily homes. The Solar Home Factory will be a net zero energy performance facility powered by a rooftop solar array. The project is unique in that both the facility operation and the product it produces will be net zero energy and sustainable.	NYSERDA CNED	\$1,975,000
Finger Lakes	111037	Ontario	Timber Trails Forest Farm	Eco-Maple Syrup Production Expansion	Timber Trails Forest Farm in Canandaigua, New York, will expand operations and build New York's first 100 percent electric, carbon neutral maple syrup operation. The building design utilizes passive house construction, will be well insulated, and is heated with all-electric geothermal radiant heating. The facility will be a leading example for maple syrup production in the agricultural community, lower emissions within the industry, and educate the public through agri-tourism.	NYSERDA CNED	\$166,928

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Finger Lakes	111417	Ontario	Town of Victor	Town of Victor MS4 Mapping	The Town of Victor will continue to use its GPS unit to collect stormwater infrastructure data and complete a municipal separate storm sewer system (MS4) map.	DEC NPS	\$75,000
Finger Lakes	108165	Ontario	Village of Naples	Business Development and Reuse Studies	The Village of Naples will use funds to develop an economic development plan for the Village's downtown.	HCR NYMS	\$20,000
Finger Lakes	109373	Ontario	Roc Fabrication Inc.	Roc Fabrication Expansion	Roc Fabrication will purchase a new larger facility that will more than triple its work space for production. This larger work space will allow Roc Fabrication to handle multiple jobs and larger jobs. The new equipment will include 10 vehicle lifts and machining equipment. The vehicle lifts will allow Roc Fabrication to accommodate more customers. The machining equipment will allow Roc Fabrication to manufacture their own parts and will reduce dependence on outside vendors. Roc Fabrication will invest \$1,500,000 and will create 6 new jobs.	ESD EJP	\$125,000
Finger Lakes	109373	Ontario	Roc Fabrication Inc.	Roc Fabrication Expansion	Roc Fabrication will purchase a new larger facility that will more than triple its work space for production. This larger work space will allow Roc Fabrication to handle multiple jobs and larger jobs. The new equipment will include 10 vehicle lifts and machining equipment. The vehicle lifts will allow Roc Fabrication to accommodate more customers. The machining equipment will allow Roc Fabrication to manufacture their own parts and will reduce dependence on outside vendors. Roc Fabrication will invest \$1,500,000 and will create 6 new jobs.	ESD Grants	\$150,000
Finger Lakes	110057	Ontario	Solar Home Factory	Geneva Modular Home Factory	The Solar Home Factory will construct a new 108,000 sq. ft. facility to manufacture solar powered, modular, net-zero multi-family housing units. The modular units will be delivered to housing projects throughout New York and installed onsite.	ESD EJP	\$1,000,000
Finger Lakes	110057	Ontario	Solar Home Factory	Geneva Modular Home Factory	The Solar Home Factory will construct a new 108,000 sq. ft. facility to manufacture solar powered, modular, net-zero multi-family housing units. The modular units will be delivered to housing projects throughout New York and installed onsite.	ESD Grants	\$1,000,000
Finger Lakes	106412	Ontario	Vertex Optics, Inc.	Vertex Optics Technology Expansion	Vertex Optics, a high-tech optics manufacturing company, will purchase new machinery and equipment to support their business expansion in the Town of Victor, Ontario County. The equipment includes three CNC machining/metrology workstations.	ESD Grants	\$115,000
Finger Lakes	111374	Ontario, Yates	Town of Gorham	Canandaigua Lake Sustainable Winter Management of Roads Pilot Program	The Town of Gorham, in partnership with the Town of Canandaigua and the City of Canandaigua, will implement the 2014 Comprehensive Update of the Canandaigua Lake Watershed Management Plan by piloting a sustainable winter road management program. The goal of the program is to decrease chloride loading to the watershed. The program will measure and assess current practices, utilize new sensors and equipment, and train highway staff.	DOS LWRP	\$187,500
Finger Lakes	111454	Orleans	Lynn-Ette & Sons, Inc.	Lynn-Ette & Sons Bean Line Expansion	Lynn-Ette & Sons, a vegetable, produce and grain farm in Orleans County will invest in a new snap bean processing line and will add cold storage capacity to increase the amount of cabbage that can be stored for sale later into the season.	ESD Grants	\$148,050
Finger Lakes	106790	Seneca	Keystone Mills, LLC	Keystone Mills Expansion	Keystone Mills, LLC will construct a new conventional feed mill to increase production of organic feed to support the agricultural industry.	ESD Grants	\$500,000
Finger Lakes	110052	Seneca	National Women's Hall of Fame	Seneca Knitting Mill	The National Women's Hall of Fame will continue renovation of the Seneca Knitting Mill, including a full stairwell, upper floor build-out, and re-build of the bell tower. This work will enable full access of the 16,000 square foot building for final build-out of exhibit, programming, and gathering spaces. This 1844 site on the Canal will be a national destination showcasing the Inductees and drawing visitors to Seneca Falls and many attractions within the Finger Lakes Region of New York State.	OPRHP EPFHAPD	\$500,000
Finger Lakes	108147	Seneca	Seneca County	Housing Needs Assessment	Seneca County will use \$47, 500 in NYS CDBG funds to complete a Housing Needs Assessment. The total project cost is \$50, 000, with \$2, 500 in cash provided by Seneca County. The project will benefit the 13, 564 households within Seneca County of which a minimum of 45% have low or moderate incomes up to \$49, 999. The 2021 HUD defined 80% AMI is \$56, 250.	HCR CDBGCP	\$50,000
Finger Lakes	109757	Seneca	Town of Fayette	Seneca and Cayuga Lake Watersheds Road Drainage Assessment	The Town of Fayette will partner with the Seneca and Cayuga Watershed Intermunicipal Organizations, the Seneca County Soil and Water Conservation District, and fellow watershed municipalities in Seneca County to complete road drainage assessments to advance the Seneca and Cayuga Lake Watershed Management Plans. The partnership will develop and execute an assessment methodology, design BMPs in priority locations, develop a database, and share information to promote future expansion.	DOS LWRP	\$168,750
Finger Lakes	109729	Seneca	Town of Seneca Falls	2021 CFA - GIGP Town of Seneca Falls Water Efficiency Project	The Town of Seneca Falls will use GIGP funds to replace existing water meters with Advanced Metering Infrastructure technology. This project will increase water efficiency in the Town.	EFC GIGP E	\$1,285,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Finger Lakes	108558	Seneca	Village of Interlaken	Wastewater Treatment Facility Improvements	The Village of Interlaken's current Wastewater Treatment Plant is operating with aging critical system components and, is experiencing excessive inflow and infiltration. Additionally, the Village is in proximity to Cayuga Lake which is currently under evaluation for total maximum daily loads of pollutants in the lake. The Village will use \$1,250,000 in NYS CDBG funding to replace the existing Wastewater Treatment Plant and upgrade the existing collection system. The total project cost would be \$5,332,131 and include \$1,020,533 in WIA grant funds and \$3,061,598 in CWSRF loan funds. The project would benefit 753 persons of whom 394, or 52%, are to low-to-moderate income.	HCR CDBGPI	\$1,250,000
Finger Lakes	109625	Seneca	Village of Waterloo	2021 Village of Waterloo Canal Improvements	The Village of Waterloo will acquire and install floating docks at Oak Island to replace aging docks that are currently on the property, and add to the existing docks to accommodate increased use. Accessible ramps will also be installed.	Canals	\$85,754
Finger Lakes	107988	Wayne	Town of Lyons	Town of Lyons EPG Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the Town of Lyons' wastewater collection system.	EFC EPG	\$30,000
Finger Lakes	108655	Wayne	Town of Macedon	Collection System Evaluation	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to assess the existing condition of the wastewater collection system, evaluate alternatives, and recommend improvements to the Town of Macedon.	EFC EPG	\$30,000
Finger Lakes	108681	Wayne	Town of Sodus	Beechwood State Park	The Town of Sodus will construct a new western entrance and gravel parking area to Beechwood State Park off Lake Road. The new entrance will improve safety on Lake Road and provide an organized parking area for visitors.	OPRHP EPPFKSD	\$85,580
Finger Lakes	109732	Wayne	Village of Newark	2021 CFA - CDBG Blue Cut Road Culvert	The Village of Newark will use \$763,446.48 in NYS CDBG funds to replace a failing culvert and make improvements to a sidewalk. The total project cost is \$801,618.80, with the Village contributing \$38,172.32 from its General Fund. The project will benefit the 8,485 residents of the Village of Newark, 5,370 of which (63.3%) are low-to-moderate income.	HCR CDBGPI	\$763,446
Finger Lakes	107726	Wayne	Wayne County	Wayne County Geospatial Data Collaboration	Wayne County will develop and implement a GIS based property and data sharing initiative that will aggregate information, parcel management, and data analysis across County	DOS LGEP	\$450,000
Finger Lakes	110175	Wayne	Wayne County	Wayne County Housing Needs Assessment and Market Study	Wayne County will use \$47,500 in CDBG funds to prepare a countywide Housing Needs Assessment and Market Analysis. The total project cost will be \$50,000, of which Wayne County will match up to \$2500 in local funds. This project will assist up to 41,421 working households, of which about 15,699 (~38%) are low and moderate-income households.	HCR CDBGCP	\$47,500
Finger Lakes	107502	Wayne	Wayne County Economic Development	Wayne County Business Parks	The Wayne County Business Park Feasibility Study will analyze existing business parks and areas with informal business clusters within the County. The study will identify infrastructure prerequisites, planning obstacles, development incentives and financial resources to boost investment in these areas and will be a catalyst for attracting companies to locate or expand their business in the County, with the ultimate goal of boosting the job prospects for local residents.	ESD SPFS	\$30,000
Finger Lakes	109907	Wayne	Wayne-Finger Lakes Board of Cooperative Educational Services	Heavy Construction Equipment Simulator	Wayne-Finger Lakes BOCES will purchase state-of-the-art heavy equipment simulators to enhance student training and career development. High school students and adults attending the Wayne and Finger Lakes Career & Technical Education Centers will be able to safely train on a variety of specialized heavy equipment in a virtual, hands-on environment, giving them the skills regional employers identify as critical to filling job openings in construction and related industries,	ESD Grants	\$200,000
Finger Lakes	108930	Wyoming	Burly Brothers Land and Cattle Company LLC	Burly Brothers Slaughter Facility	Burly Brothers Land and Cattle Company, LLC will build a slaughterhouse and small store front in Attica, NY in order to provide value added farm products from their current beef raising operation. The slaughterhouse will be a USDA inspected facility in order to sell processed meat from their own beef animals as well as provide custom slaughtering services to other beef and pork producers in the area	ESD EJP	\$150,000
Finger Lakes	108930	Wyoming	Burly Brothers Land and Cattle Company LLC	Burly Brothers Slaughter Facility	Burly Brothers Land and Cattle Company, LLC will build a slaughterhouse and small store front in Attica, NY in order to provide value added farm products from their current beef raising operation. The slaughterhouse will be a USDA inspected facility in order to sell processed meat from their own beef animals as well as provide custom slaughtering services to other beef and pork producers in the area	ESD Grants	\$140,000
Finger Lakes	109221	Wyoming	Founders Software Inc.	Beaver Hollow Rural Tech Campus	Founders Software Inc. will acquire the Beaver Hollow Conference Center and expand their logistics and software businesses at the site. Founders also plans to develop the campus as a rural technology enabled center that will support the growth of the current conference and training business onsite, as well as attracting other tech firms to the area that are looking for satellite locations.	ESD Grants	\$500,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Finger Lakes	110534	Wyoming	Village of Arcade	Village and Town of Arcade Smart Growth Comprehensive Plan	The Village and Town of Arcade will create a Village and Town Smart Comprehensive Plan, which will provide a structure for future land use and economic development that incorporates Smart Growth Principles. The Plan will include a detailed analysis of local and regional conditions and resources and will provide a vision for the Village and Town's future, with specific goals, objectives and actionable items to help reach that vision.	DOS SG	\$49,500
Finger Lakes	109920	Wyoming	Village of Attica	Village of Attica Comprehensive Plan Update	The Village of Attica will update their 2003 Comprehensive Plan. The plan will provide a vision supported by goals and strategies that will address future land use, zoning, development, parks/open space, infrastructure, neighborhoods, and government services. An implementation plan will be included in the plan to provide timeframes and responsibilities for each strategy. The plan will focus on downtown revitalization, neighborhoods, infrastructure, and resiliency.	DOS SG	\$45,000
Finger Lakes	110644	Wyoming	Village of Perry	Storm Drainage Improvement Project	The Village of Perry in Wyoming County will use \$672,500 in NYS CDBG funds to replace storm water infrastructure on Hawthorne and Benedict Streets and Watkins and Olin Avenues. The total project cost is \$707,500, with \$35,000 provided from Village funds. The project proposes to benefit 274 residents of which 166 or 60% of whom are low -and-moderate income persons.	HCR CDBGPI	\$672,500
Finger Lakes	108084	Wyoming	Village of Warsaw	Village of Warsaw Smart Growth Comprehensive Plan	The Village of Warsaw will update their comprehensive plan from 1994. Warsaw is the economic and cultural hub of Wyoming County with historic architecture and natural assets, strong walkability and commercial occupancy, and a stable business community. This plan will focus on leveraging and protecting Warsaw's strengths and encouraging sustainable development, positioning it to thrive in the economic, cultural, and climate realities of the coming decades.	DOS SG	\$71,691
Finger Lakes	108322	Wyoming	Wyoming County	Centralized Water Meter Reading and Billing	Wyoming County and 6 partner towns will implement a joint municipal water metering program to be managed by the Wyoming County Water Resources Agency.	DOS LGE	\$243,000
Finger Lakes	107407	Wyoming	Wyoming County Soil and Water Conservation District	Engineering Study for Streambank Stabilization on Tonawanda Creek	Wyoming County Soil and Water Conservation District will prepare an engineering study for streambank stabilization on Tonawanda Creek, targeting a severely eroded segment of the main stem located in the upper watershed. The engineering study will incorporate naturalized infrastructure.	DEC NPS	\$30,000
Finger Lakes	109200	Yates	Village of Pen Yan	Wastewater Disinfection Project	The Village of Penn Yan's Waste Water Treatment Plant (WWTP) discharges harmful microbes into the Keuka Lake Outlet which flows into the Keuka and Seneca Lakes. The Village of Penn Yan will use \$1,000,000 in NYS CDBG funding to install new UV disinfection and disk filtration systems. The total project cost is \$2,781,000. The improvements will benefit 4,495 residents, 2,730 or 60% of whom are low-and moderate income.	HCR CDBGPI	\$1,250,000
Finger Lakes	108625	Yates	Village of Penn Yan	V Penn Yan Water Study	The Village of Penn Yan, Yates County, NY will use \$50,000 in NYS CDBG funds to complete a Water Treatment Plant Modification Study. The total project cost will be \$52,500 with \$2,500 from the Village.	HCR CDBGCP	\$50,000
Long Island	108908	Nassau	City of Glen Cove	City of Glen Cove Smart Growth Comprehensive Plan	The City of Glen Cove's will map out Glen Cove's vision for the future in an updated Comprehensive Plan. The plan will guide the City's investment, development, and growth over the next decade. The Plan will provide recommendations for future land use, housing, economic development, transportation, sustainable development and resiliency, municipal drinking water, and resource stewardship.	DOS SG	\$100,000
Long Island	108908	Nassau	City of Glen Cove	PlanGC: A Master Plan for the City of Glen Cove	The city will develop a new comprehensive plan, entitled PlanGC, to guide sustainable development and climate resiliency well into the city's future.	DEC CSC	\$50,000
Long Island	110638	Nassau	H2M architects engineers	CLBH1901 GIGP Grant Water Meter Replacement	The City of Long Beach will use GIGP funds to upgrade existing water meters with Advanced Metering Infrastructure technology. This project will reduce water loss throughout the City of Long Beach.	EFC GIGP E	\$2,000,000
Long Island	107885	Nassau	New York Institute of Technology	NYIT Microscopy Center	New York Institute of Technology College of Osteopathic Medicine, located in Old Westbury is creating a, Microscopy Innovation Center to advance research and breakthrough treatments for neurodegenerative diseases, clinical depression, and more while training workers in diagnostic microscopy, visualization, and imaging technologies.	ESD Grants	\$1,050,000
Long Island	110987	Nassau	Town of Hempstead	Coastal Science and Renewable Energy Consortium of Long Island	Town of Hempstead will create the Coastal Science and Renewable Energy Consortium which will bring together academia, businesses, government, and nonprofits to facilitate training and workforce development programs in renewable energy, aquaculture, and coastal sciences.	ESD SPFS	\$100,000
Long Island	110203	Nassau	Town of North Hempstead Community Development Agency	New Cassel Prospect Avenue Building Renovation	The Town of North Hempstead Community Development Agency will assist in the renovation of mixed-use properties in the Hamlet of New Cassel.	HCR NYMS	\$295,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Long Island	108431	Nassau	Village of Hempstead	Hempstead BOA Innovation District	The Village of Hempstead intends to establish an Innovation District within the State-designated Village of Hempstead Brownfield Opportunity Area to establish a strategic overlay zone to link its downtown with the Peninsula Boulevard industrial corridor and reclaim and reuse multiple brownfields and severely blighted properties. Through a public/private partnership, the District will establish a center of high-tech manufacturing and education, and facilitate the revitalization of downtown.	DOS BOA	\$200,000
Long Island	106805	Nassau	Village of Hempstead	Lincoln Park Pool and Splash Pad	In its efforts to rehabilitate the Lincoln Park Pool Complex, the Village of Hempstead is having an assessment and engineering report prepared which will provide alternative options for the Village including, but not limited to, ADA-compliant access and the addition of a splash pad.	OPRHP EPFKSP	\$20,660
Long Island	111524	Nassau	Cold Spring Harbor Laboratory	Neurodevelopment Center for Genetic Diseases	Cold Spring Harbor Laboratory will create a new neuroscience laboratory focused on new discovery and therapies for autism, schizophrenia and Alzheimer's. The new lab will attract a world renown researcher in the field of neuroscience.	ESD Grants	\$250,000
Long Island	109158	Nassau	Nassau Candy	Sweet, Sweeter, Sweetest	Nassau Candy, based in Hicksville will expand manufacturing and distribution of candies and food products at their Hicksville campus of production and distribution plants. The family owned and operated manufacturer employs over 600 and will add 50 new jobs and invest in new equipment to enable increased production and distribution. This is the third expansion in the last five years making Nassau Candy one of the regions fastest growing food companies.	ESD EJP	\$700,000
Long Island	109158	Nassau	Nassau Candy	Sweet, Sweeter, Sweetest	Nassau Candy, based in Hicksville will expand manufacturing and distribution of candies and food products at their Hicksville campus of production and distribution plants. The family owned and operated manufacturer employs over 600 and will add 50 new jobs and invest in new equipment to enable increased production and distribution. This is the third expansion in the last five years making Nassau Candy one of the regions fastest growing food companies.	ESD Grants	\$300,000
Long Island	107744	Nassau, Suffolk	The Trust for Public Land	Long Island Greenway	The Trust for Public Land will undertake activities to complete a scope of work that will make shovel-ready a 25-mile segment of the Long Island Greenway, an extension of the Empire State Trail. The trail straddles Nassau and Suffolk counties, is almost entirely off-road, and connects 3 existing parks: Eisenhower County Park, Bethpage State Park, and Brentwood State Park. This planning effort is an essential next step in bringing recreational, health, equity and economic benefits to Long Island.	OPRHP EPFKSP	\$500,000
Long Island	109794	Suffolk	Bayard Cutting Arboretum Horticultural Society	Bayard Cutting Arboretum Visitor Center	A new visitor center will be constructed at Bayard Cutting Arboretum which will provide flexible spaces for exhibitions and educational programs, an interactive display orienting visitors to the history and collections, and amenities such as ADA-compliant facilities and adequate parking.	OPRHP EPFKSD	\$750,000
Long Island	111120	Suffolk	East End Tourism Alliance	East End AI Fresco Tourism Marketing Plan	The grantee will use the funds to host and promote themed activities and events that offer visitors, from diverse backgrounds, a wide range of opportunities to both celebrate and learn about Long Island's extraordinary natural assets.	ESD MNY	\$137,250
Long Island	110078	Suffolk	Friends of Connetquot, Inc.	Tin Ceiling Restoration	The Friends of Connetquot River State Park Preserve will restore the South Side Sportsmen's Club Fish Preparation Room located in the Club House that is listed on the National Register of Historic Places. The restoration will include repair of the skylight and replacement of tin ceiling details.	OPRHP EPFHPD	\$46,651
Long Island	103715	Suffolk	Greenway Products and Services, LLC	Wood be a Good Company for NY	Greenway Products and Services, LLC a manufacturer and distributor of wooden pallets will invest in the acquisition of a new facility, new equipment and creating new jobs in Suffolk County. Investments in this new facility will enable increased production and distribution of their products. Greenway Products is also environmentally conscience in that 100% of all Greenway materials have been either reused, re-manufactured, or when no longer strong enough, made into mulch.	ESD EJP	\$1,000,000
Long Island	103715	Suffolk	Greenway Products and Services, LLC	Wood be a Good Company for NY	Greenway Products and Services, LLC a manufacturer and distributor of wooden pallets will invest in the acquisition of a new facility, new equipment and creating new jobs in Suffolk County. Investments in this new facility will enable increased production and distribution of their products. Greenway Products is also environmentally conscience in that 100% of all Greenway materials have been either reused, re-manufactured, or when no longer strong enough, made into mulch.	ESD Grants	\$500,000
Long Island	109195	Suffolk	LI Adventureland, Inc.	Long Island Adventureland Tourism Marketing Plan	Long Island Adventureland will utilize the grant funds to expand their reach into the tri-state area and promote this tourism attraction. By bringing the best of the amusement park industry to Long Island and focusing on families first, this mid-sized park is the ideal place to make family memories.	ESD MNY	\$210,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Long Island	107702	Suffolk	Long Island Science Center	Rooftop Planetarium, Functional Agritech & Wind/Solar Exhibit, MakerSpace & Facade Enhancements	The Long Island Science Center, a STEAM Learning Museum, will construct an iconic regional attraction with a Planetarium/lecture hall, functional agritech & energy exhibits, and an "Inventorium" MakerSpace to contribute to Long Island's economy through family based regional tourism.	ESD MNY	\$1,120,000
Long Island	109996	Suffolk	Patchogue Village Center for the Performing Arts, Inc.	Patchogue Theatre Improvements	Patchogue Village Center for the Performing Arts, Inc. will renovate the Patchogue Theatre in the Village's Entertainment District.	HCR NYMS	\$500,000
Long Island	108263	Suffolk	Peconic Land Trust	Widows Hole Restoration: Phase II	Peconic Land Trust will continue to make improvements to strengthen the shoreline and revitalize the upland habitat at Widow's Hole Preserve. The Trust plans to add accessibility features to facilitate beach access. The shoreline will be restored with a living shoreline to mitigate erosion and improve natural habitat.	OPRHP EPPKSD	\$250,000
Long Island	110937	Suffolk	Suffolk County	Mastic Beach Violets Cove Restoration Design	Suffolk County, with the Mastic Beach Conservancy and the Gino Macchio Foundation, will plan and design for the restoration, preservation and accessibility to the Mastic Shirley Conservation Area located on Long Island's South Shore. The plan will support recreation, education, and environmental stewardship through an interpretive center, trail network, and a kayak launch. The project builds on the County's prior awarded Blueway Trail and Brookhaven Local Waterfront Revitalization Program.	DOS LWRP	\$1,000,000
Long Island	109943	Suffolk	Suffolk County Department of Economic Development and Planning	Long Island Greenbelt Trail Improvements	Suffolk County will design and implement the following improvements to the Long Island Greenbelt Trail, at the intersection of County Route 67: install pervious pavement sidewalk, concrete curbing, audible warning upgrades to the existing pedestrian signals, and trailhead amenities including benches, bicycle racks, information kiosk, and wayfinding signage.	OPRHP RTPNM	\$235,044
Long Island	107872	Suffolk	Town of Southold	Bay to Sound Trails Initiative Phase 5	The Town of Southold will implement the Town's Local Waterfront Revitalization Program by expanding the Bay-to-Sound trail network. The Bay to Sound Integrated Trail Initiative Phase 5, will construct new trails and develop plans for two footbridges to provide connections between the Peconic Bay and Long Island Sound. Boardwalks, signage and other amenities will also be created for residents and visitors.	DOS LWRP	\$258,750
Long Island	110403	Suffolk	Village of Sag Harbor	John Steinbeck Waterfront Park Phase I - Walkway	The Village of Sag Harbor will advance their LWRP through the design and construction of Phase I of the John Steinbeck Waterfront Park to enhance public waterfront access and stimulate year-round economic activity and job creation in the downtown business district. Project work will consist of the final design and construction of a 159-foot ADA accessible walkway along the Park's shoreline overlooking Sag Harbor Bay, and will provide connectivity with the adjacent Windmill Park and Long Wharf.	DOS LWRP	\$279,500
Long Island	110877	Suffolk	Winship Media LLC	Long Island Wine Region Agri-Tourism Marketing Plan	Winship Media/NY Wine Events together with Long Island Wine Country will use the funding to create a new series of craft beverage educational tourism activities that will seek to encourage visitation to craft beverage destinations throughout the Long Island region.	ESD MNY	\$150,000
Long Island	111548	Suffolk	AWC Dockside, LLC	Mattituck Commercial Fishing Dock Renovation	AWC Dockside, LLC will renovate the Mattituck Commercial Fishing Dock, paving the way for oyster farmers to expand their businesses and additional commercial fishing vessels to utilize the dock.	ESD Grants	\$110,000
Long Island	109344	Suffolk	Eat Better Meals, LLC	71 Milbar Expansion	Eat Better Meals operates a commercial kitchen in Farmingdale for food businesses looking to grow their production. They will expand their commercial kitchen by investing in building renovations and new machinery and equipment, which will allow up to 10 additional small food businesses to use the facility.	ESD Grants	\$71,000
Long Island	108882	Suffolk	Long Island University	Long Island University Yaphank Veterinary Satellite	Long Island University is creating a Yaphank Veterinary School satellite campus to provide student training and education and provide large animal veterinary care for Suffolk County's agricultural community.	ESD Grants	\$350,000
Long Island	108541	Suffolk	Molloy College	Healthcare Workforce Skills Development Labs	Molloy College will create a new Center for Healthcare Education in Amityville. The new facility will train nursing students and include classrooms and nursing simulation labs. Molloy College is a private college based in Rockville Centre where it has an existing strong nursing education program supplying much needed well trained nurses for regional hospitals. This new Amityville facility will help Molloy expand geographically and attract new students in Suffolk County and supply more trained nurses for Suffolk area hospitals.	ESD Grants	\$250,000
Long Island	110635	Suffolk	Town of Southampton	Riverside Child Enrichment Center Expansion	The Town of Southampton will complete an expansion and renovation of a Town-owned building on Flanders Road in Riverside to provide enhanced space for early childhood programs offered by Long Island Head Start and the Children's Museum of the East End. The initiative implements community goals envisioned by the Riverside Revitalization Action Plan to expand access to affordable child care, support working families, and establish an art/culture anchor in the downtown.	ESD Grants	\$120,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Long Island	107057	Suffolk	Twin Stills Moonshine	Twin Stills Moonshine Expansion	Twin Stills Moonshine will invest in a production expansion at their craft beverage distillery. This will allow Twin Stills hire new employees, support additional Long Island corn producers, and expand their national distribution.	ESD Grants	\$88,000
Mid-Hudson	108838	Dutchess	City of Poughkeepsie	Reconstruction of Pulaski Park Pool House and Facilities	The City of Poughkeepsie will replace the pool house facilities in Pulaski Park, a critical open space recreational resource. The current facility, which supports many important community programs, has long been considered inadequate to its purpose.	OPRHP EPFPKSD	\$500,000
Mid-Hudson	109070	Dutchess	Dutchess Tourism, Inc.	Dutchess Tourism and Hudson Valley Inclusive & Expanded Marketing Project	The Dutchess Tourism and Hudson Valley Region will use the grant funds to develop and promote their Inclusive and Expanded Marketing Project that will attract diverse visitors and demonstrate that the Hudson Valley is an inclusive, welcoming destination through research-driven marketing campaigns. Additionally, the grantee will establish new target markets in locations that have direct flights to NY Stewart International Airport.	ESD MNY	\$375,000
Mid-Hudson	108812	Dutchess	Friends of Mills Mansion	Wall and Ceiling Restoration in Staatsburgh State Historic Site's Kitchen Suite Rooms	The Friends of Mills at Staatsburgh will restore to their historic appearance, the painted ceilings and tiled walls of three rooms in the mansion's kitchen suite at Staatsburgh State Historic Site. This will allow the site to tell a more inclusive story of this fascinating part of the estate's operations and interpret for visitors the lives and careers of the domestic staff of this Gilded Age estate on the Hudson River.	OPRHP EPFHPD	\$30,500
Mid-Hudson	108109	Dutchess	The Poughkeepsie Highland Railroad Bridge Company, Inc.	Lighting Enhancement Project: Phase 3	The Walkway Over the Hudson will complete a sustainable and permanent lighting system along the pedestrian bridge by installing LED lighting in the belvederes (overlooks). The final phase of this critical infrastructure project will contribute to extended opportunities for programs, events, health and wellness activities, and accessibility for all at Walkway Over the Hudson.	OPRHP EPFPKSD	\$400,000
Mid-Hudson	106806	Dutchess	Town of Pawling	Town of Pawling MS4 Mapping	The Town and Village of Pawling will complete joint MS4 stormwater system mapping. This phase will build on existing data including non-digital maps. Mapping will include all basic element data and show how Town and Village systems work together.	DEC NPS	\$60,000
Mid-Hudson	110832	Dutchess	Town of Wappinger	2021 Mid-Point Park Inflow & Infiltration Analysis	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration in the Mid-Point Park Sewer District, evaluate alternatives, and recommend improvements to the Town of Wappinger's wastewater collection system.	EFC EPG	\$100,000
Mid-Hudson	109054	Dutchess	Clarkson University	Dennings Point Campus Build Out	Funding is sought to complete the Dennings Point Campus Build Out in Beacon (Dutchess County), a creative and comprehensive project that will renovate a 40,000 sq. ft. former paperclip factory to bring community revitalization and job creation to Beacon, as well as support its science, technology, engineering and math programming to both Clarkson students and the public (including P-12 students and adults seeking workforce development and research opportunities)	ESD Grants	\$150,000
Mid-Hudson	108110	Dutchess	Nonnos Garden	Harlem Valley Homestead	Harlem Valley Homestead is a 250-acre working farm that grows pasture-raised beef, pork, vegetables, flowers, mushrooms, raw honey, and more. The farm feeds over 150 families and provides education and land-based experiences for visitors. The proposed capital expansion will upgrade infrastructure, repurpose existing farm structures and undertake new construction. This will add lodging and increase programming and event capacity to transform the farm into a premier agri-tourism destination	ESD Grants	\$500,000
Mid-Hudson	109446	Dutchess, Orange	Abilities First, Inc.	School Expansion	Abilities First School, an education provider for people with disabilities, will renovate existing space to establish new, technologically updated classrooms to add capacity to its facilities in the Towns of LaGrange and New Windsor, addressing the current lack of space in the region to accommodate demand for services for children with disabilities. Expanding school capacity where it is needed will reduce the tax burden of transporting students long distances, provide better services to children and families, and create jobs.	ESD Grants	\$300,000
Mid-Hudson	110871	Dutchess, Orange, Putnam, Rockland, Sullivan, Ulster, Westchester	Hudson Valley Pattern for Progress	Main Street Hudson Valley	Pattern for Progress will conduct a strategic planning and feasibility study to establish the MAIN STREET Hudson Valley Center, an innovative new initiative focused on revitalizing and reenergizing main streets throughout the Hudson Valley region. The proposed Center will support and improve local capacity for community and economic development through the distribution of best practices, technical assistance, training programs, and professional networking.	ESD SPFS	\$50,000
Mid-Hudson	107348	Dutchess, Putnam, Ulster, Westchester	Parks & Trails New York	Cycle the Hudson Valley Tourism Special Event	The Empire State Trail Adventure: Cycle the Hudson Valley event highlights the adventure available in NYC's backyard for cyclists the world over. This fully-supported, seven-day bicycle tour guides riders in exploration of the 210 miles between New York City and Albany, featuring the communities, culture, history, and natural beauty of the iconic Hudson Valley.	ESD MNY	\$226,500

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Mid-Hudson	108827	Orange	City of Newburgh	City of Newburgh Hillside Neighborhood BOA Nomination	The City of Newburgh intends to develop a BOA Nomination for the approximately 81-acre area Hillside Neighborhood overlooking the Hudson River at the intersection of three strategic redevelopment areas: the Waterfront Gateway, Downtown Corridor, and Broadway Corridor. The City is seeking to restore the Hillside to a productive, mixed-use, commercial neighborhood that bridges Newburgh's waterfront and downtown areas while protecting the health of the community and its natural resources.	DOS BOA	\$180,000
Mid-Hudson	108029	Orange	City of Newburgh	City of Newburgh West Trunk Sewer Inflow and Infiltration Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration in the West Trunk Sewer, evaluate alternatives, and recommend improvements to the City of Newburgh's wastewater collection system.	EFC EPG	\$100,000
Mid-Hudson	109758	Orange	Orange County Dinosaur Park LLC	Dinosaur Country	Dinosaur Country will use the grant funds to construction, market and promote the newly constructed family destination that will feature 60+ life-size animatronic dinosaurs, 6 dino-themed playgrounds, splash park, dig site, dino-carousel, the T-Rexpress mini-train and so much more prehistoric fun for the whole family.	ESD MNY	\$500,000
Mid-Hudson	108304	Orange	Storm King Art Center	Storm King Art Center Capital Project	As a leader in the field of art in nature, Storm King launched Art that Moves You Outside. The Capital Project is part of a larger Master Plan and includes two buildings: the Welcome Sequence and the Conservation, Fabrication, and Maintenance Building. These buildings will be built to achieve carbon neutral performance and will have an immediate impact on the visitor experience.	NYSERDA CNED	\$600,000
Mid-Hudson	110940	Orange	Town of Cornwall	Town of Cornwall Firthcliffe Heights & Beaverdam Lake Inflow & Infiltration Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration in the Firthcliffe Heights and Beaverdam Lake Sewer Districts, evaluate alternatives, and recommend improvements to the Town of Cornwall's wastewater collection system.	EFC EPG	\$100,000
Mid-Hudson	107422	Orange	Town of Montgomery	Bike and Pedestrian Plan	The town will develop a bicycle and pedestrian master plan to improve access to multimodal transportation and reducing greenhouse gas emissions throughout the community.	DEC CSC	\$45,000
Mid-Hudson	110405	Orange	Town of New Windsor	Town of New Windsor Inflow & Infiltration Study Phase II	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the Town of New Windsor's wastewater collection system.	EFC EPG	\$100,000
Mid-Hudson	110685	Orange	Town of Newburgh	West Orange Lake Failing Septic Replacement Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate the feasibility of constructing a new central wastewater collection system to serve the West Orange Lake area in the Town of Newburgh. The engineering report will evaluate both collection and treatment alternatives and make a recommendation to the Town.	EFC EPG	\$20,000
Mid-Hudson	111537	Orange	Town of Wawayanda	Town of Wawayanda Robinn Meadows STP Disinfection Project	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate disinfection alternatives and recommend improvements to the Town of Wawayanda's wastewater treatment system.	EFC EPG	\$30,000
Mid-Hudson	111201	Orange	Village of Montgomery	Montgomery Downtown Design Guidelines	The Village of Montgomery will prepare design guidelines for the downtown business district.	HCR NYMS	\$20,000
Mid-Hudson	108385	Orange	Foster Supply Hospitality Inc	Grand Street Downtown Revitalization Project	Foster Supply Hospitality will transform three long vacant, county-owned buildings on Grand Street in downtown Newburgh into a bustling hospitality complex featuring a hotel, rooftop tavern, spa, restaurants, and event space. Once operational, the project is expected to generate significant hotel and sales tax revenue, creating a solid new source of economic impact for the City of Newburgh and the Mid-Hudson region.	ESD Grants	\$1,250,000
Mid-Hudson	109758	Orange	Orange County Dinosaur Park, LLC	Dinosaur Country	The Orange County Dinosaur Park, located in the Town of Walkkill, will be a recreational experience that spans over 136 acres and will feature over 60 realistic life-sized animatronic dinosaurs. The Dinosaur Park experience will include 6 dinosaur themed playgrounds, a splash park and 6 education pods. There will be a fossil dig site, robotic dinosaur rides, an amphitheater, a T-Rexpress train that circles the park, multiple dining options and a dinosaur carousel. The company will invest \$12,000,000 in this project and will create over 100 new jobs.	ESD Grants	\$1,200,000
Mid-Hudson	109247	Orange	Sonny Patel Brewing Company, Inc.	Aspire Brewery Development Project	Aspire Brewing will transform a mostly vacant 90,000 sq. ft. commercial building in the Town of Walkkill into a micro-brewery and hospitality attraction, featuring, a casual dining restaurant, beer garden, an outdoor patio and a unique indoor entertainment space where patrons can socialize while playing popular backyard favorites together and listening to live music.	ESD Grants	\$500,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Mid-Hudson	108304	Orange	Storm King Art Center	Storm King Capital Project	Storm King Art Center in Orange County, offers local, national, and international audiences a chance to discover sculpture amid 500 acres of Hudson Valley landscape. In response to growth, Storm King launched Art that Moves You Outside, a Capital Project to enhance the experience of residents and visitors, and protect its art, nature, and people. The Art Center will begin Phase 1 and includes two building elements: the Welcome Sequence and the Conservation, Fabrication, and Maintenance Building. The Welcome Sequence will streamline the arrival into Storm King, and the Art Center's Conservation, Fabrication, and Maintenance Building will protect the safety of staff and the artwork.	ESD Grants	\$2,000,000
Mid-Hudson	110889	Orange, Rockland	New York-New Jersey Trail Conference	Harriman and Bear Mountain State Parks Trails Assessment and Trails Plan	The New York-New Jersey Trail Conference seeks funding for a 48-month planning project to assess the conditions and needs of the trails in two of New York's most popular parks, Harriman and Bear Mountain State Parks. The completion of an assessment of the highly popular and heavily-used trails would result in the creation of a trail plan to provide Park leadership with a prioritized list of project sites and broad scopes of work for each hot spot location.	OPRHP EPFCKSP	\$13,965
Mid-Hudson	110063	Orange, Sullivan, Ulster	Open Space Institute	O&W Rail Trail Comprehensive Feasibility Study	The Open Space Institute will conduct the first known comprehensive feasibility study of the entire 57-mile length of the historic Ontario and Western (O&W) rail corridor from the City of Kingston to the City of Port Jervis. The study will provide the foundational information, outreach, and analysis necessary to deliver a continuous multi-use recreational trail as called for in the 2020 NYS Greenway Trails Plan linking downtowns and village centers and improving access to natural treasures.	OPRHP EPFCKSP	\$500,000
Mid-Hudson	109432	Putnam	Hudson Valley Shakespeare Festival	An Outdoor Theater Campus and Permanent Home for Hudson Valley Shakespeare Festival	Hudson Valley Shakespeare Festival will transform 98 acres of land in Garrison from its current use as a golf course and restaurant into a vibrant year-round theater campus that fosters connections at the convergence of nature and culture while developing stewardship of the landscape. At the project's completion, the site will encourage recreation through picnic areas and walking trails through restored meadows and gardens, all of which will be accessible to the community.	OPRHP EPFKSD	\$500,000
Mid-Hudson	107513	Putnam	Town of Kent	Huestis Park Rehabilitation	The Town of Kent will rehabilitate the Huestis Town Park. Funding will be used to construct ADA-compliant bathrooms, a pavilion, dog park, lawn court, additional parking, and install an ADA-compliant playground, new fencing, a multi-use game area, and provide electricity to the park.	OPRHP EPFKSD	\$491,313
Mid-Hudson	109107	Putnam	Town of Kent	Lake Carmel Streambank Stabilization Planning Project	The Town of Kent will complete an engineering report to plan for future streambank stabilization projects in the Lake Carmel watershed in Putnam County. The project will address known streambank erosion to reduce the amount of nutrients entering Lake Carmel.	DEC NPS	\$30,000
Mid-Hudson	110573	Putnam	Town of Kent	Town of Kent Seven Hills Lake Streambank Stabilization Planning Project	The Town of Kent will complete an engineering report to plan for streambank stabilization projects in the Seven Hills Lake watershed. The proposed project will address known streambank erosion and reduce nutrients entering Seven Hills Lake.	DEC NPS	\$19,800
Mid-Hudson	109432	Putnam	Hudson Valley Shakespeare Festival	Outdoor Theater Campus and Permanent Home for Hudson Valley Shakespeare Festival	Hudson Valley Shakespeare Festival will create a new year-round cultural campus in Garrison, NY. The site will offer world-class theater productions with accessible Hudson River view pathways and meadows, on-site dining and concessions, and an ecologically sustainable operation.	ESD Grants	\$2,000,000
Mid-Hudson	107596	Rockland	Rockland County	Rockland County ESD Planning Project	Rockland County will develop a Strategic Economic Development Action Plan to strengthen the County's economy by identifying methods to attract new businesses and support existing local businesses and industries. The Strategic Economic Development Action Plan will also prepare Rockland County to implement initiatives that will connect low-income residents with employment, enhance tourism standing in the Mid-Hudson Region, and attract residents to Rockland County.	ESD SPFS	\$25,000
Mid-Hudson	108675	Rockland	Town of Orangetown	Comprehensive Plan Update	The town will develop an update to the 2003 comprehensive plan. The update will include provisions for combating climate change, increasing sustainability, and addressing environmental justice as well as assessing options for a significant stretch of Hudson river shoreline that has become a part of the town after the dissolution of the Village of Nyack.	DEC CSC	\$40,000
Mid-Hudson	110530	Rockland	TOWN OF CLARKSTOWN	Advancing the Revitalization of West Nyack	The Town of Clarkstown will invest in several infrastructure projects for the Revitalization of Historic West Nyack Hamlet. Projects include upgraded streetscape, improve parking, EV charging stations, and a new bus stop along with new sidewalks, curbs, energy-efficient lighting, and expanded green space with an accessible playground and benches that will accommodate and encourage economic activity.	ESD Grants	\$1,250,000
Mid-Hudson	108210	Sullivan	Sullivan Catskills Visitors Association	Sullivan Catskills - Beyond Summer Tourism Marketing Plan	Grant funds will be used to develop and initiate "Beyond Summer: Extending the Catskill Tourism Season", a three-pronged event and marketing strategy that aims to extend the upstate New York tourism season into the shoulder season of Fall and early Winter.	ESD MNY	\$329,531

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Mid-Hudson	108913	Sullivan	Sullivan County Land Bank	Broadway Theater	The Sullivan County Land Bank is developing a feasibility study and operating plan, along with construction documents to redevelop the Broadway Theater in the Village of Monticello. This historic downtown theater has been blighted and abandoned for over two decades and been an eyesore in the Village. This project will pave the way to identifying a developer and operator to renovate the theater into a community asset and contributing business for residents and visitors to enjoy.	ESD SPFS	\$54,690
Mid-Hudson	109249	Sullivan	Town of Bethel	Bethel Town Hall Renovation and Modernization	The Bethel Town Hall, will be renovated and expanded to meet the Town's needs, and will pursue Passive House Institute US certification and carbon neutral performance. This will include the addition of renewable energy and battery storage to eliminate the need for a back-up generator and to help reduce peak energy demand. The Town has a unique opportunity to create awareness of its Carbon Neutral Town Hall among the visitors to the original Woodstock Festival site as a model that can be emulated by other communities.	NYSERDA CNED	\$149,186
Mid-Hudson	110526	Sullivan	Town of Delaware	Wastewater Treatment Plant Relocation	The town will construct a new wastewater treatment plant outside of the floodplain on a recently purchased 5-acre parcel in the hamlet of Callicoon. The existing facility was constructed in what is now recognized as a floodplain. During past flood events, it has been rendered inoperable. In the future, such closures would be likely to happen more often, as climate change results in heavier rainfall events in the area. Relocating the new facility to higher ground will help protect it from extreme weather.	DEC CSC	\$2,000,000
Mid-Hudson	111022	Sullivan	Town of Fallsburg	Laurel Avenue Sewer Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration in the Laurel Avenue area, evaluate alternatives, and recommend improvements to the Town of Fallsburg's wastewater collection system.	EFC EPG	\$50,000
Mid-Hudson	109127	Sullivan	Town of Fallsburg	Sullivan O&W Rail Trail Neversink Crossing	The Town of Fallsburg will construct a bridge over the Neversink River to complete a 14+ mile section of the Sullivan O&W Rail Trail. The Town of Fallsburg is partnering with Sullivan County on this segment of what will one day be the 50-mile continuous Sullivan O&W Rail Trail. This work augments the current tunnel bypass trail construction that will connect the Neversink Crossing to the hamlet of South Fallsburg.	OPRHP RTPNM	\$250,000
Mid-Hudson	109127	Sullivan	Town of Fallsburg	Sullivan OW Rail Trail Neversink Crossing	The Town of Fallsburg will construct a bridge over the Neversink River to complete a 14-mile section of the Sullivan O&W Rail Trail. The Town of Fallsburg is partnering with Sullivan County on this segment which will be part of the 50-mile Sullivan O&W Rail Trail. This work augments the current tunnel bypass trail construction that will connect the Neversink Crossing to the hamlet of South Fallsburg.	OPRHP EPPFKSD	\$500,000
Mid-Hudson	109954	Sullivan	Town of Liberty	White Sulphur Springs Water District Improvements Phase 10 (Final)	The White Sulphur Springs Water District in the Town of Liberty is suffering from aging infrastructure in the water system, an inadequate backup supply water source, and 6-inch pipes that are too small for proper fire protection. The Town of Liberty will use \$787,700 in NYS CDBG funding for the replacement of 1,500 lineal feet of cast iron pipe, installation of 4 new hydrants, reconnecting existing water services, site restoration, and installation of a new well screen. The total project cost is \$832,700 and includes \$45,000 in local funding. This project will benefit the District's 373 households, of which 204, or 54.6%, are low-to-moderate income.	HCR CDBGPI	\$787,700
Mid-Hudson	111467	Sullivan	Town of Thompson	Town of Thompson Emerald Green Pump Station 6 Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration in the Emerald Green Pump Station 6 area, evaluate alternatives, and recommend improvements to the Town of Thompson's wastewater collection system.	EFC EPG	\$50,000
Mid-Hudson	111634	Sullivan	Sun NG Kittatinny RV, LLC	Camp Fimfo Catskills	Sun NG Kittatinny RV, LLC will transform the former Kittatinny Campground and Canoes in Barryville, Sullivan County, into Camp Fimfo ("Fun Is More Fun Outside") Catskills. Substantial upgrades will include the installation of infrastructure to support the creation of improved RV/cabin sites and new amenities that enhance the natural, historic, cultural, and recreational assets of the region.	ESD Grants	\$1,500,000
Mid-Hudson	110660	Sullivan, Ulster	Roscoe Central School District	Roscoe and Livingston Manor School District Merger Study	Roscoe and Livingston Manor School Districts will study the potential merger of two small, rural, neighboring contiguous school districts currently being led by shared superintendent.	DOS LGEP	\$25,000
Mid-Hudson	109271	Ulster	City of Kingston	Kingston Point Park Improvements: Phase 2	The City of Kingston will design and construct a second phase of infrastructure improvements in Kingston Point Park, located on the Hudson River. The project will address flooding due to sea-level rise in the existing Delaware Ave. parking area by improving drainage and parking elevation and creation of a new wetland. The project will provide access to the existing BMX bike facility and will enhance connections to the Empire State Trail with new crosswalks, sidewalks, and pathways.	DOS LWRP	\$654,500

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Mid-Hudson	107984	Ulster	Hudson River Maritime Museum	West Gallery Building Rehabilitation	Hudson River Maritime Museum will stabilize the western portion of the main museum building by installing helical piers under the building foundation, making it safer from rising waters and mitigating the implications of climate change for long-term resiliency. The interior will be renovated to create more efficient administration and archival space. A stairway access will be installed from the ground up to the Tug Mathilda's deck.	OPRHP EPFHAPD	\$240,000
Mid-Hudson	107087	Ulster	RTH REALTY HOLDINGS LLC.	HIGHLAND PASSIVE HOUSE	Highland Passive House, located in Ulster County-Hudson Valley, will be the first Certified Passive Warehouse in North America and will achieve carbon neutral and net zero energy status. Easily replicated, the new building will be constructed from prefabricated panels, and will include a public charging location for electric vehicles. The mixed use building will include warehouse space and flexible office space that will also be used as a tv/film/production space.	NYSERDA CNED	\$1,303,157
Mid-Hudson	110442	Ulster	Town of Esopus	Town of Esopus MS4 Mapping	The Town of Esopus will complete the mapping of their stormwater system in a GIS format to facilitate better management of their regulated municipal separate storm sewer system (MS4).	DEC NPS	\$59,000
Mid-Hudson	108302	Ulster	Town of Marlborough	Milton Landing Park Waterfront Gateway	The Town of Marlborough will advance their Local Waterfront Revitalization Program through the final design and construction of improvements to Milton Landing Lower Park on the Hudson River. This project will increase tourism and create business opportunities. Improvements include a welcome plaza, signage, bus drop-off area, ADA accessible kayak launch, pathways, landscaping, fencing, benches, and picnic tables.	DOS LWRP	\$560,027
Mid-Hudson	107909	Ulster	Town of Saugerties	Kiwanis Ice Arena Air-Cooled Chiller Project	The Kiwanis Ice Arena Air-Cooled Chiller Project will replace an outdated R-134a chiller with a new, more efficient and cost effective, environmentally friendly chiller that uses R717 ammonia refrigerant. This refrigerant type will reduce the amount of greenhouse gasses emitted to the atmosphere through leaks in traditional cooling systems. Outcomes will be reduced energy and financial costs, elimination of commercial water treatment, and a reduction in maintenance costs.	DEC CSC	\$269,688
Mid-Hudson	109961	Ulster	Town of Wawarsing	Kerhonkson Sewer Plant Sludge Dewatering System	The Town of Wawarsing operates and maintains the Kerhonkson Sewer District Wastewater Treatment Facility. The reed sludge drying beds are failing and, a recent NYS DEC report revealed that sludge handling at the facility was unsatisfactory. The Town will use \$961,400 in NYS CDBG funding to replace a failing reed sludge drying bed system with a mechanical sludge drying press at the Wastewater Treatment Plant serving the Kerhonkson Sewer District. The total project cost is \$1,011,400 and includes \$50,000 in local funding. This project will benefit 697 persons of whom 605, or 86.8%, are low-to-moderate income.	HCR CDBGPI	\$961,400
Mid-Hudson	111015	Ulster	Ulster County	Community Climate Action Plan	The county will develop a county-wide climate action plan focused on greenhouse gas mitigation at the community level. The final plan will be compliant with Climate Smart Communities PE2 Action: Community Climate Action Plan.	DEC CSC	\$74,000
Mid-Hudson	109958	Ulster	Village of New Paltz	Consent Order Compliance Sewer Remediation Identified by NY Engineering Planning Grant	The Village of New Paltz must comply with a 2003 Consent Order, re-issued in 2014, imposed in response to raw sewage overflows caused by excessive inflow and infiltration (I&I). Hydraulic overloading has caused raw sewage to erupt from manholes onto the streets and into Wallkill River. The Village of New Paltz will use \$918,750 in NYS CDBG funding to replace 2,380 linear feet of clay tile sewer pipe, relin 2,235 linear feet of clay tile sewer pipe, replace 12 manholes, and make lateral re-connection. The total project cost is \$965,750 and includes \$47,000 in local funding. This project will benefit the Village's population of 4,140 of whom 2,300, or 55%, are low-to-moderate income.	HCR CDBGPI	\$918,750
Mid-Hudson	111685	Ulster	Hudson River Fruit Distributors	CA Warehouse 2021	Hudson River Fruit Distributors is a commercial grower and distributor of primarily apples in the Hudson Valley with plans to construct a controlled atmosphere storage building that will increase its storage capacity and eliminate the need to rent storage facilities off site. The company is also a distributor for other farms in the region and will be able to accommodate increased storage needs and demand from farmers that utilize their storage and distribution services.	ESD Grants	\$400,000
Mid-Hudson	108220	Ulster	Upriver Studios	Upriver Studios Expansion & Carbon Neutral Project	Upriver Studios will create a carbon neutral campus and a more competitive series of sound stages for film and television production projects in a 101,000 square foot state-of-the-art facility in Saugerties. The project will allow Upriver to attract and retain major network productions like the one recently inked to a one-year renewable contract in May of this year, resulting in hundreds of jobs and millions in economic impact in the Mid-Hudson Valley.	ESD Grants	\$500,000
Mid-Hudson	111107	Ulster	Viking Industries	Viking Industries Expansion Project	Viking Industries of New Paltz is looking to expand its long established factory in New Paltz, NY to meet growing needs for corrugated packaging among its diverse customer base. The Viking Industries Expansion Project will significantly increase capacity and efficiency by constructing and equipping a new 45,000 sq. ft. addition on the plant at 89 South Ohioville Road in New Paltz.	ESD EJP	\$550,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Mid-Hudson	111107	Ulster	Viking Industries	Viking Industries Expansion Project	Viking Industries of New Paltz is looking to expand its long established factory in New Paltz, NY to meet growing needs for corrugated packaging among its diverse customer base. The Viking Industries Expansion Project will significantly increase capacity and efficiency by constructing and equipping a new 45,000 sq. ft. addition on the plant at 89 South Ohioville Road in New Paltz.	ESD Grants	\$780,000
Mid-Hudson	110212	Westchester	ArtsWestchester	Serious Fun Arts Festival Tourism Special Event	ArtsWestchester's will use grant funds to host and promote Serious Fun Arts Festival a tourism special event encouraging visitors to come to White Plains in New York's Hudson Valley region. This event kick-offs a new outdoor public art walk and four days of fun featuring: music concerts, live mural painting, art walks, street art, gallery events, hands-on family art workshops led by professional artists, and more.	ESD MNY	\$500,000
Mid-Hudson	109770	Westchester	City of Mount Vernon	City of Mount Vernon 2021 Comprehensive Plan Update	The City of Mount Vernon will update its comprehensive plan - last updated in 1968 - to include sustainability elements, update its zoning ordinance and climate change adaptation. The Comprehensive Plan will guide future growth and development and the revitalization of the downtown.	ESD SPFS	\$75,000
Mid-Hudson	110557	Westchester	City of Mount Vernon	City of Mount Vernon MS4 Mapping	The City of Mount Vernon will complete the mapping of their municipal separate storm sewer system (MS4) to facilitate better management of their regulated system.	DEC NPS	\$75,000
Mid-Hudson	109634	Westchester	City of New Rochelle	Climate Vulnerability Assessment	The city will develop a climate vulnerability assessment. The assessment will prioritize the input of disadvantaged communities within the city and advance the city's goal of creating a climate justice adaptation plan.	DEC CSC	\$80,000
Mid-Hudson	109635	Westchester	City of New Rochelle	Complete Streets Phase IV	The city will implement the next step of its Complete Streets Plan on a section of Brook Street by improving traffic signalization and adding ADA accessible sidewalks. These improvements will allow for a better connection to the LINC - an innovative, linear, urban park designed to facilitate alternative transportation and connect diverse neighborhoods. Together these projects move the city forward in the realization of a walkable, bicycle-friendly, sustainable community, with reduced greenhouse gas emissions.	DEC CSC	\$600,375
Mid-Hudson	109880	Westchester	City of Peekskill	Fleischmann Pier and Charles Point Park Improvements	The City of Peekskill will construct improvements for Fleishmann Pier and Charles Point Park. This multi-phased project will involve park improvements including landscaping, seating, stairs, lighting and electrical work. This project will implement the City's Local Waterfront Revitalization Program by enhancing recreational amenities and providing additional public access to the Hudson River waterfront.	DOS LWRP	\$1,092,928
Mid-Hudson	107846	Westchester	City of Peekskill	Riverfront Green Connector Trail Construction	The City of Peekskill will construct a trail segment and amenities in Riverfront Green Park. The project advances the City's Local Waterfront Revitalization Program and Waterfront Master Plan through enhancing public access and expanding trail opportunities which provide a missing link in the City's Hudson River waterfront trail system. The project includes beach re-nourishment, flood control and erosion measures, a living shoreline, an observation platform, landscaping, and other amenities.	DOS LWRP	\$1,480,428
Mid-Hudson	108065	Westchester	Friends of the Old Croton Aqueduct	Comprehensive Survey of the Old Croton Aqueduct Stonework	The Friends of the Old Croton Aqueduct will conduct a survey of the whole Aqueduct Trail to ascertain conditions of the historic stone structures and to determine if repairs are needed for the safety and visual experience of walkers, who incidentally, bring an economic benefit to the community.	OPRHP EPFHPP	\$72,033
Mid-Hudson	111475	Westchester	IBM Corporation	IBM Carbon Challenge	IBM will pursue a portfolio of 16 energy efficiency measures at three locations in Armonk, Poughkeepsie, and Yorktown Heights, including HVAC upgrades, the installation of a geothermal heating system, and datacenter cooling upgrades.	NYSERDA CICC	\$2,609,100
Mid-Hudson	110559	Westchester	Mount Vernon City	CMVNY Engineering Planning Grant No 2	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate the condition of the City of Mount Vernon's Municipal Separate Stormwater Sewer system. The engineering report will evaluate alternatives and recommend improvements to the City's storm sewer system.	EFC EPG	\$100,000
Mid-Hudson	108442	Westchester	Sing Sing Prison Museum	Preservation of the Powerhouse for Sing Sing Prison Museum	The Sing Sing Prison Museum will renovate the former prison Powerhouse garage as an arts and humanities center for temporary exhibitions, films, performances, lectures, seminars, workshops, conferences and live-streamed events.	OPRHP EPFHAPD	\$480,480
Mid-Hudson	110815	Westchester	Spectrum Designs Foundation	Investing in Disabilities Employment for Business & Economic Growth	Spectrum Designs will expand its screen printing facilities by acquiring additional equipment and roof repairs for both locations in Westchester County and Long Island. The new machinery will reduce pollution, increase overall productivity and help grow the business.	ESD Grants	\$39,445
Mid-Hudson	110999	Westchester	The Mulford Corporation	Greening Municipal Housing to Reduce Stormwater Impacts in Yonkers	The Mulford Corporation will use GIGP funds to install bioretention, stormwater street trees and downspout disconnection to treat stormwater at a six Municipal Housing Authority Projects in the City of Yonkers.	EFC GIGP S	\$900,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Mid-Hudson	107444	Westchester	The Plant Powerhouse LLC	The Plant Powerhouse Carbon Neutral Project	The former Glenwood Power Plant will be re-envisioned as a center for leadership, activism, and education on climate change. Redevelopment of The Powerhouse building on the site will include advanced geothermal systems, and other elements designed to make The Powerhouse entirely carbon neutral. The historic preservation of this long-abandoned Powerhouse will also create exhibition space with hotel, restaurants, and cultural programming space and will help educate the public on carbon neutral technology and performance.	NYSERDA CNED	\$2,000,000
Mid-Hudson	111281	Westchester	Town of New Castle	ChapLine Trail	The town will construct a 1.6-mile multi-modal ChapLine trail along the Metro-North Rail Line and portions of a sewer trunk line easement. The trail will connect the Chappaqua Crossing mixed use area, Horace Greeley High School, and downtown Chappaqua. The trail will reduce the Town's reliance on automobile transportation, reduce greenhouse gas emissions, provide a healthy and convenient alternative to vehicular travel for those who live, work, or attend schools in the area and offer a scenic experience for residents and visitors as it traverses along wetlands, a gorge, woodlands, train tracks, and open meadows.	DEC CSC	\$500,000
Mid-Hudson	111493	Westchester	Village of Hastings-on-Hudson	Village of Hastings-on-Hudson Comprehensive Plan Update	The Village of Hastings-on-Hudson will update the 2011 Comprehensive Plan. The Plan will reflect changes in the community's goals. The plan will also include a new vision with short- and long-range objectives; opportunities for environmental sustainability, clean energy and resilience to protect and natural resources and address sea-level rise.	DOS SG	\$100,000
Mid-Hudson	111493	Westchester	Village of Hastings-on-Hudson	Village of Hastings-on-Hudson Local Waterfront Revitalization Program	The Village of Hastings-on-Hudson will prepare a Local Waterfront Revitalization Program (LWRP) for its coastal area along the Hudson River that extends inland along the Saw Mill River. The LWRP will provide for a sustainable, resilient waterfront community and prepare for anticipated redevelopment of the formerly-industrial waterfront. Planning will protect critical resources, respond to climate change and sea level rise, advance downtown revitalization and incorporate smart growth.	DOS LWRP	\$69,236
Mid-Hudson	111390	Westchester	Village of Mamaroneck	Mamaroneck Harbor Seawall Design	The Village of Mamaroneck will design and engineer the Mamaroneck Harbor Seawall Rehabilitation Project. This project addresses the immediate need to redesign and reconstruct the existing and damaged stone seawall. The project will provide flood and erosion control and address structural integrity concerns at the foot of the harbor. The project benefit will provide resiliency to the waterfront community and encourage additional waterfront recreational activities for residents and visitors.	DOS LWRP	\$450,000
Mid-Hudson	108804	Westchester	Village of Ossining	Ossining Firehouse Consolidation Plan	The Village of Ossining will study the consolidation of fire stations to maximize safety, efficiency and expense reduction. The report will make specific recommendations as to which locations may be candidates for renovation and expansion, and which should be considered for sale and relocation of services.	DOS LGEP	\$18,750
Mid-Hudson	111217	Westchester	Village of Sleepy Hollow	Government Operations and Community Climate Action Plans	The village will develop both a government operations climate action plan (CAP) and a community CAP in order to define greenhouse gas reduction targets in both sectors and provide a framework of actions for achieving those targets.	DEC CSC	\$73,750
Mid-Hudson	111223	Westchester	Village of Sleepy Hollow	Sleepy Hollow Sanitary Sewer Study 2021	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the Village of Sleepy Hollow's wastewater collection system.	EFC EPG	\$28,800
Mid-Hudson	111636	Westchester	Village/Town of Mount Kisco	Mount Kisco Climate Action Plan 2021	The Village/Town of Mount Kisco will create a climate action plan (CAP) as the Village acknowledges the threat of climate change, and that local government can play a role in reducing anticipated impacts. A strategic plan for climate protection is an essential tool for guiding the Village's community to take effective action in climate change mitigation.	ESD SPFS	\$28,000
Mid-Hudson	109950	Westchester	Fareri Associates LP	North 80 Development Project Phase One	The North 80 Phase One Development Project will create a mixed-use "village" in central Westchester with nearly 490,000 square feet of medical offices, biomedical facilities, housing, hospitality venues, shopping, and retail. Once completed, the project will create jobs in many employment sectors, including biotech, medical, and hospitality, that will transform central Westchester County and the Mid-Hudson Region.	ESD Grants	\$3,000,000
Mid-Hudson	110611	Westchester	Historic Hudson Valley	Historic Hudson Valley Projects 2021	Historic Hudson Valley will remediate the Rt. 9 roadbed that bisects Van Cortlandt Manor and reconfigure the entrance for safety. This project will improve the entryway to the park that will provide pedestrian and vehicular safety at Van Cortlandt Manor in Croton-on-Hudson and position the National Historic Landmark site for the 21st-century.	ESD Grants	\$600,000
Mid-Hudson	109546	Westchester	PACE UNIVERSITY	Mid-Hudson Life Sciences: Building Careers in MedTech	Pace University will revitalize and upgrade existing science labs at its campus in Pleasantville, creating a state-of-the-art facility for training clinical laboratory technicians, which will support growth of the life sciences industry in the region and state.	ESD Grants	\$100,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Mohawk Valley	108447	Fulton	Village of Northville	Hunter Creek Dam Pedestrian Way Project	The Village of Northville will complete final design, construction documents, and permits for the Hunter Creek Dam Pedestrian Way Project including parking access, sidewalk improvements, visitor amenities, and interpretive signage. The project will support necessary transportation and public safety improvements along South Main Street. This project will advance a priority project identified in the Northville Local Waterfront Revitalization Program.	DOS LWRP	\$131,250
Mohawk Valley	110149	Fulton	Village of Northville	Village of Northville Dredging Feasibility Study	The Village of Northville will conduct a dredging feasibility study to restore the environmental condition of Northville Lake. This project will identify origins of sediment, recommended technologies for its removal and mechanisms of transport, and locate where sediment accumulation has become detrimental to recreational uses and become a substrate for prolific aquatic life. The feasibility study is identified as a priority in the draft Northville Local Waterfront Revitalization.	DOS LWRP	\$82,500
Mohawk Valley	81570	Fulton	Woods Hollow Inc.	Woods Hollow Campground Tourism Capital Project	Funds will be used to build a new and unique camping destination on the Great Sacandaga Lake that will increase tourism to the Mohawk Valley. This project will provide a safe and affordable getaway for families who want to reconnect with the outdoors while creating lasting memories.	ESD MNY	\$200,000
Mohawk Valley	109421	Herkimer	Herkimer County Sewer District	Sewer District WWTP Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate digester feasibility alternatives and recommend improvements to the Herkimer County Sewer District Wastewater Treatment Plant.	EFC EPG	\$30,000
Mohawk Valley	108669	Herkimer	The Village of Mohawk	Fulmer GreenPlain Floodplain Restoration Minnow Brook Phase	The Village of Mohawk will use GIGP funds to restore the floodplain of Minnow Brook. This project will further protect the resiliency of the Fulmer Creek watershed.	EFC GIGP S	\$1,550,000
Mohawk Valley	108921	Herkimer	Town of Webb	McCauley Mountain Bike Trail Expansion	The Town of Webb will construct 7 miles of new mountain biking trails to add to the existing 25-mile trail network at McCauley Mountain Recreation Center in Old Forge, New York. The new trails will include beginner, intermediate and expert levels of difficulty. These trails will provide a direct connection to the existing multi-use trail system such as the Thendara, Old Forge, Big Moose, Inlet, Eagle Bay (TOBIE) Trail.	OPRHP RTPNM	\$250,000
Mohawk Valley	111494	Herkimer	HPK Industries	HPK Industries Business Expansion 2021	HPK Industries will purchase new machinery and equipment to streamline operations and automate processes to more than double production capabilities for PPE. This project will meet the continuous growth in demand as NYS and U.S. based companies seek to secure the supply chain of PPE products.	ESD Grants	\$200,000
Mohawk Valley	107414	Montgomery	City of Amsterdam	City of Amsterdam Smart Growth Comprehensive Plan	The City of Amsterdam Smart Growth Comprehensive Plan will incorporate sustainability and climate change concerns within the municipality. The comprehensive plan will include relevant sustainable projects and methods for implementing development opportunities, along with elements of abating future climate change risks.	DOS SG	\$90,000
Mohawk Valley	107213	Montgomery	City of Amsterdam	City of Amsterdam West End BOA Nomination	The City of Amsterdam intends to develop a BOA Nomination for an approximately 158-acre area in the city's West End. A former manufacturing center characterized by approximately 22 brownfield sites. The two primary objectives of the BOA study are to determine appropriate reuse of underutilized or contaminated parcels within the city; and to generate a catalog of updated information and data necessary to minimize exposure to potential contamination.	DOS BOA	\$81,000
Mohawk Valley	108234	Montgomery	City of Amsterdam	Water System Improvements	The City of Amsterdam in Montgomery County will use \$898,400 CDBG funding to make water and sewer system improvements. The total project cost is \$999,960 and includes \$101,200 from the City of Amsterdam. The improvements will benefit 17,880 neighborhood residents which or 55% or 9,905 low-and moderate-income persons.	HCR CDBGPI	\$898,400
Mohawk Valley	110763	Montgomery	Greater Mohawk Valley Land Bank	Hoke House Restoration	The Greater Mohawk Valley Land Bank will stabilize and restore the Chester "Bromley" Hoke House located along the Empire State Trail (EST) in Canajoharie. Once restored, the house will serve as a Rail Trail Rest Stop with a museum on the first floor, lodging on the second floor, and various traveling amenities. Restoration of the Hoke House will improve the Mohawk Street corridor, preserve Canajoharie's history, and provide services to travelers on the Rail Trail.	OPRHP EPFHPD	\$200,000
Mohawk Valley	109873	Montgomery	Village of Canajoharie	Canajoharie Main Street Design Project	The Village will use funds for design guidelines, feasibility analysis, and adaptive reuse options for properties in the Village's downtown.	HCR NYMS	\$20,000
Mohawk Valley	108420	Montgomery	Village of Canajoharie	Wastewater Improvement Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the Village of Canajoharie's wastewater collection system.	EFC EPG	\$30,000
Mohawk Valley	108883	Montgomery	Village of Saint Johnsville	Water System Evaluation	The Village of Saint Johnsville will use \$35,000 in NYS CDBG funds to complete an engineering Planning Project. The Village water treatment systems will be evaluated by an engineer to identify short- and long-term capital improvement needs. The total project cost will be \$36,842 with \$1,842 from the Village. The project proposes to benefit 1099 LMI individuals.	HCR CDBGCP	\$35,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Mohawk Valley	109254	Oneida	B and B Lumber Company Inc	B and B Lumber McConnellsville Expansion Project	B & B Lumber is a third generation lumber milling business producing high quality hardwood lumber from their McConnellsville, NY facility. B & B is revitalizing the former Harden Furniture Factory to produce hardwood lumber for the flooring, pallet, construction and other industries. B & B was in need of log processing equipment, high tech lumber stacking equipment and a refurbishment of old kilns at the Harden site, which they are able to install with the help of ESD Grant funds	ESD EJP	\$200,000
Mohawk Valley	109254	Oneida	B and B Lumber Company Inc	B and B Lumber McConnellsville Expansion Project	B & B Lumber is a third generation lumber milling business producing high quality hardwood lumber from their McConnellsville, NY facility. B & B is revitalizing the former Harden Furniture Factory to produce hardwood lumber for the flooring, pallet, construction and other industries. B & B was in need of log processing equipment, high tech lumber stacking equipment and a refurbishment of old kilns at the Harden site, which they are able to install with the help of ESD Grant funds	ESD Grants	\$300,000
Mohawk Valley	109387	Oneida	B240 LLC	Air City Daycare	Air City Lofts Daycare Project proposes to take Rome from a daycare desert, to an oasis. This project seeks to create a 4,793SF daycare center on the 1st floor of Air City Lofts, ready to partner with an operator to fill this void.	ESD Grants	\$140,000
Mohawk Valley	110907	Oneida	City of Rome	Erie Canal Terminal Visitor Center Restrooms	The City of Rome will rehabilitate the Bellamy Harbor Park Canal Terminal Building including the construction of accessible restroom facilities and associated amenities, and adjacent park improvements.	Canals	\$25,000
Mohawk Valley	108056	Oneida	City of Rome	West Dominick Street Art Walk Predevelopment	The City of Rome intends to complete predevelopment activities for additional art installations located along the West Dominick Street Arts District and Art Walk Corridor within the State-designated Erie Boulevard BOA. Key revitalization objectives include strategic placemaking as an arts hub and leveraging more visitors and residents to the downtown.	DOS BOA	\$75,000
Mohawk Valley	108729	Oneida	CNY Snow Travelers, Inc.	Acquisition of Trail Maintenance Equipment	CNY Snow Travelers, Inc. will acquire trail grooming equipment to maintain and improve snowmobile trails in Oneida County.	OPRHP RTPM	\$205,697
Mohawk Valley	111085	Oneida	Griffiss Institute Inc	Griffiss Institute Certified Business Incubator	The Griffiss Institute Business Incubator (GIBI) is located on the Griffiss Business and Technology Park in Rome, NY, conveniently adjacent to the Air Force Research Laboratory Information Directorate. The GIBI provides a unique space in the Mohawk Valley where startup and growing small businesses can avail themselves of a wide range of business support services. Because every business is different, incubator services are individually tailored for each client. The GIBI endeavors to provide focused yet flexible support for even the most unique business needs. The GIBI services include: one-on-one coaching, business training, networking opportunities and assistance with collaborative projects. The Griffiss Institute has a unique relationship with the Air Force Research Laboratory that allows it to nurture new businesses seeking both opportunities to work with the Lab or to commercialize its intellectual property. The GIBI endeavors to both grow and diversify the economic base in the region by providing services that directly target and mitigate impediments to the creation of new business opportunities and job creation.	ESD BIHS	\$625,000
Mohawk Valley	107477	Oneida	Mohawk Valley EDGE	Flexspace Site Development Activities	EDGE and a partner will construct the first phase of a 150,000 SF flex-space supply chain development campus. This project supports supply chain needs for the Marcy Nanocenter tenants (Cree Wolfsped), Danfoss, and other advanced electronics firms. Project also enhances attractiveness of Marcy Nanocenter for the buildout of the balance of the site. Phase 1 will support multiple supply chain firms with an estimated 75 jobs being created. Full build-out will support approximately 200 jobs.	ESD Grants	\$1,000,000
Mohawk Valley	107313	Oneida	Mohawk Valley EDGE	The Tech Barn at Marcy Nanocenter	The Tech Barn at Marcy Nanocenter proposes design and fit out of the first floor commercial space, as well as bringing infrastructure from River Road in the south. Necessary infrastructure includes fiber, water, gas, electric, and sewer. The project is a vibrant, mixed-use development opportunity that will support the high-tech ecosystem established by Cree Wolfsped in Marcy.	ESD Grants	\$1,000,000
Mohawk Valley	107540	Oneida	Munson-Williams-Proctor Arts Institute	Mitigation of Water Infiltration in Munson-Williams-Proctor Arts Institute's Two Museum Buildings	This project will address critical water infiltration issues that threaten the Munson-Williams two landmark buildings both listed on the National and State Registers of Historic Places: the Museum of Art building, built in 1960; and Fountain Elms, an 1850 Italianate house that was home to the Munson-Williams founding families.	OPRHP EPFHPD	\$453,042
Mohawk Valley	108401	Oneida	Munson-Williams-Proctor Arts Institute	Norman Rockwell Summer Special Exhibition Expanded Marketing	Grant funds will be used to support the exhibition Norman Rockwell, exclusively shown at Munson-Williams-Proctor Arts Institute, and will attract thousands of visitors to Utica, engage new audiences, contribute to economic development, enhance quality of life, and reinforce Munson-Williams as a cultural tourism draw. Through local partnerships, Munson-Williams will increase audience diversity and sustainable community participation.	ESD MNY	\$67,150

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Mohawk Valley	109497	Oneida	Oneida County	Oneida County Sauquoit Creek Modeling and Design Application	Oneida County will conduct modeling and complete an engineering design for five locations in the Sauquoit Creek Watershed to reduce flooding, improve water quality, and create a more resilient watershed. The locations in this study will further the work already underway in the watershed.	DEC NPS	\$30,000
Mohawk Valley	108243	Oneida	Pathfinder Village, Inc.	Pathfinder School Preschool Education & Enrichment Center Expansion	Pathfinder Village will build a \$1.85m, 3,200 sq. ft. addition at Pathfinder School, Edmeston, for an inclusive, year-round Preschool for children ages 3-5, in support of individualized needs & educational goals. The new SED-approved project will accommodate 24 students with and without disabilities. The new daycare program will help children attain school success, support working parents who need quality childcare, and support area employers who require a stable, well-trained workforce	ESD Grants	\$350,000
Mohawk Valley	108267	Oneida	SUNY Cobleskill	Agribusiness Research and Workforce Innovation Hub	SUNY Cobleskill is transforming the nature of farming through the creation of the Agribusiness Research and Workforce Innovation Hub, in partnership with Empire State Greenhouses. Converting an original campus building into a future-focused center for training and advancement in modern agriculture, the Hub will serve the commercial entities of the Cobleskill Ag and Tech Park, including a planned 385,000 square foot, carbon-negative grow facility, solar farm, and biogas digester	ESD Grants	\$1,500,000
Mohawk Valley	110647	Oneida	Town of Forestport	Town of Forestport Comprehensive Master Plan Update	The Town of Forestport will review and update their municipal Comprehensive Master Plan. The goal of the plan will include a collective vision to guide future growth and development, addressing both assets and challenges. The town will develop priorities reflects the current status and future goals for the Town.	DOS SG	\$30,600
Mohawk Valley	108044	Oneida	Town of Whitestown	Sauquoit Creek Flood Bench Phase 3	Phase three of the Sauquoit Creek Channel and Floodplain Restoration Program involves the construction of three floodplain benches. These benches will reduce flood stage during extreme weather events, reduce impacts of flooding to town and village properties and restore natural riverine processes by connecting Sauquoit Creek to its original floodplain. The anticipated outcomes include a reduction in the 1-percent annual chance flood event, mitigation of flooding and erosion along the stream corridor, and stream bank stabilization.	DEC CSC	\$210,000
Mohawk Valley	108957	Oneida	UNITED WAY OF THE MOHAWK VALLEY	Academics First Operational Expansion	Academics First Childcare Center, the only extended hour childcare center in the Mohawk Valley, located in downtown Utica has upgraded it s sprinkler system to support serving additional local community and family needs. The current waiting list for infant and toddler slots will be enhanced with a new in between waddler age room. The next step will be to extend the open childcare center hours	ESD Grants	\$100,000
Mohawk Valley	108776	Oneida	Uptown Theatre for Creative Arts, Inc.	Uptown Theatre Renewal	Uptown Theatre for Creative Arts, Inc. will assist in the renovation of the Historic Uptown Theatre in Uptown Utica.	HCR NYMS	\$500,000
Mohawk Valley	110471	Oneida	Village of Clinton	Village of Clinton Master Plan	The Village of Clinton will leverage community input to create a 10-Year Village Master Plan that includes an embedded 5-Year Strategic Plan and a highly detailed 2-year Tactical Plan. Planning tasks will include pre-planning to finance a \$22 million intermunicipal sewer upgrade, updating building and zoning codes, improving financial plans and procedures, and mitigating flood risk. Plans will support the needs of residents, business, nonprofits, and Hamilton College	ESD SPFS	\$50,000
Mohawk Valley	111480	Oneida	Village of New Hartford	Village of New Hartford SSES	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate sources of inflow and infiltration in order to eliminate Sanitary Sewer Overflows (SSOs) at the Sauquoit Creek Pump Station. The engineering report will evaluate alternatives and recommend improvements to the Village of New Hartford's wastewater collection system.	EFC EPG	\$100,000
Mohawk Valley	110965	Oneida	Village of New York Mills	Mill Number Three Technical Assistance	The Village of New York Mills will conduct a feasibility and re-use analysis for Mill # 3 located at 587 Main Street.	HCR NYMS	\$20,000
Mohawk Valley	111388	Oneida	Village of Yorkville	Village of Yorkville SSES	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate sources of inflow and infiltration in order to eliminate Sanitary Sewer Overflows (SSOs) at the Sauquoit Creek Pump Station. The engineering report will evaluate alternatives and recommend improvements to the Village of Yorkville's wastewater collection system.	EFC EPG	\$100,000
Mohawk Valley	107265	Otsego	Brewery Ommegang	Brewery Ommegang Agri-Tourism Marketing Plan	Grant funds will be used to develop a multi-media media plan for relaunching the Brewery Ommegang Tap House, promoting summer concert series, and celebrating the 25th anniversary in Cooperstown, NY.	ESD MNY	\$100,500
Mohawk Valley	110280	Otsego	City of Oneonta	Oneonta Housing Conditions Survey	The City of Oneonta will use \$50, 000 of NYS CDBG funds and \$2, 700 from the City budget to undertake a housing conditions study of the City's housing stock.. The total project cost will be \$52, 700 and is expected to provide a benefit to low-to-moderate income homeowners and renters.	HCR CDBGCP	\$50,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Mohawk Valley	108282	Otsego	Fenimore Art Museum	Wyeth Exhibit Tourism Special Event	Fenimore Art Museum will use funds to promote a major Wyeth exhibition and programming that will reignite art tourism and youth engagement, drive downtown revitalization, and support regional economic recovery following the pandemic. A strategic marketing campaign to increase Mohawk Valley tourism ensures a significant impact on the community, regional businesses, and visitors to Cooperstown.	ESD MNY	\$104,063
Mohawk Valley	110278	Otsego	Huntington Memorial Library	Huntington Park Enhancements: Phase 2	The Huntington Memorial Library will continue to renovate historic Huntington Park in the heart of the City of Oneonta. Phase 2 of the effort will include a unique children's hillside scramble play area, picnic area, natural performance venue, landscaping, and other amenities.	OPRHP EPFPKSD	\$500,000
Mohawk Valley	109775	Otsego	National Baseball Hall of Fame and Museum	Baseball Hall of Fame Tourism Attraction Website Redesign	The National Baseball Hall of Fame will use grant funds for the redesign of the Museum's website including an updated design, improved usability and a complete overhaul of the Plan Your Visit section of the site to improve user experience and in turn drive additional visits to Cooperstown, Otsego County and the Mohawk Valley Region.	ESD MNY	\$225,000
Mohawk Valley	109521	Otsego	Richfield Youth Sports, Inc.	Lake Street Youth Sports Park Development Project	The Lake Street Youth Sports Park Development Project will develop an 18-acre underutilized, vacant parcel into a park with T-ball, softball, baseball and soccer fields in both the Village of Richfield Springs and the Town of Richfield. With limited accessible and available fields, this project will provide Richfield Youth Sports the needed fields to continue and grow the organization and its youth sports programs.	OPRHP EPFPKSD	\$163,419
Mohawk Valley	109665	Otsego	Springbrook NY, Inc.	Outdoor Recreation Facilities Planning	Springbrook will undertake planning and design for two unique outdoor recreational facilities: a nature trail system with picnic pavilion in Milford, and a sensory garden park and playground in Oneonta. Both facilities will be wheelchair accessible and feature engaging activities for adults and children of all abilities, including sensory elements for people with autism.	OPRHP EPFPKSP	\$70,367
Mohawk Valley	110798	Otsego	Town of Oneonta	Comprehensive Plan Update	The town will update its 2014 comprehensive plan to include sustainability, smart growth, and climate resiliency elements.	DEC CSC	\$14,000
Mohawk Valley	110723	Otsego	Town of Otsego	Comprehensive Plan Update	The town will update its 2008 comprehensive plan to include sustainability elements in alignment with the related Climate Smart Communities certification action and the Climate Leadership and Community Protection Act.	DEC CSC	\$14,000
Mohawk Valley	108276	Otsego	Village of Cooperstown	Village of Cooperstown Stormwater Reduction to Otsego Lake Study	The Village of Cooperstown will conduct a stormwater study for Pioneer Alley and Hoffman Lane to reduce pollution entering Otsego Lake and its tributary, Willow Brook.	DEC NPS	\$30,000
Mohawk Valley	107896	Schoharie	Schoharie County	Countywide Real Property Data Inventory and Consistency Project	Schoharie County will create uniform property data collection standards between the County and 16 towns, to ensure transparency and efficiency in service delivery.	DOS LGE	\$650,000
Mohawk Valley	111214	Schoharie	The Community Library	Cobleskill Community Library Annex Renovations	The Community Library of Cobleskill will make improvements to the Annex portion of the Library Building. Funds will be used to address immediate concerns regarding hazardous material abatement and building facade repairs to occupy the building. All proposed work will preserve the historical aspects of this iconic building while allowing it to be enjoyed and utilized by the community.	OPRHP EPFHPD	\$500,000
New York City	110793	Bronx	1500 Waters Place Realty LLC	Tower 3	Tower 3 will be the first of a seven-building planned expansion of the Hutchinson Metro Center campus in the Morris Park section of the Bronx. Tower 3 will be a 14-story, all-electric carbon neutral high-rise building consisting of rentable office space and a garage, that will implement construction and operation strategies to reduce energy use and carbon emissions.	NYSERDA CNED	\$2,000,000
New York City	111155	Bronx	Womens Housing and Economic Development Corporation	Bronx Hall of Music Capital Project Enhancements	Bronx Music Hall will use the funds to implement critical enhancements to its 250-seat theater & multi-use community facility. Included are a dynamic overhead canopy/marquee spanning two sides of the music hall, as well as acoustical treatments, risers, drapery, increased seating, & rigging which will more than double the economic impact of the Bronx Music Hall & serve as a cultural magnet for generations to come.	ESD MNY	\$160,000
New York City	111677	Bronx	Emerald Isle Immigration Center	EIIC Bronx Building Renovation Project	The Emerald Isle Immigration Center (EIIC) will renovate its Bronx Immigration Center in Woodlawn. The project will assist EIIC in its efforts to provide free employment, educational, and immigrant legal services to overcome systemic barriers, and to help immigrant seniors stay engaged in the local economy. By doubling and modernizing program space within the existing footprint, EIIC expects to increase the number of clients served by at least 20% in the first year after project completion.	ESD Grants	\$500,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
New York City	111155	Bronx	Womens Housing and Economic Development Corporation	Bronx Hall of Music Capital Project Enhancements	WHEDco will make critical enhancements to the Bronx Music Hall, a 250-seat theater and multi-use community facility to ensure that it is best positioned to attract and accommodate more and higher profile artists and events. Enhancements included are a dynamic overhead canopy/marquee spanning two sides of the music hall, as well as acoustical treatments, risers, drapery, increased seating, and rigging which will more than double the economic impact of the Bronx Music Hall and ensure that the facility will serve as a cultural magnet for generations to come.	ESD Grants	\$300,000
New York City	111370	Bronx, Kings, New York, Queens	Communitas America Inc	Empowering BIPOC entrepreneurs from underserved Bronx communities	Our project is focused on lowering barriers to business entry and increasing the likelihood of entrepreneurial success in the Bronx. We do this by creating programming that equips BIPOC entrepreneurs with the resources necessary to launch, sustain and scale ventures. Particularly for early-stage BIPOC entrepreneurs from the Bronx, finding the resources, support networks, community and funding can be nearly impossible.	ESD BIHS	\$625,000
New York City	110318	Bronx,Kings,New York,Queens,Richmond	New York City Department of Transportation	Resilient Waterfront Street End Network Initiative	New York City Department of Transportation will launch a new Resilient Street Ends Initiative to support waterfront revitalization. The project will create a geospatial database of the street end network, develop Resilient Street End Design Guidelines to provide standards to activate waterfront street ends for public use, and prepare concept plans for implementation at selected sites to create resilient, accessible spaces with green infrastructure and flood protection.	DOS LWRP	\$409,500
New York City	109843	Kings	Downstate Technology Center Inc	Brooklyn Biotech NYS Certified Business Incubator	The Biotech/Technology Initiative includes a Biotech Incubator adjacent to SUNY Downstate Medical Center for early-stage companies and BioBAT at the Brooklyn Army Terminal for biotech/technology expansion and manufacturing. This initiative includes job training programs for graduate and undergraduate students and access to Downstate resources such as a library, specialized research equipment, animal facility, clinical trials and basic science/clinical faculty. In addition, the entrepreneurship program provides mentorship and business support as well as connections to various funds, angel investors and venture capitalists.	ESD BIHS	\$625,000
New York City	107716	Kings	Green-Wood Cemetery	Stormwater Initiative	Green-Wood Cemetery will use GIGP funds to install bioretention and a harvest and reuse system. This project will reduce stormwater runoff to the surrounding combined sewer areas, while also decreasing the potable water usage from the New York City Water Supply System.	EFC GIGP S	\$1,775,000
New York City	109068	Kings	LM Development Partners	Spring Creek Landing	The first phase of Spring Creek Landing will be comprised of two buildings located in Brooklyn, NY. The first building includes affordable and supportive housing units (pursuing Passive House certification), a healthcare facility, and neighborhood serving retail. The second building includes affordable housing units (pursuing Passive House certification). This phase will set the precedent for the community development and sustainability goals for all the phases of the project to follow.	NYSERDA CNED	\$1,005,000
New York City	108934	Kings	NYU	NYU Future Labs	New York University (NYU) currently operates three incubators managed by the Tandon School of Engineering, with a fourth incubator focused on veteran startups in development. These incubators, the network of "Future Labs at NYU Tandon" include three separate locations focused on data companies, digital companies and clean energy/green tech companies.	ESD BIHS	\$625,000
New York City	109904	Kings	Pratt Institute & UPROSE	Sunset Park Green Reindustrialization Studies	Pratt Institute and UPROSE intend to complete BOA pre-development activities in the form of area-wide economic studies within the State-designated Sunset Park BOA in Brooklyn. The project consists of studies needed to advance the goal of the "green reindustrialization" of Sunset Park. Specifically, it will support financial/technical feasibility studies of climate-focused industrial supply chains to identify opportunities to expand manufacturing and create climate-related jobs.	DOS BOA	\$231,630
New York City	107678	Kings	Green-Wood Historic Fund	Education and Welcome Center	Green-Wood Historic Fund is constructing an Education and Welcome Center directly across the street from The Green-Wood Cemetery's main gate. It will welcome both neighbors and tourists, offer additional public programming and educational opportunities, and engage visitors in the art, history and nature of this National Historic Landmark cemetery.	ESD Grants	\$1,500,000
New York City	111240	Kings	Joya, LLC	Joya Business Expansion	Joya, LLC, a fragrance brand and design studio, currently manufactures in a 19th Century Brooklyn rigging garage turned scented atelier in the Fort Greene section of Brooklyn. As the company continues to grow, it is in need of additional manufacturing space. The company's expansion in the Greenwood Heights section of Brooklyn will also enable the company to increase its employee headcount.	ESD Grants	\$150,000
New York City	111718	New York	1411 Broadway NYC	1411 Broadway Carbon Challenge	The owners of 1411 Broadway in New York City, working with SOCOTEC consultants, will pursue a portfolio of projects with a strategy to reduce heating and cooling loads, use heat recovery as much as possible, and supplement heating and cooling with more efficient heating ventilation and cooling (HVAC) technologies.	NYSERDA CICC	\$550,000
New York City	111184	New York	Childrens Museum of Manhattan	New Building Project	The grantee will use the grant funds to renovate the Children's Museum of Manhattan future home at the historic building at 361 Central Park West, enhancing the destination as a premiere attraction for families visiting New York City.	ESD MNY	\$1,500,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
New York City	111230	New York	Columbia University	Morningside Decarbonization Study	Columbia University will initiate a plan to achieve the strategic electrification of its facilities and meet the University's sustainability and decarbonization goals. The proposed work will develop a Strategic Electrification Master Plan, a detailed, actionable, and flexible roadmap for achieving carbon neutrality by 2050. The Study will examine 65 buildings on the University's Morningside Campus as well as the central steam and chilled water plants which serve these buildings.	NYSERDA CNED	\$1,506,575
New York City	111572	New York	Columbia University Irving Medical Center	Columbia Medical Center Heating System Electrification	Columbia University Irving Medical Center will undertake a number of energy efficiency measures, including steam-to-hot water conversion in two buildings and installation of a heat recovery heat pump that will be leveraged to balance heating and cooling loads in the impacted building.	NYSERDA CICC	\$1,411,075
New York City	111583	New York	Harlem Congregations for Community Improvement, Inc.	Bradhurst BOA Predevelopment Activities	Harlem Congregations for Community Improvement intends to complete BOA predevelopment activities related to marketing and redevelopment of strategic sites identified within the State-designated Bradhurst BOA. The primary community revitalization objectives to be achieved by this project include: creation of affordable housing; development of additional retail; reactivating and remediating vacant and polluted sites; generating private investment; as well as socio-economic development programs.	DOS BOA	\$299,970
New York City	111205	New York	Mount Sinai	Growing New York's Startups through Mt. Sinai's Healthcare Innovation Ecosystem	The Mount Sinai Med-Tech incubator will provide comprehensive support for companies to develop solutions and businesses in the Medical Technology area to turn scientific discoveries in NYC into commercial solutions.	ESD BIHS	\$625,000
New York City	110010	New York	Museum of the City of New York	Museum of the City of New York Tourism Marketing Plan	The Museum of the City of New York will use grant funds to promote group experiences across the five boroughs and support tourism initiatives in connection with its Centennial celebrations in 2023. Marketing and promotional efforts will strategically position New York as a preeminent tourism destination and target groups interested in celebrating the city's history and thriving culture through unique experiences.	ESD MNY	\$248,500
New York City	108642	New York	New Heritage Theatre Group	Harlem Heritage Now - Tourism Special Event	Funds will be used to support the implementation of a tourism special event, HARLEM HERITAGE NOW! a celebration of Harlem's history, culture and excellence in the arts. It is designed to promote Harlem as a year-round tourist destination for visitors from the Tri-State area, and nationally.	ESD MNY	\$247,500
New York City	109527	New York	New York City Department of Parks and Recreation	Randall's Island Park Pathway and Living Shoreline Restoration	The NYC Department of Parks and Recreation, in partnership with the Randall's Island Parks Alliance, will design and construct improvements of an eroded seawall and waterfront pathway along the Harlem River. Nature-based features and native plantings will be incorporated into shoreline design, as well as new areas for shoreline activities such as fishing, picnicking, educational field trips, and community science projects within the littoral zone.	DOS LWRP	\$3,720,188
New York City	109539	New York	New York Shakespeare Festival/The Public Theater	Free Shakespeare in the Park Tourism Marketing Plan	New York Shakespeare Festival/The Public Theater will use grant funds to promote Free Shakespeare in the Park, a beloved New York City cultural tradition, through a strategic marketing initiative designed to draw out of state visitors to the renowned Delacorte Theater in Central Park.	ESD MNY	\$278,013
New York City	110952	New York	New York University	Rubin Hall Passive House Retrofit	NYU will renovate Rubin Hall, a dormitory with almost 700 residents in lower Manhattan to achieve carbon neutral performance. This project seeks to achieve full electrification and LEED retrofit Passive House (EnerPHit) certification. The project is a highly replicable building type (pre-war, multifamily/dormitory) and the knowledge gained will inform the retrofit of billions of square feet of buildings statewide.	NYSERDA CNED	\$2,000,000
New York City	109619	New York	Roundabout Theatre Company, Inc.	American Airlines Theatre - Penthouse Lobby Renovation	The historic American Airlines Theatre, operated by Roundabout Theatre Company, will use grant fund to fully renovate the public gathering space, known as the Penthouse Lobby, to create a space that attracts more business and tourist activity to the theatre while expanding current community offerings.	ESD MNY	\$398,000
New York City	111355	New York	Roundabout Theatre Company, Inc.	Digital Ticketing Tourism Working Capital Project	Roundabout Theatre Company will use the grant funds to implement an innovative digital ticketing program to improve the experience of audiences from ticket purchase to the final bows after the show. This new initiative will bring new patrons into the city and overall region and foster more meaningful interactions with our community online and in-person.	ESD MNY	\$300,550
New York City	110262	New York	The Cooper Union for the Advancement of Science and Art	Facade Restoration and Preservation of the National Historic Landmark Foundation Building at The Cooper Union	Cooper Union will conduct historic preservation and restoration of the facade on its landmark Foundation Building opened in 1859 in NYC's Historic Bowery District. Its public events, history, and beautiful architecture draw countless visitors and tourists, contribute vital community economic development, and support area arts and culture. It houses the legendary Great Hall, public galleries, and supports academic programs, workforce development and college preparation for low-income youth.	OPRHP EPFHPD	\$750,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
New York City	108472	New York	Westbeth Corp. Housing Development Fund Company, Inc.	Westbeth Historic Windows	Westbeth Corp. Housing Development Fund Company, Inc. will complete Phase 1 of the Historic Windows Replacement Project on its landmark West Village campus. Replacement of deteriorating wood windows will preserve the historic character of the property while also addressing safety, environmental, and quality of life issues for artist residents of Westbeth's affordable housing units.	OPRHP EPFHPD	\$500,000
New York City	107551	New York	Kitchen Commons, Inc.	Kitchen Commons Renovation	Kitchen Commons, Inc. dbd E.terra is a flexible commercial kitchen workspace solutions company that provides a full range of kitchen rentals, co-working and business services to support growth and expansion of food & beverage companies. E.terra is taking over management of a shared commercial kitchen at Harlem's La Marquette where they will renovate and optimize the space with new equipment and increase operational capacity 300% over the present levels; creating a true 24/7 food manufacturing facility at very competitive prices for small businesses and starting entrepreneurs.	ESD Grants	\$56,000
New York City	110759	New York	Newlab	Center for Planetary Health	Newlab will develop and operate the Center for Planetary Health (C4PH) a facility that will anchor the redevelopment of 125 West End Ave. in Manhattan's Upper West Side and attract the region's top life science startups. C4PH will serve as springboard for new startups working in non-therapeutic life sciences.	ESD Grants	\$2,000,000
New York City	110588	New York	Pace University	Pace University Clinical Simulation Laboratory Expansion	Pace University will expand its healthcare simulation lab in Lower Manhattan, which provides training to nursing, nurse practitioner, and physician assistant students. Grant funds will be used to purchase equipment that will allow Pace to increase enrollment in its healthcare program and help address the shortage of healthcare providers in New York City that has been exacerbated by the COVID-19 pandemic.	ESD Grants	\$45,000
New York City	93458	New York	Rgenix, Inc.	Rgenix Expansion	Rgenix, Inc. is a clinical-stage biopharmaceutical company developing drug candidates that target key pathways in cancer progression. Currently, Rgenix is located in the New York Blood Center and is seeking to significantly expand its operations. Rgenix will relocate and build out a new space that will accommodate its new staff members as well as a new vivarium.	ESD EJP	\$800,000
New York City	93458	New York	Rgenix, Inc.	Rgenix Expansion	Rgenix, Inc. is a clinical-stage biopharmaceutical company developing drug candidates that target key pathways in cancer progression. Currently, Rgenix is located in the New York Blood Center and is seeking to significantly expand its operations. Rgenix will relocate and build out a new space that will accommodate its new staff members as well as a new vivarium.	ESD Grants	\$200,000
New York City	109619	New York	Roundabout Theatre Company, Inc.	American Airlines Theatre - Penthouse Lobby Renovation	Roundabout Theatre Company (Roundabout), the country's largest non-profit theatre, will renovate the Penthouse Lobby —a public gathering space on the fifth floor of the historic American Airlines Theatre at 227 West 42nd Street. Renovating this multipurpose space is the next phase of a larger comprehensive betterment project. These upgrades are critical to the future of Roundabout's programming and ability to attract tourist audiences, New Yorkers and other constituents.	ESD Grants	\$498,000
New York City	109417	New York	The Trust for Governors Island	Governors Island Climate Resiliency Accelerator	Historic Building 301 on Governors Island will be transformed into Buttermilk Labs, an accelerator hub for climate change-focused businesses, entrepreneurs, and non-profits. The project will provide a platform for supporting and scaling green- and blue-tech businesses, such as offshore wind, and is a critical step in establishing a future Center for Climate Solutions on the Island.	ESD Grants	\$2,500,000
New York City	108132	Queens	New York City Department of Parks and Recreation	Vernam Barbadoes Habitat Restoration & Public Access Design	The NYC Department of Parks and Recreation will generate final designs for 25 acres of habitat restoration at Vernam Barbadoes in the Jamaica Bay watershed. Design and construction documents will include specifications and cost estimates for the removal of debris and historic fill in tidal wetlands, the protection and expansion of existing salt marsh, restoration of existing native upland maritime habitats, invasive species removal, and new public access via natural surface trails.	DOS LWRP	\$363,163
New York City	108353	Queens	Newlight Breadworks	NB Production Facility Build Out	Newlight Breadworks seeks to expand its existing operations into new geographies by assuming the lease of a wholesale bakery in Ozone Park, Queens. Newlight would acquire the equipment already in use in the space, and begin to grow its operations in the new territories with the Ozone Park location as its headquarters	ESD Grants	\$60,000
New York City	110880	Queens	St Johns University	St. John's Carbon Challenge	St. John's University will implement several projects over the next three years to reduce energy and carbon at their Queens, New York campus, and will specifically focus on eliminating natural gas use during the summer months on campus. They will convert two existing absorption chiller plants at the Montgoris Dining Hall and the University's law school and convert existing steam-fired domestic hot water (DHW) generators to electric heat pump-based DHW generators in multiple campus buildings.	NYSERDA CICC	\$1,792,750

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
New York City	111433	Richmond	New York City Department of Small Business Services	Saw Mill Creek Mitigation Bank Phase 3	The City of New York, in partnership with the New York City Economic Development Corporation, will use project funds to plan and design up to eleven and a half supplemental acres to the Saw Mill Creek Wetland Mitigation Pilot Project. In addition to leveraging public and private funds for a large-scale wetland restoration in Staten Island, the mitigation bank balances sustainable waterfront development by generating "mitigation credits" for offsetting permitted and unavoidable impacts of waterfront construction projects.	ESD SPFS	\$100,000
New York City	111430	Richmond	NYC Department of Small Business Services	Saw Mill Creek Wetland Mitigation Bank Phase 2	New York City, in partnership with NYC Economic Development Corporation, will continue its Saw Mill Creek Wetland Mitigation Bank Pilot which restores wetlands for the purpose of compensating for unavoidable permitted wetland impacts from development at other locations on the City's waterfront. This award will clean, restore, and protect 15 acres of tidal wetlands at Saw Mill Creek Marsh on Staten Island as part of the mitigation bank.	DOS LWRP	\$2,500,000
New York City	108730	Richmond	Staten Island Economic Development Corporation	SIEDC Solar Electricity Development Assessment	SIEDC will analyze five locations where solar arrays can be installed on private property and connected to the energy grid. The requested funding will provide environmental sustainability/resiliency, alleviate stress on the grid, promote industrial development in areas in need of reliable and large-scale electric, increase property values and create "Green Collar" jobs.	ESD SPFS	\$50,000
New York City	108727	Richmond	Staten Island Economic Development Corporation	Staten Island Bay Street Corridor BOA Nomination	The Staten Island Economic Development Corporation intends to develop a BOA Nomination to address the Bay Street Corridor building on significant recent investments including Empire Outlets, DRI-funded projects and others. The 2.36 mile corridor sits on the eastern end of Staten Island's north shore. The primary revitalization objectives include identifying potential brownfield issues, analyzing the impacts and opportunities of recent investments, and developing a master plan for the area.	DOS BOA	\$270,000
North Country	110801	Clinton	Clinton County IDA - Clinton Grant Facilitation Corporation	Clinton County Indoor Field Sports and Event Center Feasibility Study	The Clinton County IDA's Grant Facilitation Corporation, in conjunction with Elevate518, LLC, will conduct a study in order to determine the feasibility of constructing a new indoor field sports and event center in the county.	ESD SPFS	\$27,750
North Country	111233	Clinton	The Strand Center for the Arts	The Strand Placemaking Marketing Strategy	The Strand Center for the Arts will use the grant funding to create a placemaking strategy via print, radio, signage, and on-air and digital media and events leading up to the 100th anniversary of our historic Theatre. Promotion of the tourism events will be targeted throughout the North Country, VT, and in Montreal to drive additional international and inter-state traffic.	ESD MNY	\$50,380
North Country	108259	Clinton	Town of AuSable	Collection System 2021	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate stormwater system rehabilitation and green infrastructure alternatives, and recommend improvements to the Town of AuSable's stormwater collection system.	EFC EPG	\$30,000
North Country	109042	Clinton	Town of Black Brook	Town of Black Brook Smart Growth Comprehensive Plan	Black Brook will prepare a Smart Growth Comprehensive Plan (SGCP) to guide land uses, eco development, tourism & housing; waterfront protection, enhancement and revitalization; infrastructure improvements, and other key issues. A long-term strategy will allow the Town a detailed understanding of existing land uses; local and regional economies; tourism; recreation; waterfront access and related improvements; demographics and housing; and infrastructure and public service conditions.	DOS SG	\$53,100
North Country	108686	Clinton	Town of Plattsburgh	Battlefield Memorial Gateway Park Phase I	The Town of Plattsburgh will construct Phase I of the Battlefield Memorial Gateway Park multiphased project on Lake Champlain. Improvements include a multi-use trail connecting to the Empire State Trail and City of Plattsburgh waterfront trail, entrance, parking area, stormwater management, landscaping, signage, lighting, bike racks and benches. This project will advance the Town of Plattsburgh Lake Champlain/Saranac River Waterfront Plan.	DOS LWRP	\$900,000
North Country	110496	Clinton	Town of Plattsburgh	New York Road Bike Lanes	The town will construct bike lanes along both sides of New York Road, reducing the current, underutilized, four-lane highway to two lanes. The bike lanes will offer a safe, healthy, and sustainable mode of transportation that will reduce vehicle miles traveled and emission of greenhouse gases.	DEC CSC	\$388,875
North Country	107917	Clinton	Town of Schuyler Falls	Morrisonville Water Improvements Project	The Town of Schuyler Falls in Clinton County will use \$1.25 million in CDBG funding in order to make critical improvements to its Morrisonville Water District in order to improve water service to residents and attract further investment and development.	HCR CDBGPI	\$1,250,000
North Country	110912	Clinton	Village of Rouses Point	Rouses Point Smart Growth Comprehensive Plan	The Village of Rouses Point will develop a Smart Growth Comprehensive Plan. A survey of village residents prioritized three categories which the plan will focus on: (1) enhancing the Village's waterfront with more access points, recreational amenities, and businesses; (2) supporting downtown revitalization along Lake Street; and (3) protecting the Village's unique character as a residential, waterfront community.	DOS SG	\$76,500

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
North Country	110296	Clinton, Essex, Franklin, Hamilton, Jefferson, Lewis, St. Lawrence	Clarkson University	North Country Innovation Hot Spot	Clarkson University has developed a scalable model with a track record of success through CAMP, the Shipley Center for Innovation, and the Reh Center for Entrepreneurship. By centralizing resources/services at Clarkson and de-centralizing idea generation/capture across the region, the North Country can harness the existing intellectual capital to create the businesses we need in order to drive economic development	ESD BIHS	\$1,250,000
North Country	111394	Essex	Adirondack Mountain Club, Inc.	ADK Acquisition of Cross Country Ski Area	The Adirondack Mountain Club will acquire 200 acres of open space and wetlands that include cross country ski trails and views of the MacIntyre Range, located along Route 73 between Keene Valley and Lake Placid. This acquisition will preserve public access to this incredible property and introduce conservation and other land management principles to the property.	OPRHP EPFKSA	\$500,000
North Country	109316	Essex	Essex County	County Solid Waste Management Study	Essex County will complete an assessment of the consolidation of all waste management in the county. This includes food waste removal from the waste stream and composting; wastewater plant solids handling; and alternative/green energy and heat development.	DOS LGEP	\$20,000
North Country	108320	Essex	Essex County Soil and Water Conservation District	Minerva Lake Road in Essex County Feasibility Study	Essex County Soil and Water Conservation District will complete a feasibility study to reduce the amount of salt, sediment and nutrients entering Jones Brook and Minerva Lake. Green infrastructure projects, such as sediment basins or rock dams, will be considered to slow the flow of pollutant-carrying runoff.	DEC NPS	\$30,000
North Country	111409	Essex	Town of Chesterfield	Town of Chesterfield Stormwater Investigation Study	The Town of Chesterfield will hire an engineering firm to develop a green infrastructure feasibility study for reconstructing their stormwater conveyance systems in the Hamlet of Keesville. The study will determine stormwater management practices and/or erosion and sediment controls that will reduce pollutants entering the Ausable River.	DEC NPS	\$30,000
North Country	108615	Essex	Town of Minerva	Minerva Water Line Replacement Project	The Town of Minerva will use \$1,000,000 in NYS CDBG funds to replace water system distribution infrastructure in the project area of Town Shed Road and Moxham Pond. The total project cost is estimated to be \$2.4 million and includes \$1.4 million from NYS Environmental Facilities Corporation Drinking Water State Revolving loan funds. The project will benefit 45 residents in the project area, 32 of which (71%) are low-to-moderate income individuals and will ensure regulatory compliance of the system, protect local and regional water resources, and support future community growth.	HCR CDBGPI	\$1,000,000
North Country	107151	Essex	Town of Schroon	Town of Schroon Comprehensive Plan	The Town of Schroon will update their existing Comprehensive Plan which was written in 1977. The anticipated outcome of this project is a planning tool and document that incorporates Smart Growth principals, addresses existing assets and local resources, outlines priorities for future development, and better reflects the vision that the current population has for this vibrant, waterfront community.	DOS SG	\$69,300
North Country	107152	Essex	Town of St. Armand	Town of St. Armand Comprehensive Plan	The Town of St. Armand will develop the community's first Comprehensive Plan. The comprehensive plan will incorporate Smart Growth principles that will adequately address current opportunities for growth, evaluate existing assets and local resources, outline priorities for future development, and create a vision for their community.	DOS SG	\$34,719
North Country	107481	Essex	Town of Ticonderoga	LaChute River Walk Trail Extension	The Town of Ticonderoga will construct a 1/4-mile segment of the LaChute River Walk Interpretive Trail. This priority project advances the goals of the Essex-Clinton Local Waterfront Revitalization Program by enhancing recreation and tourism resources. The project will improve access and connectivity to greenspaces, parks, waterways, heritage sites and businesses, by creating an ADA compliant multi-use trail.	DOS LWRP	\$279,750
North Country	108963	Essex	Town of Ticonderoga	WWTP Phosphorous Removal Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate upgrade alternatives for phosphorus removal and recommend improvements to the Town of Ticonderoga's wastewater treatment system.	EFC EPG	\$30,000
North Country	108117	Essex	Town of Willsboro	Town of Willsboro Noblewood Lakefront Stabilization	The Town of Willsboro will hire an engineering firm to develop a plan to stabilize the banks of Lake Champlain in the area of Noblewood Park. The project will reduce the erosion of sediment and nutrients into the lake.	DEC NPS	\$75,000
North Country	108152	Essex, Franklin	Village of Saranac Lake	Collection System Evaluation 2021	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration in the Margaret Street and Ampersand Avenue areas, evaluate alternatives, and recommend improvements to the Village of Saranac Lake's wastewater collection system.	EFC EPG	\$30,000
North Country	111539	Franklin	Franklin County Soil and Water Conservation District	Salmon River Aquatic Organism Passage Assessment Part 2- Franklin County	The Franklin County Soil and Water Conservation District will assess culverts in the Lower Salmon River Watershed to identify those in most need of repair to reduce the erosion of sediments into the streams. The crossings will be assessed using the North Atlantic Connectivity Collaborative protocol.	DEC NPS	\$30,000
North Country	109444	Franklin	Historic Saranac Lake	Trudeau Building Museum Project	Historic Saranac Lake will rehabilitate the Trudeau Building into a museum in downtown Saranac Lake.	HCR NYMS	\$500,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
North Country	110244	Franklin	Six Nations Iroquois Cultural Center	Phase II of our New Building Project	The grantee will use the capital funding to renovate and construct a new facility to house the current museum and exhibits. The new facility will allow for an enhanced visitor experience as well as drawing more visitation to the area and overall North Country region.	ESD MNY	\$150,000
North Country	108959	Franklin	The Wild Center: Natural History Museum of the Adirondacks	More to Explore: Build Back Better Tourism Marketing Plan	Grant funds will be used by The Wild Center to develop and promote "More to Explore: Build Back Better" a marketing plan that uses a suite of strategic promotion activities to promote expanded year-round indoor and outdoor Wild Center exhibits and programs that will rebuild the prior audiences while attracting new, more diverse visitors to the region. The 2-year project will include new exhibits, special programs and events that will increase tourism and enhance the economy.	ESD MNY	\$650,475
North Country	111347	Franklin	Village of Malone	Malone WWTP Leachate PreTreatment Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate leachate pretreatment alternatives and recommend improvements to the Village of Malone's wastewater treatment system.	EFC EPG	\$30,000
North Country	108383	Franklin	Village of Tupper Lake	Village of Tupper Lake Waterfront Park Enhancement	The Village of Tupper Lake will improve its downtown waterfront park on the Raquette River by installing new floating docks and enhancing the 1930s era grandstand. The new floating dock system will provide boaters easier access to downtown restaurants and shops. Grandstand improvements include exterior painting and trim replacement, installation of a historic sign, and an outfield scoreboard. Improvements will advance the Tupper Lake Revitalization Strategy and Action Plan.	DOS LWRP	\$337,492
North Country	111516	Franklin	OWD Development, LLC	OWD Site Redevelopment	OWD Development, LLC will redevelop a blighted former manufacturing facility into a new mixed-use development site. This certified historic redevelopment project, located in Tupper Lake, NY, will include co-working and training space, commercial space and market rate apartments.	ESD Grants	\$2,500,000
North Country	109483	Franklin, St. Lawrence	Town of Tupper Lake	North Country Regional GIS Infrastructure	The Town of Tupper Lake and partner local governments will cooperatively develop a regional GIS infrastructure for highway and public works infrastructure. This will assist with asset management, budgeting, and planning.	DOS LGE	\$346,050
North Country	108555	Jefferson	Town of Cape Vincent	Tibbetts Point Lighthouse Shoreline Stabilization	The Town of Cape Vincent will restore deteriorating shoreline on either side of the Tibbetts Point Lighthouse with quarry stone walls and riprap seawall. Recent flooding and erosion has put the property in jeopardy and steps will be taken to protect the shoreline and by extension the historic lighthouse.	OPRHP EPFHPD	\$400,000
North Country	109716	Jefferson	Town of LeRay	Town of LeRay Infrastructure	The Town of LeRay in Jefferson County will use \$1.25M in CDBG funding to extend its consolidated water district by extending a new pipeline along NYS Route 11. This extension will eliminate the need for onsite wells, reduce O&M costs and create infrastructure for future development. The total project cost is \$4 million and includes \$2.4M in WIA and \$350,000 in EFC financing. The improvements will benefit the district's 422 residents, 274 of which (65%) are low-and moderate-income.	HCR CDBGPI	\$1,250,000
North Country	109018	Jefferson	Town of LeRay	Town of LeRay Sewer District 1 I&I Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration within Sewer District No. 1, evaluate alternatives, and recommend improvements to the Town of LeRay's wastewater collection system.	EFC EPG	\$30,000
North Country	108253	Jefferson	Town of Wilna	Village of Deferiet BOA Nomination	The Village of Deferiet, in partnership with the Town of Wilna, intends to develop a BOA Nomination for a 200-acre former paper mill and surrounding area along the Black River in Jefferson County. The objective of the BOA Nomination is to identify potential areas of contamination and identify redevelopment opportunities for the former paper mill as well as potential future employment opportunities in the area through an active community engagement and planning process.	DOS BOA	\$180,000
North Country	109407	Jefferson	Village of Brownville	Village of Brownville EPG round#4	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the Village of Brownville's wastewater collection system.	EFC EPG	\$30,000
North Country	108495	Jefferson	Village of Cape Vincent	Cape Vincent East End Park Improvements	The Village of Cape Vincent will design and construct improvements at East End Park along the St. Lawrence River. Improvements such as rehabilitation of the seawall, walkways, and docking will implement the Village's Local Waterfront Revitalization Program by enhancing public waterfront access and boater amenities and will complement the Village's Resiliency & Economic Development Initiative projects to mitigate flood damage at the park.	DOS LWRP	\$750,000
North Country	108890	Jefferson	Bay Brokerage Inc	International Trade Warehouse Extension	Bay Brokerage, located in Alexandria Bay, NY, will expand their facility to further advance commerce between NY and Canada. The new addition will help the company facilitate international cross dock shipments and pick and pack e-commerce solutions.	ESD Grants	\$300,000
North Country	108694	Jefferson	Renzi Foodservice	Renzi Foodservice Building Expansion Project	Renzi Foodservice, the largest family-owned and operated broadline foodservice distributor in Northern and Central New York, will expand its distribution facility located in Watertown, NY. This expansion will result in additional warehouse capacity to meet the growing demand and increase employment opportunities within the region.	ESD Grants	\$700,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
North Country	108536	Jefferson, Lewis	The Missing Link Snowmobile Club, Inc.	Acquisition of Trail Maintenance Equipment	The Missing Link Snowmobile Club will acquire trail grooming equipment to maintain and improve snowmobile trails in Lewis and Jefferson Counties.	OPRHP RTPD	\$230,325
North Country	110184	Lewis	Grand Slam Safety LLC	Grand Slam Safety - Acquisition of Machinery	Grand Slam Safety, LLC, manufacturer of high-quality sports netting for indoor and outdoor venues, will purchase new machinery and equipment and hire 5 new employees to improve its competitiveness.	ESD EJP	\$100,000
North Country	109375	St. Lawrence	City of Ogdensburg	East David Street Reconstruction PER	The City of Ogdensburg will use \$50,000 in NYS CDBG funds with \$3,000 in local match to complete a Preliminary Engineering Report for E. David Street. The objective of this PER is to evaluate the design alternatives & document the technical analyses as required to complete the environmental documentation & complete street reconstruction, including separation of critical stormsewers.	HCR CDBGCP	\$50,000
North Country	109180	St. Lawrence	City of Ogdensburg	Ogdensburg BOA Phase II Environmental Site Assessments	The City of Ogdensburg will conduct environmental site assessments on priority brownfield sites within the City's State-designated Downtown Waterfront Core Brownfield Opportunity Area (BOA). A large portion of the city's waterfront properties are contaminated brownfields from former industrial uses. The benefit of phase II environmental site assessments will be to identify the extent of contamination to help determine appropriate future uses for the sites.	DOS BOA	\$293,291
North Country	111004	St. Lawrence	Cranberry Lake Mountaineers Snowmobile Club, Inc.	Acquisition of Trail Maintenance Equipment	The Cranberry Lake Mountaineers Snowmobile Club will acquire trail grooming equipment to maintain and improve snowmobile trails in St. Lawrence County.	OPRHP RTPD	\$233,240
North Country	110009	St. Lawrence	Town of Canton	Shared Highway and Public Works Strategic Plan	The Town of Canton will complete architectural design and engineering plans for consolidating the operations of the town highway department and the village public works to improve efficiency and reduce long-term costs. The new co-located facility will relocate highway materials storage from a prime waterfront location in the Village of Canton.	DOS LGEP	\$25,000
North Country	111505	St. Lawrence	Town of Massena	Town of Massena Fishing Tournament Marketing Program	The Town of Massena will use the grant funds to provide and expand essential branding and marketing support for major fishing tournaments, as part of community's continuing efforts to make Massena the fishing capital of the Northeast and a worldwide tourist destination.	ESD MNY	\$191,070
North Country	109149	St. Lawrence	Village of Massena	JJ Newberry Building Renovation	The Village of Massena will assist in the renovation of the JJ Newberry Building in the Village's downtown.	HCR NYMS	\$500,000
North Country	108144	St. Lawrence	Village of Potsdam	Potsdam Public Museum Window Renovation Project	The Village of Potsdam will undertake the renovation of ten c. 1934 lancet style windows located in the Potsdam Public Museum, part of the Civic Center complex located at 2 Park Street. Potsdam will return the windows to their original condition and install exterior storm windows. Installation of new exterior storm windows will reduce air loss, interior condensation and frosting during the winter months.	OPRHP EPFHPD	\$127,500
North Country	108008	St. Lawrence	Atlantic Testing Laboratories Limited	Atlantic Testing Labs Facility Redevelopment	Atlantic Testing Laboratories will begin the phased renovations of their drilling and vehicle/equipment maintenance building located in downtown Canton, NY. They will reconfigure and secure the building envelope and make several exterior upgrades. The company also plans to purchase an additional drill rig as part of the project.	ESD Grants	\$390,000
North Country	109153	St. Lawrence	GoCo Massena LLC	JJ Newberry Building Renovations - Phase I	GoCo Massena, will redevelop a blighted building in downtown Massena, into a mixed-use site that includes residential, retail and office amenities. The building will be upgraded in three phases with Phase I addressing the main structural and environmental issues while eliminating and stopping decay.	ESD Grants	\$163,680
North Country	111036	St. Lawrence	SUNY Canton	Canton CREATE Entrepreneurship Center	SUNY Canton will redevelop second floor space at the Miller Campus to house the Canton Center for Research, Education, Access, and Training in Entrepreneurship: Canton CREATE. The Center will encourage entrepreneurship, innovation and retain talented graduates to start their businesses in the North Country. It will house the SUNY Canton Small Business Development Center; a makerspace; training/collaborative workspace for student and faculty entrepreneurs; and private offices for the incubation of selected ventures.	ESD Grants	\$1,100,750
Southern Tier	109978	Broome	City of Binghamton	First Ward Inflow and Infiltration Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the City of Binghamton's First Ward wastewater collection system.	EFC EPG	\$50,000
Southern Tier	109204	Broome	City of Binghamton	Ross Park Recreational Trail	The City of Binghamton will restore and enhance existing trails at Ross Park to improve the visitor experience. The improvements will increase accessibility, allowing visitors of all ages and abilities access to historic structures, the Carousel, Discovery Center and Zoo.	OPRHP RTPNM	\$250,000
Southern Tier	111344	Broome	LUMA Projection Arts LLC	The LUMA Interactive Architecture Experience Tourism Special Event	LUMA will use the grant funds to present a tourism event introducing a new level of interactive art and thereby increasing tourism to the area and to businesses in the surrounding region.	ESD MNY	\$157,219

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Southern Tier	107955	Broome	Research Foundation for SUNY	Incubator	Binghamton Incubator Program focuses on developing and delivering entrepreneurial and business skills through workshops, seminars, events and mentoring at two locations in the Greater Binghamton Area: The Start-Up Suite Pre-Incubator with office and wet lab space on the Binghamton University ITC campus in Vestal, and the Koffman Southern Tier Incubator with offices, dry- and wet-labs, high-bay and co-working spaces in downtown Binghamton.	ESD BIHS	\$625,000
Southern Tier	107631	Broome	Roberson Museum and Science Center	Museum and Carriage House Preservation Plan	Roberson Museum and Science Center located in Binghamton will hire a preservation architect to create a plan to restore key architectural features of the Roberson Mansion, perimeter fence, and Carriage House. The goal is to set forth a plan for the restoration of both buildings to their original state and prevent further deterioration.	OPRHP EPFHAPP	\$10,165
Southern Tier	109656	Broome	Town of Union	Town of Union Smart Growth Comprehensive Plan	The Town of Union will update their 2010 Comprehensive Plan. The plan will include environmental sustainability, smart growth principles, asset risk assessments, incorporating carbon reduction and abatement, energy efficiency, and alternative energy benefits. The plan will center on sustainability, citizen health, adaptability to climate change, and hazard preparedness and will identify policy and physical improvement actions.	DOS SG	\$100,000
Southern Tier	109541	Broome	Village of Endicott	Endicott Redevelopment Area BOA Nomination	The Village of Endicott intends to develop a BOA Nomination for a 429-acre area that includes the Washington Avenue downtown and surrounding manufacturing, commercial and residential areas. About 50% of the land area consists of known or suspected brownfields. Contamination and the decline of manufacturing has resulted in numerous vacant and underutilized properties. The BOA Nomination will result in a strategic plan to revitalize the area and improve infrastructure, environment, and economy.	DOS BOA	\$300,000
Southern Tier	107039	Broome	Buckingham	Buckingham Manufacturing 2021 Capital	Expansion of work force by creating new jobs for skilled and unskilled workers. Purchasing of new equipment to expand capabilities providing better customer deliveries and allow to expand market share competing with international companies	ESD Grants	\$48,000
Southern Tier	109937	Broome	United Health Services Hospitals, Inc.	UHS Improving Access to Childcare	United Health Services will renovate an existing facility in Broome County to provide an updated and compliant setting for childcare, creating additional high quality and convenient childcare slots for United Health Services employees and community members.	ESD Grants	\$991,616
Southern Tier	110775	Broome, Chemung, Chenango, Delaware, Schuyler, Steuben, Tioga, Tompkins	Cornell University	Southern Tier Startup Alliance	The Southern Tier Startup Alliance (STSA), an organization led by Cornell University, operates region-wide via a network of member incubators. Member incubators serve as focal points for entrepreneurial communities and locations where mentors can deliver services to startups.	ESD BIHS	\$1,250,000
Southern Tier	108034	Chemung	Chemung County	City of Elmira Local Waterfront Revitalization Program	Chemung County Planning Department will coordinate and oversee the completion of the City of Elmira Local Waterfront Revitalization Program. The LWRP will provide a shared vision, goals, and strategies for improving the City's Chemung River waterfront. The plan will identify opportunities to address waterfront connectivity, climate change resilience, and economic development.	DOS LWRP	\$85,000
Southern Tier	108828	Chemung	Town of Big Flats	Big Flats Municipal Water Service Development	The Town of Big Flats, Chemung County will use \$50, 000 in NYS CDBG funds to complete a Water Infrastructure Extension Study to currently unserved areas. The total project cost will be \$52, 250 with \$2, 500 from the Town of Big Flats. The project proposes to benefit an estimated 89 low-and moderate-income households.	HCR CDBGCP	\$50,000
Southern Tier	107905	Chemung	Town of Elmira	Town of Elmira Strategic Development Plan	The Town of Elmira will prepare a comprehensive land use plan and economic development strategy to guide its growth, sustainability and land use policies for the next 20 years. The town seeks to protect and enhance its residential, commercial, industrial, recreational and agricultural resources while creating opportunities for new types of resilient and equitable development	ESD SPFS	\$30,000
Southern Tier	111407	Chenango	Town of Sherburne	Comprehensive Plan Update	The town will update its 2004 comprehensive plan to include sustainability and resiliency elements in alignment with the related Climate Smart Communities certification action.	DEC CSC	\$30,000
Southern Tier	110706	Chenango, Delaware	TCA Vision 21, Inc. dba 4TownsForward	4TownsForward Feasibility Study	4TownsForwards, a collaboration between the communities of Sidney, Bainbridge, Afton, and Unadilla, will develop a plan to market the four communities to prospective businesses. The plan will identify properties well-suited for additional investment and marketing in order to benefit existing residential and business communities and entice new investment.	ESD SPFS	\$25,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Southern Tier	109304	Delaware	Delaware County IDA	Andel Greenhouse	The Delaware County IDA is expanding its Andes-based food hub to include a carbon neutral greenhouse, which will utilize 10 percent of the land and energy normally needed to grow the same amount of crop. The Delaware County IDA will construct the Andel Greenhouse: a 3,000 square foot greenhouse which will be operate 12 months of the year to supplement local and regional producers' growing seasons and abilities, growing fresh food that local farmers are unable to grow using geothermal and solar energy.	NYSERDA CNED	\$154,500
Southern Tier	111186	Delaware	DutchView Farm	DutchView Farm	This dairy farm located in Franklin, NY will be designed using the market learning from a 2018 Net Zero Energy for Economic Development program awardee, WoodBAYr Farm, to be carbon neutral and eliminate fossil fuel use on-site. The project includes a solar array, ground source heat pump, and robotic milking, cleaning, and feeding systems. The barn is a Brightspan Barn with energy efficient properties and utilizes a composting bedding pack system to reduce the carbon footprint of the operation.	NYSERDA CNED	\$2,000,000
Southern Tier	111538	Delaware	Finback FFARM	FFARM Adaptive Re-Use	Finback Brewery will use grant funds to re-develop a 320 acre farm into a brewery taproom, orchard and modern bed & breakfast. This agri-tourism destination will give visitors an immersive experience combining craft beverages and splendid nature.	ESD MNY	\$877,925
Southern Tier	107722	Delaware	M-ARK Project, Inc.	Roxbury Main Street	The M-ARK Project, Inc. will assist in the renovation of mixed-use properties in the Village of Roxbury's downtown.	HCR NYMS	\$490,000
Southern Tier	109953	Delaware	Village of Franklin	Franklin Village Water Tank Replacement	The Village of Franklin proposes to use \$791,500 of NYS CDBG funds with \$35,000 in Village funds to replace its aging reservoir in use since 1890 with a new aboveground glass-lined steel water tank located adjacent to the existing reservoir. The estimated project cost is \$826,500. The improvements will benefit 375 residents, 200 or 1.875 % of whom are low-and moderate income.	HCR CDBGPI	\$791,500
Southern Tier	108522	Delaware	Village of Sidney	Village of Sidney - Water Efficiency Project - New Water Meters	The Village of Sidney will use GIGP funds to install water meters equipped with Advanced Meter Reading technology. These new meters will encompass the entire Village, which is currently unmetred.	EFC GIGP E	\$480,000
Southern Tier	107735	Delaware	Village of Walton	July 2021 EPG Walton (V) I&I Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the Village of Walton's wastewater collection system.	EFC EPG	\$30,000
Southern Tier	109304	Delaware	Delaware County IDA	Andel Greenhouse Capital	The Delaware County IDA will expand the existing Andes food hub, "Catskills Harvest," to include an advanced geothermal and solar powered carbon-neutral greenhouse. The greenhouse will be used to teach about how to grow agriculture in a greenhouse model and act as a proof of concept for a modern form of sustainable advanced agriculture.	ESD Grants	\$82,800
Southern Tier	110858	Delaware	Delaware County IDA	Delhi Industrial Wastewater Pipeline Capital	The Delaware County IDA will replace an industrial wastewater pipeline in Delhi to support the operations of three of the County's largest manufacturing companies. The replacement of the pipeline will address environmental concerns and support continued growth of the companies it serves.	ESD Grants	\$430,000
Southern Tier	111538	Delaware	Finback FFARM	FFARM Adaptive Re-Use	Finback Brewery will re-develop a 320-acre farm in the Town of Walton into a brewery, taproom, orchard, and modern bed & breakfast. This project will create an immersive agritourism destination for visitors while complementing the natural beauty of the surrounding area.	ESD Grants	\$201,180
Southern Tier	107547	Schuyler	Town of Hector	Smith Park Building and Visitors Center	The Town of Hector will construct the Smith Memorial Park Building to serve as a control point for visitor check-ins, offices for the Park Manager and for maintenance operations. This project will advance the Town's Local Waterfront Revitalization Program and will be the first phase of five consecutive phases of park improvements. The proposed building will make the park more welcoming and sustain operations that ensure long-term access to Seneca Lake.	DOS LWRP	\$582,750
Southern Tier	107515	Schuyler	Village of Montour Falls	Village of Montour Falls Local Waterfront Revitalization Program	The Village of Montour Falls will develop a Local Waterfront Revitalization Program (LWRP) for the Erie Canal waterfront and downtown Montour Falls. The Village will partner with the Schuyler County Planning Department, the Town of Montour, SCOPED, and Project Seneca. The goal of the LWRP is to guide future development and guide enhancements or redevelopment of properties along the Erie Canal and the Village downtown.	DOS LWRP	\$78,562
Southern Tier	110959	Schuyler	Village of Watkins Glen	Project Seneca - Clute Park Redevelopment Phase III	The Village of Watkins Glen will design and construct improvements at Clute Park including waterfront walking pathways, a basketball court, and ADA compliant playground equipment to diversify and enhance recreational spaces for the enjoyment of all residents and visitors. This project advances the Village's Local Waterfront Revitalization Program by improving public access and inclusive recreational amenities along the Seneca Lake waterfront and is the third phase of planned park renovations.	DOS LWRP	\$375,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Southern Tier	110193	Schuyler	Village of Watkins Glen	Water System Improvements: Part 2, Phase 1	The Village of Watkins Glen will use \$1,250,000 in NYS CDBG funds to make improvements to its Water Treatment Plant. The total estimated project cost is \$4,500,000 with \$3,250,000 financed through DWSRF. The improvements will benefit 2,079 persons of which 1,064 or 51% of whom are low-and moderate-income persons.	HCR CDBGPI	\$1,250,000
Southern Tier	107474	Steuben	City of Corning	City of Corning Comprehensive Plan Update	The City of Corning will update its 2002 Comprehensive Plan to develop goals and a comprehensive strategy for the best and most efficient use of local resources, propose future projects, and guide development. The updated Comprehensive Plan will promote smart growth, sustainability, and clean energy principles. This plan will serve as a guide for the next 20 years and reflect current conditions.	DOS SG	\$80,000
Southern Tier	108399	Steuben	City of Corning	Nasser Civic Center Plaza Ice Rink	The City of Corning will complete Phase III of the Civic Center Plaza Ice Rink Capital Improvement Project. The work will renovate existing restroom facilities to make them ADA-compliant, make accessibility improvements to handrails, entranceways, and complete selective paver replacement to remove trip hazards.	OPRHP EPFPKSD	\$337,500
Southern Tier	111717	Steuben	City of Hornell	Hornell Veterans Memorial Park	The City of Hornell will make improvements at Veterans Memorial Park located on Park Drive. Improvements include resurfacing tennis courts, replacing a handball court with basketball court, install a spray ground, install energy-efficient lighting, add a family locker room, and make parking and roof improvements. These changes will make the park safer and more accessible to people of all ages as well as reduce significant maintenance costs.	OPRHP EPFPKSD	\$427,500
Southern Tier	108404	Steuben	Corning's Gaffer District	Corning's Northside Revitalization	Corning's Gaffer District will assist in the renovation of mixed-use properties in the City of Corning's downtown.	HCR NYMS	\$300,000
Southern Tier	108931	Steuben	Town of Canisteo	Highway Department Shared Services Study	The Town of Canisteo will create a plan for a single modernized shared highway program. The analysis will include the review of municipal characteristics; highway department roles, responsibilities, equipment, and needs; and, existing facilities and required improvements.	DOS LGEP	\$15,000
Southern Tier	109547	Steuben	Town of Urbana	Keuka Lake Waterfront Access Improvements Phase 2: Curtiss Park	The Town of Urbana will complete design and construction of Curtiss Park improvements including new plantings and landscaping, new pedestrian walkways and access improvements, new stormwater and lighting improvements, and the construction of a bird-watching observation tower. The completion of this project will enhance the Town's waterfront access, tourism, and recreational opportunities in the area as the project connects the Park and the Village of Hammondsport.	DOS LWRP	\$945,691
Southern Tier	108461	Steuben	Town of Wayland	Loon Lake Proposed Sewer System Evaluation	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate the feasibility of constructing a new central wastewater collection system to serve the Loon Lake area of the Town of Wayland. The engineering report will evaluate both collection and treatment alternatives and make a recommendation to the Town.	EFC EPG	\$30,000
Southern Tier	108816	Steuben	Village of Bath	Bath Liberty Street Historic District	The Village will use funds for feasibility analysis and re-use options for several key properties in the Village of Bath's Liberty Street Historic District.	HCR NYMS	\$20,000
Southern Tier	108464	Steuben	Village of Bath	Village of Bath Comprehensive Housing Needs	The Village of Bath, Steuben County will use \$50,000 in NYS CDBG funds to complete a Comprehensive Housing Needs Assessment. The total project cost will be \$52,500 with \$2,500 from the Village of Bath. The project proposes to benefit 3,065 low-and moderate-income persons.	HCR CDBGCP	\$50,000
Southern Tier	107114	Tioga	Tioga County	Tioga County Shared Technology Services	Tioga County will expand countywide IT services to include the Village of Owego and the Town of Barton.	DOS LGE	\$103,522
Southern Tier	107855	Tioga	Village of Owego	Owego Police Station Historic Preservation Project	The Village of Owego will restore and repair the historic Owego Police Station (built circa 1900) located on Temple Street in the Owego Central Historic District to improve the functionality of the building while maintaining its historic features and character.	OPRHP EPFHPD	\$468,416
Southern Tier	107440	Tioga	Village of Waverly	Village of Waverly Economic Market Analysis	The Village of Waverly will work with a qualified consultant to conduct an economic/downtown market analysis to quantify local market forces and identify suitable economic growth sectors, including niche and diversified industrial and commercial sectors to attract to the area. The study will ultimately be used to guide decisions that will increase job opportunities for Waverly residents, continue downtown revitalization efforts and spark private investment in the Village.	ESD SPFS	\$25,000
Southern Tier	108671	Tompkins	City of Ithaca	Ithaca Farmers Market Site and Access Improvements	The City of Ithaca will design and construct improvements to the Farmers Market site. This is a phased project, which will advance the Cayuga Lake Waterfront Plan. The City, in partnership with the Ithaca Farmers Market, will design future waterfront improvements and site lighting. The project will also construct vehicular and pedestrian access to enhance access and connectivity throughout the site creating a vibrant community destination along the Cayuga Lake Inlet.	DOS LWRP	\$3,230,053

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Southern Tier	110131	Tompkins	Friends of Stewart Park	Stewart Park Splash Pad	Friends of Stewart Park, Inc., in cooperation with the City of Ithaca, will construct a new, universally accessible splash pad and restroom facility in Stewart Park as the final phase of the playground improvements in the park, located on the southern shore of Cayuga Lake. The new recreation facility will be designed with its Finger Lakes waterfront location in mind and will feature interpretive elements highlighting park history and the Finger Lakes geology and environment.	OPRHP EPFPKSD	\$500,000
Southern Tier	110577	Tompkins	Opera Ithaca	Opera Ithaca Festival Tourism Special Event	The Opera Ithaca Festival will use the grant funds to offer a unique, month-long series of special multi-sensory events, including a landmark double bill of Missy Mazzoli's Proving Up and William Grant Still's Highway 1 USA. The Festival invites the audience to immerse themselves in the richness of the Southern Tier's myriad cultural assets and destinations.	ESD MNY	\$95,000
Southern Tier	107570	Tompkins	Town of Dryden	Dryden CDBG 2	The Town of Dryden will use \$1.25 million in CDBG funding to make improvements to its consolidated sewer district in the Hamlet of Varna. The project will rehabilitate aging infrastructure, reduce infiltration and inflow into the system, as well as increase capacity in the region.	HCR CDBGPI	\$1,250,000
Southern Tier	107164	Tompkins	Town of Ithaca	Ithaca Reservoir Stream Restoration and Sediment Reduction Project	The Town of Ithaca will complete an engineering and design report to restore segments along an unnamed tributary flowing directly into Ithaca's drinking water reservoir. Projected climate change impacts will be considered to provide long-term resiliency. The project will reduce nutrients entering Cayuga Lake.	DEC NPS	\$30,000
Southern Tier	109659	Tompkins	Town of Lansing	Myers Park Waterfront Revitalization Project	The Town of Lansing will make improvements to Myers Park. The improvements will enhance the existing public space by constructing a unisex ADA- and family-accessible restroom facility, add an ADA-compliant kayak launch, upgrade playing courts, upgrade the boat launch, upgrade the septic system to reduce runoff, and make improvements to parking and campsites. The park's infrastructure upgrades will assist supporting the Cayuga Lake Blueway Trail and Cayuga Lake Scenic Byway.	OPRHP EPFPKSD	\$750,000
Southern Tier	110580	Tompkins	Village of Groton	Village of Groton Comprehensive Plan	The Village of Groton will update their 2005 Comprehensive Plan. The plan will look at Climate Act goals, environmental sustainability, smart growth principles, asset risk assessments, carbon reduction and abatement, energy efficiency, and alternative energy benefits. The Plan will look for actions that the Village can take to mitigate the impacts of climate change, protect natural resources, reduce their carbon footprint, and prepare the community for future extreme weather events.	DOS SG	\$50,000
Western New York	109901	Allegany	Allegany County Soil and Water Conservation District	Caneadea Creek Stabilization Plan in Allegany County	Allegany County Soil and Water Conservation District will complete a survey and engineering design to reduce streambank erosion on Caneadea Creek in the Town of Rushford.	DEC NPS	\$30,000
Western New York	111574	Allegany	Allegany County Soil and Water Conservation District	Council House Road Stabilization Plan in Allegany County	The Allegany County Soil and Water Conservation District will complete a survey and engineering design to reduce streambank erosion of sediment into the Genesee River in the Town of Caneadea.	DEC NPS	\$30,000
Western New York	110983	Allegany	Allegany County Soil and Water Conservation District	Dyke Creek Stabilization Plan in Allegany County	Allegany County Soil and Water Conservation District will complete a survey and engineering design to stabilize streambanks on Dyke Creek in the Village of Andover to reduce erosion of sediment into the creek.	DEC NPS	\$30,000
Western New York	107970	Allegany	Town of Friendship	Comprehensive Sanitary Sewer Assessment	The Engineering Planning Grant (EPG) program will fund the development of an engineering report evaluate upgrade alternatives and recommend improvements to the Town of Friendship's wastewater treatment and collection system.	EFC EPG	\$30,000
Western New York	109767	Allegany	Village of Alfred	Collection System Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the Village of Alfred's wastewater collection system.	EFC EPG	\$30,000
Western New York	110172	Allegany	Village of Andover	Drinking Water Improvement Project	The Village of Andover will use \$1,250,000 in NYS CDBG funds to improve its existing water system. The total estimated project cost is \$6,571,000 with a \$3,000,000 from DWSRF. The improvements will benefit 598 persons of which 317 or 53% of whom are low-and moderate-income persons.	HCR CDBGPI	\$1,250,000
Western New York	109766	Allegany	Village of Bolivar	Collection System Study Phase 3	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the Village of Bolivar's wastewater collection system.	EFC EPG	\$100,000
Western New York	109348	Allegany	Village of Bolivar	Wastewater System UV Disinfection Collection Improvements	The Village of Bolivar's Wastewater Treatment Plant (WWTP) is overwhelmed due to infiltration and inflow issues due to many pipes where groundwater enters the sewer of the collection system being broken or cracked and, violates solids discharge permits. The Village will use \$1,250,000 in NYS CDBG funding to complete spot repairs and slip lining on collection system piping to reduce inflow and infiltration and, install an UV disinfection system to comply with SPDES Permit limits. This project will benefit the Village's population of 663 persons of whom 59.57%, or 395 persons, are low-to-moderate income.	HCR CDBGPI	\$1,250,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Western New York	107485	Allegany	Village of Cuba	I-I Reduction and Wet-Weather Management PER	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration and evaluate upgrades to the wastewater treatment plant. The engineering report will evaluate alternatives and recommend improvements to the Village of Cuba's wastewater collection and treatment system.	EFC EPG	\$30,000
Western New York	111025	Cattaraugus	Cattaraugus County EDTP	Onoville Marina Park	Cattaraugus County Department of Economic Development, Planning and Tourism will use the grant funds to redevelop the Onoville Marina Park into a tourist destination and to expand the facilities to be able to welcome more visitors to the Western NY region.	ESD MNY	\$520,000
Western New York	108015	Cattaraugus	City of Olean	City of Olean Comprehensive Development Plan	The City of Olean will develop a Comprehensive Development Plan (CDP) that will provide a blueprint for the development, preservation and enhancement of residential, commercial and industrial neighborhoods as well as public facilities, infrastructure and greenspace. The Comprehensive Development plan will incorporate visions, ideas, and foresight and provide recommendations and an implementation plan to execute Smart Growth principles and projects.	DOS SG	\$40,000
Western New York	108015	Cattaraugus	City of Olean	City of Olean Comprehensive Development Plan	The City of Olean will create and adopt a new 20-year master plan that will provide a blueprint for the development, preservation, and enhancement of residential, commercial, and industrial neighborhoods as well as public facilities, infrastructure, and greenspace. The plan will seek to enhance and expand opportunities for the community and serve as a catalyst for improving overall quality of life.	ESD SPFS	\$50,000
Western New York	107784	Cattaraugus	City of Salamanca	Salamanca Inflow and Infiltration Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the City of Salamanca's wastewater collection system.	EFC EPG	\$30,000
Western New York	107487	Cattaraugus	Village of Ellicottville	Inflow and Infiltration Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the Village of Ellicottville's wastewater collection system.	EFC EPG	\$30,000
Western New York	109456	Cattaraugus	Village of Franklinville	Water System Improvements	The Village of Franklinville will use \$1.25 million in NYS CDBG funds to make critical improvements to its water system infrastructure by replacing lead components, addressing pressure and fire flow deficiencies, reduce water loss and increase operational facility.	HCR CDBGPI	\$1,250,000
Western New York	111086	Cattaraugus	Village of Little Valley	Comprehensive Plan	The village will develop and adopt a comprehensive plan with sustainability elements to guide climate-focused investment and development within the community.	DEC CSC	\$20,000
Western New York	108790	Cattaraugus	Western New York Land Conservancy, Inc.	Allegany Wildlands	The Western New York Land Conservancy, Inc. will acquire the Allegany Wildlands. The property is in the Town of South Valley, Cattaraugus County and contains a diverse population of plants and animals. The acquisition ensures the property remains protected and will be accessible to the public.	OPRHP EPPKSA	\$347,004
Western New York	108057	Cattaraugus, Chautauqua, Erie	Buffalo Society of Natural Sciences	Antarctic Dinosaurs Tourism Special Event	The Buffalo Museum of Science will use the grant fund to host the special exhibit Antarctic Dinosaurs. This new exhibit will immerse guests in exploration of one of the most isolated and dangerous environments on Earth, and increase tourism to the area and overall region.	ESD MNY	\$161,000
Western New York	107652	Chautauqua	Chautauqua County	Chautauqua County Consolidated Code Enforcement Plan	Chautauqua County will explore specific actions necessary to implement consolidation, shared services, and efficiencies associated with zoning and building code administration and enforcement across Chautauqua County's 42 municipalities.	DOS LGEP	\$32,500
Western New York	110724	Chautauqua	Chautauqua Home Rehabilitation and Improvement Corporation	Village of Westfield Technical Assistance	Chautauqua Home Rehabilitation and Improvement Corporation will use funds to develop design and construction specifications for key properties in the Village of Westfield's downtown.	HCR NYMS	\$19,000
Western New York	107408	Chautauqua	City of Jamestown	Chadakoin River Basin Activation Enhancements	The City of Jamestown will advance the City's Local Waterfront Revitalization Program by designing and constructing enhancements along the Chadakoin River to increase public access to the water and spur economic activity in downtown Jamestown. Enhancements will include a signature garden, mural, tiered seating space, placemaking items, a kayak launch, dock, and welcome center for visitors. To improve navigation for boaters, obstacles will be removed and navigation aids will be installed.	DOS LWRP	\$1,280,661
Western New York	109436	Chautauqua	City of Jamestown	City of Jamestown Comprehensive Plan	The City of Jamestown's new comprehensive plan will be guided by smart growth principles. The new plan will address community and economic development, housing, health and well-being, equity and inclusion, and energy and the environment. The plan will provide a roadmap to creating policies fostering the creation and enhancement of community assets, and cultivating viable economic, social, wellness, and professional pathways for its residents, workers, and visitors.	DOS SG	\$99,000
Western New York	108902	Chautauqua	County of Chautauqua, North Chautauqua Lake Sewer District	North Chautauqua Lake Inflow and Infiltration Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration in the North Chautauqua Lake Sewer District, evaluate alternatives, and recommend improvements to Chautauqua County's wastewater collection system.	EFC EPG	\$30,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Western New York	107484	Chautauqua	County of Chautauqua, Portland Pomfret Dunkirk Sewer District	Inflow and Infiltration Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration and evaluate upgrades to several pump stations within the Portland Pomfret Sewer District. The engineering report will evaluate alternatives and recommend improvements to Chautauqua County's wastewater collection system.	EFC EPG	\$30,000
Western New York	111070	Chautauqua	Town of Mina	New Sewer District	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to evaluate the feasibility of constructing a new central wastewater collection system to serve the Findley Lake area in the Town of Mina. The engineering report will evaluate both collection and treatment alternatives and make a recommendation to the Town.	EFC EPG	\$30,000
Western New York	110418	Chautauqua	Town of Pomfret	Town of Pomfret GIGP Water Meters	The Town of Pomfret will use GIGP funds to install water meters with Advanced Metering Infrastructure. This project will increase water conservation by collecting more frequent and accurate readings.	EFC GIGP E	\$135,000
Western New York	109981	Chautauqua	Town of Ripley	Phase 2 Collection System Study	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the Town of Ripley's wastewater collection system.	EFC EPG	\$30,000
Western New York	109799	Chautauqua	Town of Ripley	Town of Ripley Comprehensive Plan	The Town of Ripley will develop a new comprehensive plan which will opportunities on which to capitalize and assets to leverage. The Plan will include improving conditions on Main Street in the Hamlet of Ripley, addressing housing needs and challenges, improving walkability and bikeability within the Hamlet's center, and improving and enhancing Town parks and recreation. The comprehensive plan will identify priority areas and recommend projects that will help advance the future of Ripley.	DOS SG	\$58,500
Western New York	110713	Chautauqua	Village of Lakewood	Hartley Park Improvements	The Village of Lakewood, in partnership with the Lakewood Community Development Corporation, will complete design and construction of improvements and equipment upgrades at the Richard Hartley Park located along the south shore of Chautauqua Lake. Improvements include addressing outdated infrastructure at the park and installing rain gardens, shade trees, landscaping with erosion control measures, and other amenities to provide an enhanced outdoor space for families to recreate.	DOS LWRP	\$456,200
Western New York	107989	Chautauqua	Village of Westfield	2021 Village of Westfield II EPG	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration and evaluate upgrades to the wastewater treatment plant. The engineering report will evaluate alternatives and recommend improvements to the Village of Westfield's wastewater collection and treatment system.	EFC EPG	\$30,000
Western New York	106895	Chautauqua	Jamestown Center City Development Corporation	TheZone	TheZone will create a new indoor activities venue for children in downtown Jamestown. It will utilize underused space in Northwest Arena to create a new center focused on technology and play, encouraging kids to explore STEAM principles through physical activity. The center will expand visitation to Jamestown's downtown and its nearby amenities, diversifying available programming and leveraging existing outdoor recreational amenities.	ESD Grants	\$450,000
Western New York	109739	Erie	Barcalo Buffalo LLC	Barcalo Manufacturing Plant Green Infrastructure	Barcalo Buffalo will use GIGP funds to install bioretention, stormwater street trees, a green roof, as well as a harvest and reuse system to improve the water quality in the City of Buffalo.	EFC GIGP S	\$530,000
Western New York	108515	Erie	Buffalo Olmsted Parks Conservancy	200th Anniversary Marketing Campaign	Funds will be used to implement a marketing campaign by the Buffalo Olmsted Parks Conservancy to increase tourism associated with the 200th birthday celebration of Frederick Law Olmsted.	ESD MNY	\$92,901
Western New York	108161	Erie	Buffalo Sewer Authority	Bird Island Treatment Facility Steam and Boiler System Energy Project	The Buffalo Sewer Authority will use GIGP funds to increase energy efficiency and reduce the use of natural gas at the Bird Island Treatment Facility. This project will provide energy and cost savings to the City of Buffalo.	EFC GIGP E	\$2,925,000
Western New York	110649	Erie	Buffalo Urban Development Corporation	Waterfront - Strategic Development and Placemaking Plan	BUDC's Waterfront Development and Placemaking Strategy will provide a comprehensive streetscape plan to ensure a common vision along the inner harbor Buffalo's waterfront. It will ensure that public spaces and multi-modal transportation connections between existing and upcoming waterfront development projects and improve the connection between downtown and the Ralph C. Wilson, Jr. Centennial Park.	ESD SPFS	\$75,000
Western New York	111618	Erie	City of Lackawanna	City of Lackawanna Local Waterfront Revitalization Program Update Completion	The City of Lackawanna will complete an update of its Local Waterfront Revitalization Program (LWRP) for its Lake Erie waterfront. The update will include strategies and projects that address resiliency and climate adaptation to the 2018 draft LWRP. The program will enhance waterfront access, advance redevelopment of brownfield and underutilized sites, and encourage restoration of natural creek corridors.	DOS LWRP UCR	\$50,000
Western New York	109285	Erie	Erie County	Heat Emergency Plan	The county will develop a heat emergency plan, including a local heat vulnerability assessment, to address the increasing frequency and severity of extreme heat situations.	DEC CSC	\$100,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Western New York	109109	Erie	Erie County	Isle View Park Enhancements	Erie County will design and construct improvements to Isle View Park along the Niagara River in the City and Town of Tonawanda. Improvements will enhance public access to the Niagara River waterfront, greatly improve the visitor experience, create a new connection from major employment centers to the waterfront, while spurring economic development at adjacent brownfield sites. Local match funds will be supplemented by the Ralph J. Wilson Foundation and Niagara River Greenway Commission.	DOS LWRP	\$425,000
Western New York	109131	Erie	Erie County	Plate to Field - Enacting Municipal Organics Management Programs	The Plate to Field Project will provide structure, training, technical assistance, and education and outreach to assist five participating municipalities in Erie County with new or expanded food waste collection services including residential food waste drop-off locations. This program builds on the county's successful food waste diversion programs for county facilities and expands the use of the Alden Correctional Compost Facility where all collected waste will be composted. The five participating municipalities will also develop organic waste management plans to further improve the management of organic waste at the local level and reduce the emission of methane, a powerful greenhouse gas.	DEC CSC	\$502,438
Western New York	109136	Erie	Erie County	Seneca Bluffs Natural Habitat Park Green Infrastructure Parking Lot	Erie County will use GIGP funds to install bioretention, stormwater street trees and porous pavement at the Seneca Bluffs Natural Habitat Park. The green infrastructure practices will help improve the water quality in the City of Buffalo.	EFC GIGP S	\$1,305,000
Western New York	110884	Erie	People United for Sustainable Housing	Sustainability Workforce Training Center	PUSH Buffalo will build the Sustainability Workforce Training Center (SWTC) on Buffalo's west side, creating a new green economy workforce to support the transition to carbon neutrality by mid-century. The SWTC will be a net-zero facility with classrooms, offices, and meeting space that demonstrate sustainable technologies and construction methods, catalyzing PUSH's established workforce development program in the rapidly growing clean energy and green construction trades. This will be the region's first green jobs training facility with flexibility to expand as the field develops.	NYSERDA CNED	\$137,817
Western New York	111312	Erie	Preservation Buffalo Niagara	Quirk House Project	Preservation Buffalo Niagara will restore the historic 1847 Eliza Quirk House in downtown Buffalo. The goal is to rehabilitate and preserve the historic characteristics of the building.	OPRHP EPFHAPD	\$500,000
Western New York	109028	Erie	The Committee for the Buffalo Religious Arts Center	Roof Restoration	The Buffalo Religious Arts Center will restore the clay tile roof on its main building. The restoration will protect the building and historic art collection of stained-glass windows, statuary, murals, oil and watercolor paintings, original architectural drawings, and renderings housed within.	OPRHP EPFHAPD	\$392,217
Western New York	110077	Erie	Town of Amherst	North Amherst Fire Station Waterfront Park Improvements	The Town of Amherst will design and construct a waterfront park along Erie Canal, on the grounds of the North Amherst Fire Station. The waterfront park will include parking, amenities, and playground areas that are designed with elements to control and filter runoff. The park will also contain a floating dock and a kayak launch connected by walkways to the rest of the park and access to Tonawanda Creek. This project will implement the draft Amherst Local Waterfront Revitalization Program.	DOS LWRP	\$603,772
Western New York	109323	Erie	Town of Amherst	Town of Amherst MS4 Mapping Phase 1	The Town of Amherst will map their stormwater conveyance system in four phases, starting with Eggertsville. The project includes field investigation, comparison of current information with record drawings, updates to mapping as required, and conversion of record drawings to GIS mapping.	DEC NPS	\$67,500
Western New York	108298	Erie	Town of Amherst	Organics Management Plan	The town will develop an organics management plan to evaluate strategies for food waste prevention and recovery as well as assess the feasibility of expanding a pilot food scrap recycling initiative for residents that was created in response to the NYS Food Donation and Food Scraps Recycling Act.	DEC CSC	\$30,000
Western New York	109965	Erie	Town of Boston	Town of Boston Comprehensive Plan Update	The Town of Boston will update its 2001 Comprehensive Plan. The Plan will include an inventory and assessment of the community, mapping, socioeconomics, demographics, trends and its history. A coordinated vision will be developed along with recommendations, actions, and key projects that incorporated smart growth principles to implement their vision in the future.	DOS SG	\$63,000
Western New York	108281	Erie	Town of Eden	Cultivate Eden NY Main Street Program	The Town of Eden will assist in the renovation of mixed-use properties in the Town's downtown.	HCR NYMS	\$500,000
Western New York	108324	Erie	Town of Evans	Sturgeon Point Area Master Plan and Revitalization Study	The Town of Evans will develop a Master Plan and Revitalization Study for the revival of the Town's Sturgeon Point Marina and adjacent 66-acres of land. The project will identify marina infrastructure and operations improvements that will increase revenue. The project will also identify development opportunities to complement existing water-dependent uses and connect the Marina with the downtown. The project implements the Town's Local Waterfront Revitalization Program.	DOS LWRP	\$131,250

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Western New York	108273	Erie	Town of Hamburg	Hamburg Woodlawn Gateway BOA Nomination	The Town of Hamburg intends to develop a BOA Nomination for a 450-acre residential and commercial area adjacent to the former Bethlehem Steel facility and surrounded by underutilized and vacant sites, an inaccessible waterfront, and industrial uses. The development of the BOA Nomination will initiate the revitalization of the Hamburg Woodlawn Gateway to Buffalo, which will include economic development, waterfront redevelopment, multimodal connectivity, and brownfield remediation.	DOS BOA	\$148,500
Western New York	109186	Erie	Trinity Episcopal Church	Stained Glass Window Conservation	The Trinity Episcopal Church in Buffalo will conserve and restore the stained-glass windows. The work will prevent further deterioration and extend the life of the stained-glass windows to ensure that the Church remains viable as a community centerpiece and a heritage destination.	OPRHP EPFHPD	\$500,000
Western New York	107214	Erie	University at Buffalo	WIN	Western New York Incubator Network (WIN) is a consortium of business incubators in the WNY region to help entrepreneurs grow. WIN is operated by the University at Buffalo and their program offerings include: Pitch Prep, Embedded Consultants, Outreach and Student Entrepreneurship.	ESD BIHS	\$1,250,000
Western New York	107286	Erie	Village of Depew	Sewer improvements Phase 8	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration within Sewershed No. 2, evaluate alternatives, and recommend improvements to the Village of Depew's wastewater collection system.	EFC EPG	\$100,000
Western New York	111048	Erie	Visit Buffalo Niagara	Upstate Eats Trail Tourism Marketing Initiative	Visit Buffalo Niagara, Visit Rochester, Visit Syracuse and Visit Binghamton will be using the grant funds to collaborated on the creation of the Upstate Eats Trail, a digital guide that curates a 225-mile journey between the four cities that includes 20 signature stops, five in each city and promoting the Trail to the traveling public.	ESD MNY	\$60,000
Western New York	107278	Erie	780 Ellicott Street, LLC	Child Care Center - East Side/Buffalo-Niagara Medical Campus	780 Ellicott Street, LLC. will renovate 10,000 SF of former light industrial space where it will establish a new non-profit childcare center. The project will provide childcare for up to 135 children adjacent to public transit, the Buffalo Niagara Medical Campus (BNMC) and the Fruit Belt Neighborhood on the East Side of Buffalo. Partnerships with Erie County Department of Social Services will ensure the childcare is affordable for the neighboring community and lower-wage workers on the BNMC.	ESD Grants	\$120,000
Western New York	109211	Erie	Buffalo Studios	Buffalo Studios	Buffalo Studios will create a Hollywood-quality movie studio lot in South Buffalo that will include facilities to support the film, television, and gaming industries. The development will allow for production of feature films and television series at the facility alongside post-production, animation, gaming and industry tech development. In addition, Buffalo Studios will establish a partnership with the University at Buffalo to establish a satellite campus on site for education and training opportunities to university students and residents from Buffalo/WNY. The project will also include the construction of an on-site childcare facility.	ESD Grants	\$2,000,000
Western New York	111338	Niagara	Cascades Containerboard Packaging Niagara Falls	Cascades Niagara Falls Biogas Upgrade Project	Cascades Niagara Falls will install upgrades to an existing biodigester system to optimize purification in order to use biogas in production. This biogas will displace current natural gas consumption, resulting in reduced fossil fuel emissions.	NYSERDA CICC	\$2,140,825
Western New York	110460	Niagara	City of Lockport	Lockport Lowertown Loop Phase I	The City of Lockport will focus work on the trail that loops the neighborhoods on either side of the canal and re-open the comfort station, as the Lowertown Loop Phase I project. Currently, the Adam Street Lift Bridge is locked in an up position and closed to pedestrians. The ultimate goal is to renovate the bridge for pedestrian use with pedestrian friendly amenities. This trail project and the eventual reopening of the bridge will connect neighborhoods on either side of the canal currently dividing neighborhoods, and will allow for residents and tourists to enjoy the rare, historical lift bridge from the upper deck.	Canals	\$150,000
Western New York	108647	Niagara	City of North Tonawanda	Tonawanda Island Infrastructure Analysis	The City of North Tonawanda will undertake a development feasibility study including an infrastructure analysis of Tonawanda Island within the State-designated North Tonawanda BOA. The analysis of existing sanitary and water systems will assess the current condition and capacity of utility assets and provide an estimate of useful life and recommendations for rehabilitation and/or replacement. Thereby, allowing a revised vision for the island and leading to waterfront revitalization.	DOS BOA	\$92,700
Western New York	109929	Niagara	Destination Niagara USA	Meetings Mean Business in Niagara Falls USA Meeting Planner Tourism Marketing	The grantee will use funds to develop and implement, Meetings Means Business for Niagara Falls USA a niche marketing campaign targeting meeting planners in Washington D.C. and Chicago, IL to increase visibility and knowledge of the venues available along with the multitude of activities and culinary experiences their delegates can have throughout Niagara County and the Western NY region.	ESD MNY	\$150,000
Western New York	103382	Niagara	Enterprise Lumber Silo LLC	211 Main Street North Tonawanda	The Enterprise Lumber & Silo Redevelopment Project will restore and repurpose a vacant masonry and heavy timber-framed building in the City of North Tonawanda, New York to achieve carbon neutral performance. The building will serve as an incubator for entrepreneurial architecture, landscape architecture, and engineering firms. When completed, the new building and the site will serve as a catalyst for further redevelopment of the downtown, and as a model for carbon neutral construction methods.	NYSERDA CNED	\$300,000

Region	CFA #	County	Applicant	Project Title	Description	Agency / Program	Award
Western New York	107280	Niagara	Niagara County	Niagara County Meat Processing Facility Market and Economic Analysis	Niagara County seeks to grow the agriculture industry through increasing the number of meat processing facilities to serve the animal farmers in the region. The market and economic analysis will understand the demand for and identify suitable locations for new facilities which will result in creation of new jobs and economic investment, lower operating costs for farmers, and strengthening our local food system.	ESD SPFS	\$50,000
Western New York	111586	Niagara	Niagara Falls Water Board	LaSalle Sanitary Sewer Area Study Phase 2	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration within the LaSalle area, evaluate alternatives, and recommend improvements to the Niagara Falls Water Board wastewater collection system.	EFC EPG	\$100,000
Western New York	106786	Niagara	Old Fort Niagara Association, Inc.	Old French Castle Restoration	The Old Fort Niagara Association is applying for support to restore deteriorating masonry and provide a new roof for the 1726 French Castle at Old Fort Niagara. In recent years, the Castle has experienced missing mortar, falling stones and serious roof leaks that endanger the building.	OPRHP EPFHPD	\$435,000
Western New York	111108	Niagara	Town of Lewiston	EPG Phase 2 Sewer System Investigation	The Engineering Planning Grant (EPG) program will fund the development of an engineering report to identify sources of inflow and infiltration, evaluate alternatives, and recommend improvements to the Town of Lewiston's wastewater collection system.	EFC EPG	\$30,000
Western New York	107741	Niagara	Town of Lockport	Rail Trail: Phase 2	The Town of Lockport will convert a segment of an abandoned rail bed into a multi-use trail. This second phase of the rail trail will connect with the Erie Canalway Trail and include pavement striping, control gates, signage, and detectable ADA warning surfaces. These improvements will provide greater safety and enhance recreational access in the region for residents and visitors.	OPRHP RTPNM	\$168,591
Western New York	109815	Niagara	Town of Newfane	Newfane Wastewater Treatment Plant Improvements	The Town of Newfane will use \$1 million in NYS CDBG funds to make needed improvements at the Newfane Wastewater Treatment Plant, which will help bring the plant up to modern standard and increase reliability and efficiency.	HCR CDBGPI	\$1,000,000
Western New York	108091	Niagara	Town of Pendleton	Pendleton Park Community and Inclusivity Improvement Project	The Town of Pendleton will construct a new four-season community center, a splash pad facility and ADA-accessible restroom and changing room, upgrade parking areas and install ADA-compliant access paths at Pendleton Town Park. The work will improve accessibility to the park and its amenities for residents and visitors.	OPRHP EPFKSD	\$500,000
Western New York	108330	Niagara	Town of Porter	Porter on the Lake Park Improvements, Phase I	The Town of Porter will implement their Local Waterfront Revitalization Program by completing improvements at the Porter on the Lake Park. Improvements will consist of construction of natural trails and a small pedestrian bridge, installation of exercise stations and park furniture, improved roadway shoulder and crosswalk along Dietz Road, enhancements to the kayak launch area, and wayfinding signage.	DOS LWRP	\$104,000
Western New York	107365	Niagara	Village of Barker	Joint Village Hall and Library	The Village of Barker and the Barker Public Library will construct a new shared use facility. This community facility will help provide critical community services not currently offered due to space limitations.	DOS LGE	\$400,000
Western New York	107548	Niagara	Village of Middleport	Middleport Canal Dock Improvements	The Village of Middleport will enhance twelve (12) boater dock facilities located along the Erie Canal. Improvements will include upgraded electrical service, potable water service, pedestal connection boxes, and improved amenities in the adjacent picnic area along the south side of the Erie Canal. This project will implement the Village's Local Waterfront Revitalization Program by enhancing boater amenities for visitors and residents at the dock spaces and picnic facilities.	DOS LWRP	\$123,200
Western New York	110621	Niagara	Village of Wilson	VOW WWTP Decommission Demolition	The Village of Wilson will use \$750,000 in NYS CDBG funds to decommission and demolish the Wilson Wastewater Treatment Plant. The project builds upon prior investment in developing infrastructure to consolidate the Village's system with the Town of Newfane and will open up the former site for redevelopment and alternate usage. The project is entirely financed by CDBG funding and will benefit 1,335 users in the project area, 790 of which (59.2%) are low- and moderate-income persons.	HCR CDBGPI	\$750,000
Western New York	111450	Niagara	Cornerstone Orchards, LLC	Cornerstone Orchards Rehab and New Construction	Cornerstone Orchards LLC, a producer of fruits and vegetables in Niagara County, will expand their farm operation through creation of a new fruit and food production and cold storage facility, as well as new investments in agritourism with the addition of education, event, and visitation amenities. The project will enhance the capacity of the primarily local-serving farm that supplies fresh fruit varieties and juices to local restaurants, farmers markets, retail markets, and direct consumers.	ESD Grants	\$500,000
Western New York	111439	Niagara	The Aquarium of Niagara	Niagara Gorge Experience Center	The Aquarium of Niagara will renovate the vacant Niagara Gorge Discovery Center on the Niagara Gorge rim, creating new space for Great Lakes-focused exhibits along the new greenspace created through the recently-completed removal of the Niagara Scenic Parkway. This project expands the capacity of the Aquarium of Niagara as a major driver of tourism in the Niagara region. It builds on other recent investments into the Aquarium that have expanded its exhibits and ability to attract visitors.	ESD Grants	\$675,000
